33. Life, Safety, and Health Status/Threat Remarks: Potential remains for fire to make advancement and pose a threat to the town of Orofino should winds significantly increase and/or if rolling material ignites unbured fuels below containment lines. Very dense concentrations of smoke still pose a significant air quality concern throught the Clearwater Valley especially in the community of Orofino.	34. Life, Safety, and Health Threat Management: <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 5px;"> <tr> <td style="width: 80%;"></td> <td style="width: 20%; text-align: center;">Active?</td> </tr> <tr> <td style="padding: 2px;">A. D. Mass Notifications Completed											
35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):											

Incident Status Summary (ICS-209)

Incident: MUNICIPAL COMPLEX

<p>High temps will range from 85 to 91, with RH values of 13-18%. Northwesterly flow will continue for next couple of days. Winds today will be NW at 9 to 14 mph. Weather for Wednesday calls for high temps between 88 and 95, with RH values from 12-18% Winds are forecasted to be W/NW 8 to 12 mph. Inversions are expected to persist in the canyons and drainages through mid afternoon with breaks developing late morning on ridgetops.</p>		Active?
	E. No Evacuation(s) Imminent	
	F. Planning for Evacuation	
	G. Planning for Shelter-in-Place

	I. Shelter-in-Place in Progress	
	J. Repopulation in Progress	
	K. Mass Immunization in Progress	
	L. Mass Immunization Complete	
	M. Quarantine in Progress	
	N. Area Restriction in Effect	X
	O. Road Closure	X
	P. Trail Closure	
Q. Area Closure		

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

The Municipal fire will continue to make slow advances to the ENE as areas and pockets of unburned fuels will continue fill in as fire creeps through the interior. The Greer fire is expected to not make any further advancements.

12 hours:

24 hours: **The Municipal fire will likely continue to make some advancements to the ENE until control lines become established and secured.**

48 hours:

72 hours:

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

Contain the Municipal fire to the North of Upper Fords Creek Road to prevent advancement towards numerous homes and to prevent the compromise of potential evacuation routes.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **Several residences are located within 1/2 mile of the fire perimeter to the South of Upper Fords Creek Road. Additionally, the town of Orofino is within 1/10th mile of the fire perimeter to the north.**

24 hours:

48 hours:

72 hours:

Anticipated after 72 hours:

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **2 Type 2 Crews needed for critical mopup to prevent fire escape with anticipated wind event forecasted for Thursday.**

6 TFLD's to manage complexity and supervise resources without adequate supervision to mitigate safety

Incident Status Summary (ICS-209)

Incident: MUNICIPAL COMPLEX

<p>concerns. 2 Strike Teams of Type 6 Engines needed for critical mopup to prevent fire escape with anticipated wind event forecasted for Thursday. Type 6 engines required to safely maneuver and access narrow and steep roads.</p> <p>24 hours: 48 hours: 72 hours: Anticipated after 72 hours:</p>											
<p>40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to: 1) critical resource needs identified above, 2) the Incident Action Plan and management objectives and targets, 3) anticipated results. Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts. Overall strategy is to contain and mopup existing fire perimeter to prevent opportunity for escape with forecasted wind event on Thursday.</p>											
<p>41. Planned Actions for Next Operational Period: Construct control lines where available resources are capable of being productive. Employ extensive mopup to mitigate opportunity for escape with forecasted wind event on Thursday</p>											
<p>42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):</p>											
<p>43. Anticipated Incident Containment or Completion Date:</p>											
<p>44. Projected Significant Resource Demobilization Start Date:</p>											
<p>45. Estimated Incident Costs to Date: \$875,000.00</p>											
<p>46. Projected Final Incident Cost Estimate:</p>											
<p>47. Remarks (or continuation of any blocks above – list block number in notation): This complex contains the Greers Grade and Municipal Fires as of 8/18/2015.</p>											
<p>49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):</p>
