INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Banana Lake	2. Operational Period: Date From: 7/12/2025 Date To: 7/12/2025 Time From: 0630 Time To: 2000															
3. Objective(s): <ol style="list-style-type: none">1. Public and Firefighter safety is our top priority. We will utilize established risk management principles when taking action and developing tactics.2. The Garnet Fire is a full suppression fire. Direct attack is the preferred strategy in order to mitigate prolonged resource exposure. Some situations may call for indirect tactics to utilize natural features, breaks in fuels, topographical features or manmade barriers.3. Provide timely and accurate information to agencies, stakeholders and the public by utilizing the planning cycle, media outlets and stakeholder meetings.4. Keep costs/actions commensurate with risk, probability of success and expected fire behavior.5. Garnet fire personnel will be polite, respectful and sensitive to the impacts of the fire on the local public, businesses and agencies. We will strive to maintain or improve existing relationships throughout the span of the incident.6. This incident will be a positive work environment, free from harassment. All personnel will be treated with dignity and respect.																
4. Leader's Intent <p>The Garnet Fire is located on BLM ownership with DNRC fire protection in a wilderness study area. Close coordination with BLM READS and Agency Administrators on all operational decisions is paramount to navigating the special requirements with the WSA. In order to protect the critical values at risk, we will focus our efforts on minimizing fire growth. Values at risk are private lands and structures east of fire, threatened aquatic resources in Yourname and Wales Creek , wildlife habitat, grazing allotments, BLM repeater and warming hut on Elevation Mt, eligible historic sites near the McElwain jeep road, and wilderness/backcountry area characteristics. We are professional, hardworking, respectful, kind and understanding of others that we interact with throughout the life of this incident.</p>

NARRATIVE:

Decision Time

Fire Order of the Day: *Stay alert, keep calm, think clearly, act decisively.*

Yep, it's the same old fire, we are going to work in the same old places. Driving the same roads. Lots of spots near the lines are smoking. Winds are continually shifting directions.

So.... Tell me something new.

Now is NOT the time to get complacent.

Not the time to forget the basics.

Not the time to let down your guard.

What is your plan?

Remember the common denominators of fire behavior on tragedy fires!! Continuous monitoring of RISK ASSESSMENT and keep monitoring what you are doing and making the necessary adjustment.

The decision space is larger than you may realize, so remember to:

Stop, Think, Talk, and then Act!

SAFETY OFFICER:

FIRE WEATHER

DISCUSSION

An upper ridge will be over the Pacific Coast on Saturday while the region will be under stronger westerly flow aloft. Winds aloft will begin to increase by Saturday morning. Westerly wind gusts to 24 mph are possible in the afternoon and evening. As the ridge shifts eastwards Saturday night into Sunday, the winds will lessen. Westerly winds to 12 mph are expected Sunday afternoon, along with the heat and dry RHs. The ridge breaks down Monday and it could be an elevated fire weather day as westerly winds could be sustained 14 to 18 mph with gusts 27 to 36 mph in the afternoon/evening. Cloud cover will be on the increase. A WIND SHIFT is expected Monday night from west to easterly, but cooler temps and higher RHs are anticipated for Tuesday. There is a 40 percent chance for rainfall exceeding 0.09" and minimum RHs could range between 48 and 55 percent. Highs in the upper 50s. A gradual warm-up is expected by the end of next week.
