SAFETY MESSAGE

INCIDENT: 1980 Slide Ranch

DATE: June 23, 2024

Transition

Transitions are often a time of confusion. Ensure you and your crew knows the new command structure. Continue to maintain good communications with all of your personnel, remain flexible, look out for each other and continue to adhere to Lookouts; Communication; Escape Routes; Safety Zones

This is a fast-moving fire with multiple roads and extended flanks and fire front. **KNOW** where your escape route and safety zone are. They may need to move as you move.

Medical Emergencies

- Review and brief all personnel on the Medical Plan
- Know where the closest medical personnel and equipment are.
- Ask yourself; how long will it take to stabilize and package an injured person?
- Ask yourself; how long will it take to move them to the closest medevac site or care facility?
- Ask yourself; how many people will it take to carry them out, are they available?
- Ask yourself; is the risk worth the gain?

Communications

- Review the Communications Plan
- Ensure all your radios are correctly programmed.
- Test the frequencies to ensure adequate coverage.
- If coverage is not adequate ensure mitigations are in place before committing to assignment
- Give feedback to ensure problem areas can be addressed

Your Safety Team – Jennifer Norton (t)
