Task: Monitor fire progression and smoke impacts from Hwy 191; implement holding actions as needed along Hwy 191. Implement point protection on Black Butte Ranch and cultural sites. Assess any resources at risk ahead of predicted fire spread. Continue implementing fuels projects and providing lookouts as prudent.

Purpose: Provide for public and firefighter safety.

End State: Ensure efficient traffic flow on Hwy 191 and protect resources at risk.

8. SPECIAL INSTRUCTIONS

- Coordinate actions with other operational resources and law enforcement as needed.
- Monitor Management Action Points as necessary based on observed and modeled fire behavior to emphasize strategic planning and sound risk decision making.
- If fire spots east of Hwy 191 suppress with resources on incident.
- **Do not draft out of the Madison River for the Bacon Rind fire; the Madison River water needs to stay in the Madison drainage and the Gallatin River water needs to stay in the Gallatin drainage due to aquatic invasive species!**
