Date and Time Products Delivered to Incident:		Digital files: Posted to: <ul style="list-style-type: none"> • ftp.nifc.gov/incident_specific_data/n_rockies/2022_fires/2022_Sutton/IR • NIFS 	
Comments /notes on tonight's mission and this interpretation: I began mapping from the previous night's IR Heat Perimeter. The fire grew by 4 acres and contained scattered heat but no intense heat. There was a new isolated heat just outside the main perimeter to the south towards Sutton Mountain.
