Comments / notes on tonig	ht's mission and this interp	retation:	
Started with interpretation from	n Wildfire Event polygon pulled	d from NIFS 8/26/2022 @ 1908 P	DT
Start 832 Acres, Interpreted 83			

This fire is located on Diamond Peak between NF-557 and NF-1110

Heavy cloud cover over area. NO CHANGE to perimeter was visible. Small patch of scattered heat on the south and northeast borders. Mapped a few isolated heat sources.

**Note – shapefiles are labeled with MDT to match imagery date/time. Times posted on this and supporting documents are in PDT (time of local incident).
