Date and Time Products Delivered to Incident: 09/10/2017 @ 0555MDT			
Comments /notes on tonight's mission and this interpretation: Started with IR perimeter from 20170908 @ 2347. Growth in the perimeter since the last IR has been to the north along Bowl Creek where it is 0.25 mile from Strawberry Creek and the Middle Fork Flathead River, and to the west where it has reached Dean Lake and the foot of the Trilobite Range. Intense heat detected along the Trilobite Range and along Bowl Creek. Spotting detected outside of the perimeter to the southeast.
