<p>36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:</p>		
12 hours:	<p><b>The Fisher fire will continue to consume unburned pockets of fuel in the canyons which have proved to be resistant to control and containment in steep, rocky slopes. The Municipal fire has reduced areas of unburned fuels that continue to creep through the interior. The Old Greer fire is expected to not make any further advancements and remains in a patrol status and is nearing full containment.</b></p>

<p>37. Strategic Objectives (define planned end-state for incident):</p> <p><b>Protection of human life and safety is the first priority. Keep fires within existing control lines. Implement full suppression strategy using direct and indirect tactics for all initial attack and ongoing fires within the Complex. Provide point protection to homes and other values. Coordinate with County Sheriffs' Departments for recommendations of any future evacuations. Contain the Municipal fire to the North of Upper Fords Creek Road to prevent advancement towards numerous homes and to prevent the compromise of potential evacuation routes. Confine the Fisher fire to the canyons and prevent further spread onto surrounding agricultural lands.</b></p>
