Date and Time Products Delivered to Incident: 08/31/2017 @ 0010 MDT			
Comments /notes on tonight's mission and this interpretation: Started with IR perimeter from 20170830 @ 2123. Growth in perimeter has been to the north over Bow Mountain into the headwaters of Scalp Creek, to south where it has reached Angle Point, and to the east where it has crossed over the ridge into the Rocky Mountain Ranger District. Intense heat was detected in each of these areas. There is heavy spotting outside the perimeter to the south and east.
