Safety Quote of the Day:

Trust Safety - Not Luck!

Attitude is a BIG deal in being Safe

Regardless of whether you're on the Fireline or in de-mob, or in transit to your home unit or another assignment remember to have the following taking place:

Beware of your Situational Awareness, Always: Look up, Look down, and Look around.

5

=1

Final thought:

"Routine?? - Just another Day??"

Every Day is Different - Every Fire is Different

Safety Officer: Tim Crosmer

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.

Incident within Incident Emergency Procedures for Operational Resources

- 1. Report all injuries to direct supervisor
- 2. At no time during the incident/fatality or evacuation process will the name of the victim(s), tail number, engine number, or crew name be transmitted.
- 3. The closest operationally qualified resource will become IC of the Incident Within an Incident (IWI-IC) The IWI-IC will:
 - a. Notify nearest EMT(s) and request medical assistance
 - b. Contact Communications Unit/ICP: It is the responsibility of <u>ANY RESOURCE</u> to initiate "Emergency Traffic" on the Command frequency in the event of a serious accident. "Emergency Traffic" should continue to be broadcast until answered by the Communications Unit/ICP
 - c. Ensure an IWI-Incident Commander or an on-scene Point of Contact (POC) is established.
 - d. Complete a rapid patient assessment using the ICS-206 WF (located in IAP) or the 2014 IRPG (page 108-109) to provide further information to Communications or ICP and initial notification to include:
 - i. Your name (not patient) Name and claim the incident
 - ii. Location and GPS coordinates
 - iii. Urgency:

Green: Minor, non-life threatening.

Yellow: Potentially life threatening needs transport.

Red: <u>Life threatening</u>

- iv. Transport plan
- v. Additional resource or equipment needs (Logistics)
- vi. Contingency plans
- vii. Document, Document (Scribe)
- e. Continue to oversee medical emergency response
- f. Confirm transportation plan
- g. Transfer command to higher level qualification resource as needed. If transfer of command occurs, announce clearly to and all resources over the radio on the "Command and IWI tactical frequency.

Being Bear Aware

Lands surrounding the Murray fire are home to many grizzly bears. In the summer of 2021, 60 grizzly bears were observed in the Ovando area alone. Bears in the area have started hyperphagia, a period of excessive eating and drinking to fatten for hibernation. During hyperphagia, bears eat up to 20,000 kcal and put on up to 3 pounds of weight per day! Human-bear encounters are more frequent during this time and co-existing with bears requires special attention to food storage.

Precautions in ICP/Camp

- · Don't store food, trash or toiletries in tents.
- · Put all trash in bear proof bins.

Precautions in Spike/Coyote Camps

- Select a campsite away from berry patches and animal trails.
- Place sleeping tents at least 100 yards from food storage, eating and cooking areas.
- Store all food, odorous items and garbage in a bear proof container or by hanging at least 10 feet from the ground and 4 feet from top and side supports. Strain food particles from dishwater. Back haul or pack trash out daily and never bury or burn garbage.

Precautions while working on the line

- Maintain situational awareness. Be mindful of where you are and what you are doing in relation to everyone else on your division. Distance from other resources in bear country increases risk.
- Be alert, make noise and work in groups of three or more when possible. Do not run if you encounter a bear.
- Carry bear spray and know how to use it, especially when alone. Studies show bear spray is 90% effective at stopping an aggressive bear.

If You Encounter a Bear: Grizzly Bear

- If you encounter a grizzly, do not run and avoid direct eye contact. Walk away slowly.
- If the bear charges, stand your ground (you cannot outrun it). Don't scream or yell. Speak in a soft monotone voice and wave your arms to let the animal know you are human.
- If you have pepper spray, prepare to use it within 25 feet of where you're standing, use the spray.
- If you are attacked by a brown/grizzly bear, leave your pack on and PLAY DEAD. Lay flat on your stomach with your hands clasped behind your neck. Spread your legs to make it harder for the bear to turn you over. Fighting back usually increases the intensity of such attacks. However, if the attack persists, fight back vigorously.

You Encounter a Bear: Black Bear

- If a black bear is visible, but not close, alter your route so that you will move away from its area.
- If a black bear approaches, do not run. Remain calm, continue facing the bear and slowly back away. If the bear
 continues to approach, try to group together. Try to scare the bear away by shouting and acting aggressively.
- If a black bear attacks, fight back using everything in your power fists, sticks, rocks, etc.

Forecast:

Spot Forecast for Murray National Weather Service Missoula MT 459 PM MDT Sat Sep 10 2022

Forecast is based on forecast start time of 1900 MDT on September 10. If conditions become unrepresentative...contact the National Weather Service.

.DISCUSSION...A ridge of high pressure will strengthen over the Murray Fire on Sunday. Moderate west-southwest winds will develop during the afternoon hours on the ridges. Expect slightly warmer and drier conditions.

.SUNDAY ...

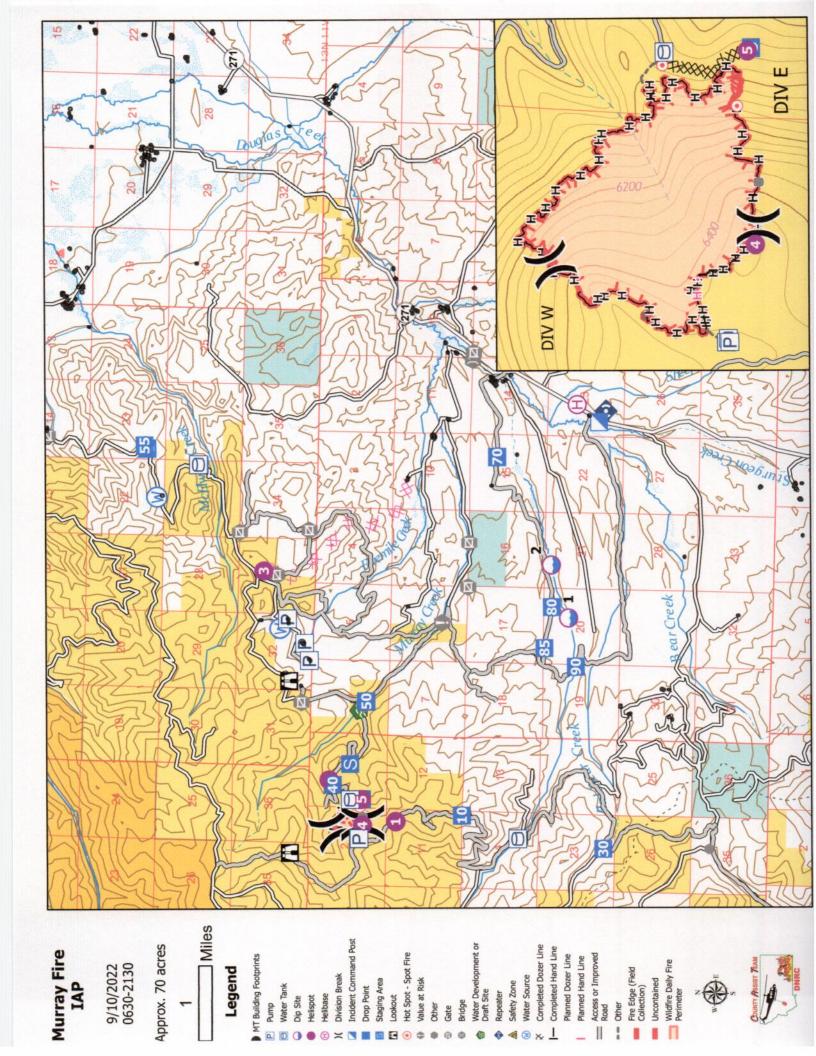

- * Sky/Weather......Mostly sunny. Haze in the morning.
- * CWR (> 0.10 Inch)...0 percent.
- * LAL.....1.
- * Max Temperature....72-77.
- * Min Humidity......10-15 percent.
- * Wind (20 ft)......West 2-3 mph in the morning increasing to west 4-8 mph. Gusts up to 20 mph after 1400.
- * Haines Index.....5 moderate.

.SUNDAY NIGHT ...

- * Sky/Weather.....Mostly clear.
- * CWR (> 0.10 Inch)...0 percent.
- * LAL.....1.
- * Min Temperature....51-56.
- * Max Humidity......31-36 percent.
- * Wind (20 ft)......West 6-8 mph. Gusts up to 20 mph in the evening.

.MONDAY . . .

- * Sky/Weather.....Partly cloudy.
- * CWR (> 0.10 Inch)...0 percent.
- * LAL.....1.
- * Max Temperature....73-78.
- * Min Humidity......18-23 percent.
- * Wind (20 ft)......Variable 2-4 mph becoming east around 5 mph in the afternoon.
- * Haines Index.....4 low.
