INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Garnet/Green Mountain	<div style="display: flex; justify-content: space-between;"><div>2. Operational Period:</div><div>Date From: 7/15/2025 Date To: 7/15/2025 Time From: 0630 Time To: 2000</div></div>															
3. Objective(s): <ol style="list-style-type: none">1. Public and Firefighter safety is our top priority. We will utilize established risk management principles when taking action and developing tactics.2. The Garnet Fire is a full suppression fire. Direct attack is the preferred strategy in order to mitigate prolonged resource exposure. Some situations may call for indirect tactics to utilize natural features, breaks in fuels, topographical features or manmade barriers.3. Provide timely and accurate information to agencies, stakeholders and the public by utilizing the planning cycle, media outlets and stakeholder meetings.4. Keep costs/actions commensurate with risk, probability of success and expected fire behavior.5. Garnet fire personnel will be polite, respectful and sensitive to the impacts of the fire on the local public, businesses and agencies. We will strive to maintain or improve existing relationships throughout the span of the incident.6. This incident will be a positive work environment, free from harassment. All personnel will be treated with dignity and respect.																
4. Leader's Intent: <p>The Garnet Fire is located on BLM ownership with DNRC fire protection in a wilderness study area. Close coordination with BLM READS and Agency Administrators on all operational decisions is paramount to navigating the special requirements with the WSA. In order to protect the critical values at risk, we will focus our efforts on minimizing fire growth. Values at risk are private lands and structures east of fire, threatened aquatic resources in Yourname and Wales Creek , wildlife habitat, grazing allotments, BLM repeater and warming hut on Elevation Mt, eligible historic sites near the McElwain jeep road, and wilderness/backcountry area characteristics. We are professional, hardworking, respectful, kind and understanding of others that we interact with throughout the life of this incident.</p> <p>General Situational Awareness</p>

DAILY SAFETY MESSAGE

DRIVING

- Obey speed limits. Drive cautiously.
- Be alert for other traffic and roadway hazards.
- Slow down, keep right, and expect someone around every blind corner.
- If you are driving that is the only thing you should be doing.

COMPLACENCY

- Complacency – One of the standard fire orders stresses the importance of staying alert. Complacency and staying alert are not compatible. The hazards haven't gone away so we need to stay focused on them. It only takes a second of complacency for an accident to occur.

Safety is NOT “someone else’s” job!
