MILLER PEAK FIRE

INCIDENT ACTION PLAN

THURSDAY JULY 25

DAY OPERATIONS 0700-2100

P1R3H4 (0116)

904208

MT-LNF-240427

FOR CHECK-IN, IAPS AND MAPS

INCIDENT OBJECTIVES	1. Incident Name MILLER PEAK FIRE	2. Date Prepared July 24, 2024	3. Time 2100
----------------------------	---	--	------------------------

4. Operational Period: **July 25, 2024 Day Operations 0700-2100**

Incident Objectives

1. Protect the population and private residences in Miller Creek, Bear Run Creek, Upper Schwartz Creek, and I-90 corridor residential zones to avoid negative impacts from the fire for the duration of the incident.
2. Protect the critical values present within the I-90 corridor including, but not limited to, the power infrastructure, railroad assets, and the underground gas pipeline to avoid negative impacts from the fire for the duration of the incident.
3. Protect isolated critical values at risk including the BPA transmission infrastructure to the S/SW of the fire, and Miller Peak and BNSF (Quigley) communications sites to avoid negative impacts from the fire for the duration of the incident.
4. Execute aggressive initial attack, commensurate with critical values at risk, of any new wildfire starts within the incident TFR and support additional local initial attack activity as requested for the duration of the delegated authority to the IMT.
5. Coordinate all fire management activities throughout the life of the incident with assigned resource advisors to help avoid negative impacts to sensitive cultural resources within the fire area.

Incident Requirements

- Incorporate sustainable operations into all incident management activities where feasible.
- Coordinate with the Resource Advisor on vehicle and equipment weed washing and AIS requirements and protocols.
- Keep all local stakeholders including Tribal partners, the Missoula County Sheriff's Offices, local fire agencies, internal staff, external partners, business leaders, and the public informed on incident progress.
- Maintain a zero-tolerance policy for harassment, alcohol, or illegal drug use during the incident.
- Coordinate all closures and evacuations with law enforcement personnel.
- Utilize local trainees to the extent feasible.
- Practice proper food and garbage storage to avoid conflicts with grizzly and black bears.
- Within the Plant RNA (Research Natural Area) at the western heel of the fire utilize MIST (Minimum Impact Strategies and Tactics) when feasible and avoid retardant usage.

Fire Weather Forecast

FORECAST NO: 09

PREDICTION FOR: 24 Hr Shift

SHIFT DATE: Thursday 7/25/2024

TIME AND DATE ISSUED: 7/24/2024 1900 hrs

INCIDENT: Miller Peak Fire

UNIT: Lolo NF

SIGNED: Trent Smith *Trent P. Smith*

Incident Meteorologist (IMET)

...RED FLAG WARNING TODAY 1200 TO 2100 MDT...

Discussion: A cold front moved through the area last night. Temperatures will be significantly cooler, but humidity readings will still be quite low. Strong westerly winds will develop once again this afternoon, so the combination of wind and humidity will once again create critical fire weather conditions. The colder air-mass, dry air and clear night should cause temperatures to drop into the low 40s tonight.

WEATHER FORECAST FOR TODAY:

Sky/Weather: Mostly clear becoming partly cloudy in the afternoon. 10% chance of a rain shower in the afternoon.

Max Temperature: Lower Elevation 79-84 and 71-76 mid-slopes/ridges.

Min RH: 22-27 percent.

20 ft Winds:

Valleys/Lower Slopes: Terrain driven winds 3-8 mph. Plant and Park creeks west 15-20 gusts to 35 mph by 1400 MDT.

Ridges: West 3-8 mph becoming west-northwest 20-25 mph gusts to 40 mph by 1400 MDT.

Haines Index: 3 Very Low because Stability: 1 & Moisture: 2 **Transport Wind:** WSW 25 mph.

Inversion: 1100 ft inversion starting to lift at 0700 reaching 6000 ft by 1700 MDT.

TONIGHT:

Sky/Weather: Mostly clear.

Min Temperature: 41-46 lower elevations and 48-53 mid-slope/ridges.

Max RH: 71-76 percent lower elevations and 38-43 percent mid-slope/ridges.

20 ft Winds:

Valleys/Lower Slopes: Terrain driven 3-8 mph. Plant and Park creeks west 10-15 mph gusts to 30 mph in the evening.

Ridges: West-northwest 18-23 gusts to 40 mph decreasing to 3-8 mph after midnight.

Inversion: Developing after 2100 near 500 ft.

FRIDAY:

Sky/Weather: Mostly sunny.

Max Temperature: 77-82 lower elevations and 69-74 mid-slopes/ridges.

Min RH: 14-19 percent.

20 ft Winds:

Lower Valleys: Terrain driven 3-8 mph. Park creek west 5-10 mph gusts to 15 mph by mid afternoon.

Mid-slopes and Ridges: West-northwest 3-8 mph becoming northwest 15-20 mph gusts to 30 mph by mid afternoon.

Haines Index: 4 Low because Stability: 2 & Moisture: 2 **Transport Wind:** W 18 mph.

Weather observations can be texted to 406-360-6330 or emailed to trent.smith@noaa.gov

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 9	TYPE OF FIRE: Wildland Fire
FIRE NAME: Miller Peak	OPERATIONAL PERIOD: Thursday, 07/25/2024
DATE ISSUED: July 24, 2024	TIME ISSUED: 1900
UNIT: MT-LNF	SIGNED: Mike Pagoaga - FBAN

WEATHER

RED FLAG WARNING

Temp: 79-84° **RH:** 22-27% **Haines:** 3 **Wind:** West 3-8 becoming west-northwest 20-25, gusts to 40

*Local Weather Thresholds that shout **WATCH OUT:** Temperatures above 80°, Relative Humidity below 20%, 20' winds above 15 mph, 1000-HR below 12%*

FUELS

ERC remain at or above historical values. Heavy fuel loading onsite with an absence of fire disturbance or fuels treatments ahead of the fire. Dead Fuels Moistures at critical levels with 100-hour and 1000-hour fuel moistures at 8 and 9 percent.

FIRE BEHAVIOR

General Fire Behavior

Due to dryness and continuity of dead fuels, the fire will continue to spread east. Potential for wind driven runs along the ridgetops. Single tree torching and short-range spotting is likely. New starts outside of containment lines will be difficult to contain.

Flame length:6-12, ROS: 10-20 ch/hr

Fine Dead Fuel Moisture: 4% unshaded, 7% shaded

Probability of Ignition 75%, Spotting Distance less than 1/2 mile

Specific Fire Behavior:

BRANCH I

DIV A: Heavy fuels continue to consume, unburned islands and standing red-dead trees still have potential for spotting over ridgelines.

DIV Z: Continued smoldering interior. Flare-ups and spotting potential remains. Northwest winds will again test containment lines.

BRANCH II

DIV K: Winds align with Greenough Creek to create an increased potential for spotting outside containment lines. Torching from unburned islands or internal fire dried fuels will be the source.

DIV M: Fire on the south of Moccasin Creek is possible. This can come from spotting or heavy fuels across the drainage.

Safety

Snags and fire weakened trees are present throughout. Look up, down and around.

Safety Message

Human Factors on the Fireline

Distractions and lack of focus on the fireline can draw your attention away from potential problems or hazards. Decision making can be a struggle when you are fatigued and your ability to filter the important information is diminished.

- What is your experience level on this incident?
 - Is this your first fire assignment?
 - Are you excited or a little bit scared?
 - Are you the seasoned veteran with the “just another fire” or “this is a routine fire attitude”?
- Are there stressors from your job or from home that affect your decision-making abilities?
- Are you fully concentrating on the tasks at hand?
 - Are you getting enough rest? Cannot sleep, worrying about what tomorrow will bring or something going on at home?
- Are there personal or work-related distractions that are affecting your decision-making processes?
- What environmental issues are distracting you from the tasks at hand?
 - How is your overall attitude?
 - Has a lack of sleep or food made you angry?
- Has one of your coworkers done something to upset you and you just cannot get over it?
- What is the Human Factor that is most affecting you today?

Team Safety Officers: Leroy Holguin, Jonathan White (T)

Safety is your Responsibility!

Northern Rockies Complex Incident Management Team

7. Control Operations								
<p>Task: Continue to patrol and secure direct line from the A/Z break to the 2132 road. Continue to hold and secure from DP31 edge to DP20. Look for opportunities to burn prepped line.</p> <p>Purpose: Minimize impacts to the Miller Creek and Miller Peak communications site.</p> <p>End State: Miller Creek infrastructure and Miller Peak communications are protected.</p>								
8. Special Instructions:								
<p>1) If fire crosses to the west of sub-ridge between Park and Plant Drainages (M.A.P. 1). Notify DIVS A & OSC. Evaluate the need for population and structure protection along Miller Ck. Rd. to protect Miller Ck. Homes. Evaluate need to raise current evacuation warning to evacuation order. Coordinate with Local Emergency Services, County fire officers, & Missoula Co. Sheriff.</p> <p>2) If fire crosses north of Park Creek (M.A.P.4). Notify DIVS A & OSC. Evaluate the opportunity for air resources to limit impacts to the Miller Peak comms site. IC and LOFR will notify local Emergency Management.</p>

7. Control Operations								
Task: Scout and initiate direct handline location north of Moccasin Creek. Prep indirect line on 17758 Road and Swartz Creek Road.								
Purpose: Minimize fire growth and protect improvements to Swartz Creek and I-90 corridor.								
End State: Private property and Swartz Creek are not directly impacted by fire.								
8. Special Instructions:								
1) If fire crosses to the south of middle fork of Swartz Creek (M.A.P. 2). Notify DIVS M, OSC, and LOFR. Appropriate notifications to the Bonneville Power (BPA) will be made. Seek opportunities for direct suppression actions in the 8 mile Saddle burn scar to limit fire growth to the South.								
2) If fire moves east of the confluence of Moccasin and Greenough Drainages (M.A.P. 3). Notify DIVS M, OSC and LOFR. Appropriate notifications of affected jurisdictions in the I-90 corridor will be made. Evaluate need for and execute defensive actions for Swartz Creek Residences and impacted areas along the I-90 corridor.

7. Control Operations							
<p>Task: Scout and initiate direct handline location north of Moccasin Creek. Prep indirect line on 17758 Road and Swartz Creek Road.</p> <p>Purpose: Minimize fire growth and protect improvements to Swartz Creek and I-90 corridor.</p> <p>End State: Private property and Swartz Creek are not directly impacted by fire.</p>							
8. Special Instructions:							
<p>1) If fire crosses to the south of middle fork of Swartz Creek (M.A.P. 2). Notify DIVS M, OSC, and LOFR. Appropriate notifications to the Bonneville Power (BPA) will be made. Seek opportunities for direct suppression actions in the 8 mile Saddle burn scar to limit fire growth to the South.</p> <p>2) If fire moves east of the confluence of Moccasin and Greenough Drainages (M.A.P. 3). Notify DIVS M, OSC and LOFR. Appropriate notifications of affected jurisdictions in the I-90 corridor will be made. Evaluate need for and execute defensive actions for Swartz Creek Residences and impacted areas along the I-90 corridor.</p>

7. Control Operations							
<p>Task: Continue to assess values at risk and structures in the I-90 corridor and Bear Run Zone, And plant Creek Zone. Maintain sprinkler lines on outlying structures in Upper Schwartz Creek Zone.</p> <p>Purpose: Reduce threat to values at risk and improve effectiveness of protection with reduced resources.</p> <p>End State: Develop Structure protection plan to protect values at risk.</p>							
8. Special Instructions:							
<p>If fire moves east of the confluence of Moccasin and Greenough drainages (Map 3) notify OSC, DIVS L, Structure group, and LOFR. Appropriate notifications of affected jurisdictions in I-90 corridor will be made. Evaluate need for executing defensive actions for Swartz Creek residences and impacted areas along the I-90 corridor.</p> <p>Communication: Monitor Montana State mutual aid (RED) channel 13 communications when mutual aid resources are assisting with structure protections.</p>

The community says thanks

Way to go,
those winds
yesterday were
a bugger!!

Thank you
firefighters!

Many thanks to all the
people working to
handle this fire and
keep us safe!

Stay safe and
thank you for all
your service

Thank you
firefighters! And
for these
updates.

Keep up the
amazing work

Thank you wildland
firefighters, you are
an incredible group
of people!!!!

Thank you
for all your
hard work!
Praying for
your
safety! 🙏❤️

Resource Advisor's Message – Miller Peak Fire 07/25/2024

Archaeological Resources

Archaeological resources are an irreplaceable part of America's heritage. Several pieces of legislation have been enacted that protect these resources.

Over a century ago, President Theodore Roosevelt signed into law the Antiquities Act of 1906. Through a succinct piece of legislation, the Antiquities Act allowed for the:

- establishment of a Federal policy to protect antiquities
- designation of a means to set aside areas as National Monuments
- establishment of a permitting process for research of antiquities and a penalty for unauthorized access to antiquities

The National Historic Preservation Act was signed into law by Lyndon B. Johnson on October 15, 1966, is legislation intended to preserve historical and archaeological sites in the United States of America. The act created the National Register of Historic Places, the list of National Historic Landmarks, and the State Historic Preservation Offices.

The Archaeological Resources Protection Act (ARPA) was enacted in 1979. The main focus of ARPA is on regulation of legitimate archeological investigation on public lands and the enforcement of penalties against those who loot or vandalize archeological resources. Both the original statute and, especially, the amendments to it in 1988 provided authority to Federal officials to better manage archeological sites on public land.

ARPA essentially gave teeth to the historic preservation laws. For a felony offense, first time offenders can be fined up to \$20,000 and imprisoned for up to one year. Second time felony offenders can be fined up to \$100,000 and imprisoned for up to 5 years. Section 7 of ARPA enables Federal or Indian authorities to prosecute violators using civil fines, either in conjunction with or independent of any criminal prosecution. Section 8 (b) of the statute allows the court or civil authority to use forfeiture of vehicles and equipment used in the violation of the statute as another means of punishment against convicted violators.

When artifacts are stolen from prehistoric and historic sites, their context and subsequent archaeological value is removed. In short, if you find an artifact- projectile point, pottery shard, bottle- enjoy it where it is located. Take a picture, but leave it where you found it.

HUMAN RESOURCE MESSAGE

There is zero tolerance for harassment, alcohol, or federally prohibited substances on this fire incident.

A lot of our problems are created in our minds.

Most of what we worry about never happens.

Don't waste your life worrying.

Live life now!

Debby Hassel, HRSP (979) 255-5513

Check **Demob List** in the IAP for your assigned check-out date & time.

DATE: ____ / ____ TIME: ____ : ____

On your demob day (or before), complete the following items:

- FINANCE: Email or turn in any remaining documents required by Finance (i.e. shift tickets, CTRs, contracts, AD paperwork, pre & post equipment inspections).
- SUPPLY: Return any items checked out from Supply.
- COMM: Return any items checked out from Communications.
- WEED WASH: Complete Weed Wash and Scan the QR code there to verify completion.

For Finance close-out, In-Person is preferred. In-person closeout is available at ICP at Jeannette Rankin Elementary, Miller FOB and Bonita FOB.

- For in-person close-out, report to Finance at your SCHEDULED TIME. When you finish, scan the DEMOB QR Code below to complete demob.
- If virtual checkout is required, call Finance at **(208) 867-9570**. Scan the DEMOB QR Code below to complete demob.

✈ If you are flying home, please contact DMOB at least 3 days in advance of your demob date. Call, text, or email DMOB the following information:

Name on ID • Gender • Email for itinerary •
 Date of Birth • Date and Time you are able to
 leave ICP • Date of the flight • Airports you are
 flying to and from •
 Optional info: suggested flights • frequent flyer
 number.

Completed Demob

If you have questions, call or text DMOB at **(208) 891-7380** or email

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT Med Unit/ Communications (Verify correct frequency prior to starting report)

Ex: Med Unit Lead Div. Alpha. Stand-by for Emergency Traffic.

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: Med Unit Lead I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrinsication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
