

How to download a Map Collection in Avenza Pro

This process will not work unless you have an Avenza Pro license due to the limit of 3 maps on the free version.

1. Scan the Map QR code or navigate to your incident map products in <ftp.wildfire.gov>
2. Select your map and download it to your device
3. Once download open the file in Avenza maps
4. Tap to select maps to import
5. Leave all maps selected and click save
6. Save as "Create Collection"
7. Name the collection as desired and hit OK
8. Allow the maps to download
9. Open the map and you are ready to use

Tips and Tricks

- To quickly switch between the different areas on the map select the squares in the top left corner
