<b>Date and Time Products Delivered to Incident:</b> 09/dd/2017 @ 0500 MDT			
<b>Comments /notes on tonight's mission and this interpretation:</b> Started with IR perimeter from 20170831 @ 2136. Growth in perimeter has been to the north over Bow Mountain and along the ridges north and south of Scalp Creek, and to south where it is approaching Open Creek. Intense heat was detected in each of these areas. There is heavy spotting outside the perimeter in the north, south and east.
