

To prepare for the Field Maps section of the **2022 R6 N9042 Resource Advisor Training**, complete or verify the following:

ArcGIS Online:

- Log into NIFC AGOL. <https://nifc.maps.arcgis.com/home/index.html>
 - Your username will end in _nifc
 - If you do not know if you have a NIFC AGOL account, let me know and I can check for you
 - If you do not have a NIFC AGOL account, submit this [request form](#).
 - If you do not remember your password, let me know and I can reset it for you
- Once you are signed in, make sure you are members of at least one of the following AGOL groups:
 - PNW READ and Wildfire Operations (<https://nifc.maps.arcgis.com/home/group.html?id=1371e23f4da144fdab1bb24d6943d598#overview>)
 - If you are not a member and wish to be in this group, contact me and I will add you.
 - R6 N9042 Resource Advisor Training (<https://nifc.maps.arcgis.com/home/group.html?id=5778cf11f73c4b0b914c5f70252f3562#overview>)
 - Search for this group and you can add yourself
 - You can also contact me and I can add you

Field Maps:

- Make sure you have installed ArcGIS Field Maps application onto your compatible device from

its app store.

- Removing Collector is suggested installed on your device and you do not need it for data collection outside of fire. This will help reduce confusion as the app icons look a lot alike. Do not use Collector for fire/READ Support.
 - Some older devices may not be able to support this application and, if this is the case, it may not show in its App Store for download. You will need a device that can support the application for the training.
 - Windows Mobile devices do not support Field Maps. You will need a iOS or Android device.
- Log into Field Maps using your _nifc AGOL username

Day of Training:

- Make sure your device is fully charged and has either Wi-Fi or a data connection.

If you have any questions, concerns or problems with the tasks above, please let me know.
