---	-------------------------------------

Incident Status Summary (ICS-209)

Incident: CLEARWATER/MUNICIPAL COMPLEX

<p>Remote locations, steep narrow roads, vehicle and machinery traffic associated with public hunting, agriculture, and salvage logging are creating hazards to resources traveling to and from and working the firelines. Resources are exercising extreme caution as they work on critical areas from hazards of falling trees in very steep and remote terrain.</p> <p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): WEATHER FORECAST SUNDAY:</p> <p>WEATHER: Drier; not as chilly. More clouds than sun; light scattered showers (dry most of the time).</p> <p>MAX TEMPERATURE: Plateaus/Ridges 52 to 62F, Valleys 62 to 70F.</p> <p>MIN HUMIDITY: Plateaus/Ridges 45 - 55%, Valleys 35 - 45%.</p> <p>20 FT WINDS: PLATEAUS/RIDGES - Southwest to West 6-12 mph. SLOPE/VALLEY - Variable to Southwest 3-7 mph.</p> <p>HAINES INDEX: 3 very low</p> <p>LAL: 1</p> <p>CWR: (> 0.10 Inch): 20%</p> <p>STABILITY/INVERSION: Moderate inversion, mixing out around 1300.</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="2" style="text-align: left; padding: 2px;">Management:</th> </tr> <tr> <th style="width: 80%;"></th> <th style="width: 20%; text-align: center; padding: 2px;">Active?</th> </tr> </thead> <tbody> <tr> <td style="padding: 2px;">A. 36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

The presence of forecasted cloud cover and higher humidities should keep potential for increased fire activity to a minimum. The Clearwater Complex is still mainly in patrol status as well as each of the fires in the Municipal Complex. Reburn potential exists in heavy needle cast on Clearwater Complex.

12 hours:

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Strategic Framework:

- 1. Protection of human life and safety is the first priority for all actions and may override all incident and strategic operational objectives.**
- 2. Keep fires within existing control lines**
- 3. Protect waterways and riparian areas**
- 4. Provide and conduct Initial Attack (IA) on new fires if requested by the districts or association.**
- 5. Provide accurate and timely information to public through media release, public meetings and social media.**
- 6. Ensure suppression strategies consider cost containment and most efficient organization to minimize impacts to landowners.**

Incident Status Summary (ICS-209)

Incident: CLEARWATER/MUNICIPAL COMPLEX

7. Implement full suppression strategy using direct and indirect tactics on all fires except Footrot, Hemlock Ridge and Pete Forks on the Motorway North Complex. Utilize point protection and monitoring strategies on these fires.

Municipal, Old Greer, Fisher, Clearwater and Motorway North:

- 1. Involve Clearwater, Lewis, and Nez Perce County officials in the decision making processes as appropriate to jurisdictions and responsibilities Implement full suppression strategy using direct and indirect tactics to protect and prevent further damage to structures.**
- 2. Use the risk management process to identify values at risk and risk mitigation measures to manage risk and exposure to first responders and the public.**
- 3. Protect sensitive Nez Perce cultural resources that exist or may be encountered. Sites of concern should be undisturbed and avoided consistent with reporting to tribal agency administrator or resource advisor.**
- 4. The Incident Management Team will develop a wildfire protection assessment plan for the Pierce, Idaho area focusing on the lands between the Forest Service Boundary and the town of Pierce. In the event the Motorway North Fire approaches the Forest Boundary, the Blue Team will initiate suppression action to stop westward movement of the fire and protect the Pierce area structures. This will be done in concert with CPTPA and the IMT.**
- 5. Branch priorities are Lolo 2, Carrot Ridge, and Lawyer 2. Assess community protection opportunities in Kamiah, Weippe, Fraser, Pardee Corner, Woodland, Harrisburg, Caribel and Glenwood.**
- 6. Reduce the probability of fire disrupting or making undue impacts to private or government infrastructure such as roadways (especially Highways 12, 64, 11 and 162 as well as 100 Road), power lines (prioritize transmission over distribution), and communication sites.**

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: No major concerns or risks at this time.

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours:

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,**
- 2) the Incident Action Plan and management objectives and targets,**
- 3) anticipated results.**

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Local communities remain engaged with ongoing operations (mop-up and suppression repair).

41. Planned Actions for Next Operational Period:

Incident Status Summary (ICS-209)

Incident: CLEARWATER/MUNICIPAL COMPLEX

Clearwater Complex: Concentrating suppression repair resources on DIV A (Woodland Community). DIVs G & J suppression repair complete and in patrol status. DIVs T, F, R, E/X in patrol status. Suppress hotspots near homes and control lines. Respond to Intial Attack fires.

Municipal Complex - Municipal Fire suppression repair complete. Patrol status. Continuation of suppression repair activities on Fisher Fire. Respond to Intial Attack fires.

42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):

43. Anticipated Incident Containment or Completion Date:

44. Projected Significant Resource Demobilization Start Date:

45. Estimated Incident Costs to Date: **\$25,556,424.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

The Municipal Complex, Clearwater Complex and Motorway North Complex are being managed by Wilkins's Type 1 Team. The Motorway Complex (including Motorway North) is being reported by SW IMT.

Incident Name	Suppression Strategy	Size	MMA	Cost to Date
Lawyer 2	Monitor	41,195	80 %	\$7,262,203.00
Municipal	Monitor	1,770	100 %	\$6,159,325.00
