Date and Time Imagery Received by Interpreter:		Type of media for final product: PDF Maps, Geodatabase/Shapefiles, KMZ, IRIN Log	
Date and Time Products Delivered to Incident:		Digital files: Posted to: <ul style="list-style-type: none"> • ftp.gov/incident_specific_data/n_rockies/2023_Fires/2023_LittleBear/IR • ftp.gov/incident_specific_data/n_rockies/2023_Fires/2023_WestFork/IR • NIFS 	
Comments /notes on tonight's mission and this interpretation: I began mapping from the most recent NIFS perimeters. Little Bear (1,197 acres): There was minor heat perimeter expansion (7 acres) with minimal intense and scattered heat. West Fork (389 acres): The heat perimeter expanded by 17 acres on the southern flank. Beyond that there was limited scattered and isolated heat.
