Date and Time Imagery Received by Interpreter: 08/22/2015 @ 2317 MDT		Type of media for final product: PDF map, zipped shapefiles and KMZ files Digital files sent to: ftp://ftp.nifc.gov/incident_specific_data/n_rockies/2015_fires/2015_Ditch/IR/20150823	
Date and Time Products Delivered to Incident: 08/23/2015 @ 0015 MDT			
Comments /notes on tonight's mission and this interpretation: Not enough heat visible to discern a definite perimeter but could delineate 4 hot spots and isolated heat within them. Hot spots are located on ridge west of Selway River at its confluence with Bear Creek, south of Short Creek and north of Ditch Creek.
