12. Prepared By: Print Name: Scott Hamlet - SITL Date/Time Prepared: 09/03/2015 1600 PDT		13. Approved By: Print Name: Mark Morales - ICT1 Signature: _____									
14. Date/Time Submitted: 09/03/2015 1739 PDT		15. Primary Location, Organization, or Agency Sent To: NRCC									
16. State: ID	17. County / Parish / Borough: Lewis		18. City: Kamiah, ID								
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership (if different than jurisdiction): ID-MCS									
22. Latitude/Longitude: Latitude: 46° 13' 22" Longitude: 116° 8' 0"	23. US National Grid Reference: Grid Zone: x-Coordinate: y-Coordinate:		24. Legal Description: Principal Meridian: Township: Range: Section: 1/4 Sec: of 1/4 Sec:								
25. Short Location or Area Description (list all affected areas or a reference point): Fires in proximity in Clearwater, Lewis, Idaho and Nez Perce Counties			26. UTM Coordinates: Zone: Easting: Northing:								
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): http://ftp.nifc.gov/incident_specific_data/n_rockies/2015_fires/2015_ClearwaterComplex/ http://ftp.nifc.gov/incident_specific_data/n_rockies/2015_fires/2015_MunicipalComplex/ http://ftp.nifc.gov/incident_specific_data/n_rockies/2015_fires/2015_Motorway_North/											
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):											

Incident Status Summary (ICS-209)

Incident: CLEARWATER/MUNICIPAL COMPLEX

**Moderate
Backing
Creeping
Smoldering**

Narrative:
No advancement occurring on the Clearwater/Municipal Complex. Reburn has been occurring in heavy needle-cast. Isolated interior hot spots on the Municipal, Fisher, and Greer fires continue to smolder.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Timber (Grass and Understory)
Timber (Litter and Understory)
Medium Logging Slash**

Narrative:

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc): Damage Assessment is inclusive of all fires.	A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
	E. Single Residences	50	0	48
	F. Multiple Residences	0	0	0
	G. Mixed Commercial / Residential	0	0	0
	H. Nonresidential Commercial Property	0	0	0
	I. Other Minor Structures	80	0	70

33. Life, Safety, and Health Status/Threat Remarks: Remote locations, steep narrow roads, vehicle and machinery	34. Life, Safety, and Health Threat Management:
---	---

Incident Status Summary (ICS-209)

Incident: CLEARWATER/MUNICIPAL COMPLEX

<p>traffic associated with agriculture and salvage logging are creating hazards to resources traveling to and from and working the firelines. Resources are exercising extreme caution as they work on critical areas from hazards of falling trees in very steep and remote terrain.</p>		Active?
<p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): Friday Sept 4th: Drier and slightly warmer; mixed sun/clouds. Few showers possible after 1500. High Temps: Plateaus/Ridges 55-65, Valleys 65-75. Min Humidity: Plateaus/Ridges 40-50%, Valleys 32-40%. 20 ft winds: Ridges NE 5-10 mph, Slope/Valley Terrain-driven upslope-upvalley 2-5 mph. Haines: 3 (very low) LAL 1 CWR: (>0.10"): 25%, late Strong Inversion, mixing out around 1200.</p>	<p>A. No Likely Threat</p> <p>B. Potential Future Threat</p> <p>C. Mass Notifications in Progress</p> <p>D. Mass Notifications Completed</p> <p>E. No Evacuation(s) Imminent</p> <p>F. Planning for Evacuation</p> <p>G. Planning for Shelter-in-Place</p> <p>H. Evacuation(s) in Progress</p> <p>I. Shelter-in-Place in Progress</p> <p>J. Repopulation in Progress</p> <p>K. Mass Immunization in Progress</p> <p>L. Mass Immunization Complete</p> <p>M. Quarantine in Progress</p> <p>N. Area Restriction in Effect</p> <p>O. Road Closure</p> <p>P. Trail Closure</p> <p>Q. Area Closure</p>	<p>X</p>

<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p> <p style="padding-left: 40px;">The presence of forecasted cloud cover and higher humidities should keep potential for increased fire activity to a minimum. If thunderstorms should develop and lightning ignite new fires, there is potential for large fire growth in the event the storms do not produce ample precipitation. The Clearwater Complex is still mainly smoldering as well as each of the fires in the Municipal Complex.</p> <p>12 hours:</p> <p>24 hours:</p> <p>48 hours:</p> <p>72 hours:</p> <p>Anticipated after 72 hours:</p>	
--	--

<p>37. Strategic Objectives (define planned end-state for incident):</p> <ol style="list-style-type: none"> 1. Protection of human life and safety is the first priority for all actions and may override all incident and strategic operational objectives. 2. Keep fires within existing control lines 3. Protect waterways and riparian areas 4. Provide and conduct Initial Attack (IA) on new fires if requested by the districts or association.. 5. Provide accurate and timely information to public through media release, public meetings and social media. 6. Ensure suppression strategies consider cost containment and most efficient organization to minimize impacts to landowners. 7. Implement full suppression strategy using direct and indirect tactics to contain Lost Hat and Musselshell fires. Remaining fires on the Motorway North are implementing point protection for values at risk. 	
---	--

<p>38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and</p>	
--	--

Incident Status Summary (ICS-209)

Incident: **CLEARWATER/MUNICIPAL COMPLEX**

continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:
There continues to be a slight risk to the Community of Pierce. The Northern portion of the Clearwater Complex (known as the Lolo 2 fire area) contains unburned fuels near the holding lines. Close attention is focused in the
12 hours: **Lolo drainage area for any potential flare ups. Any fire escaping containment could move rapidly up the drainage with ground fire, group torching and short crown runs that may have impacts to the Community of Weippe located approximately 3 miles to the Northeast.**
The communities of Weippe and Pierce may become impacted should the Clearwater fire become active.
24 hours: **Citizens from these communities continue to show a high level of interest concerning the fires as they become more visible. New fire starts may result in a significant commitment of resources to respond to initial attack.**
48 hours:
72 hours:
Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:
4 HEQB - Currently several pieces of heavy equipment lack supervision and other overhad have been attempting
12 hours: **to maintain oversight but are exceeding their span of control which raises concerns with safety and insuring instructions and assignments are clear and understood.**
24 hours:
48 hours:
72 hours:
Anticipated after 72 hours:

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
1) critical resource needs identified above,
2) the Incident Action Plan and management objectives and targets,
3) anticipated results.
Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.
Local communities remain concerned with continued potential risks from the Clearwater Complex, especially after sustaining significant structural losses in their respective communities earlier.

41. Planned Actions for Next Operational Period:
Clearwater Complex: Concentrating resources on DIV Alpha (Woodland Community). Suppressing hotspots near homes and control lines. Patrol perimeter.
Continuation of suppression repair activities in both the Municipal and Clearwater Complexes.

42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):

43. Anticipated Incident Containment or Completion Date:

44. Projected Significant Resource Demobilization Start Date:

45. Estimated Incident Costs to Date: **\$24,818,329.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):
The Municipal Complex, Clearwater Complex and Motorway North Complex are being managed by Wilkins's Type 1 Team.

Incident Status Summary (ICS-209)
