- 36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:
- 12 hours: Continue mop up 300 feet around structures and 100 feet of perimeter.
- 24 hours: Continue mop up 300 feet around structures and 100 feet of perimeter.
- 48 hours: Right size resources for the needs of the incident.
- 72 hours: same as above
- Anticipated after 72 hours:
- 37. Strategic Objectives (define planned end-state for incident):

Fire remains in current footprint, with no further fire growth expected, mop up perimeter to minimize future growth outside of perimeter, and continue to mop up and grid around structures is eliminated risk.

- 38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:
- 12 hours: Primary threat to residences and recreational trail use. Commercial infrastructure.
- 24 hours: None
- 48 hours: None
- 72 hours: None
- Anticipated after 72 hours:
- 39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:
- 12 hours: IR Flight. Blivit mission.
- 24 hours: Back haul of blivits.
- 48 hours: Release of resources to right size operations.

Incident: GOLD CREEK

72 hours: Turn incident back over to the local unit.

Anticipated after 72 hours:

- 40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Continue to secure perimeter to level a that the local unit will be capable of managing the incident. Right size of numbers and types of resources to allow for incidents objectives to be met.

41. Planned Actions for Next Operational Period:

Continue to reinforce containment lines and mop up around structures and secure perimeter.

- 42. Projected Final Incident Size/Area (use unit label e.g., "Acres", "Square Miles"): 278 Acres
- 43. Anticipated Incident Containment or Completion Date: 06/29/2024
- 44. Projected Significant Resource Demobilization Start Date: 06/28/2024
- 45. Estimated Incident Costs to Date: \$1,000,000.00
- 46. Projected Final Incident Cost Estimate: \$1,700,000.00
- 47. Remarks (or continuation of any blocks above list block number in notation):

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
