

This topographic map displays the Kootenai National Forest, highlighting a fire perimeter and associated features. The map includes a coordinate grid ranging from 48°33'0"N to 48°37'0"N latitude and 116°30'0"W to 116°34'0"W longitude. Key geographical features include:

- Fire Perimeter:** A red line delineates the fire perimeter, which is mostly solid but has a dashed section in the upper left.
- Cloud Cover:** Shaded gray areas indicate regions with cloud cover, primarily located in the upper left and central parts of the map.
- Fire Intensity:** The map uses color and patterns to show fire intensity: red for intense fire, yellow for scattered fire, and green for isolated fires.
- Topography:** Contour lines represent elevation, with peaks reaching up to 10,000 feet. Notable peaks include Lost Soul Mountain and Bluff Mountain.
- Water Features:** Several creeks and rivers are shown, including the Kootenai River, Snake River, and various tributaries like the Lost Soul Creek and Bluff Creek.
- Infrastructure:** Roads and trails are marked with thin lines, and some buildings or structures are indicated by small black dots.
