12. Prepared By: Print Name: Terry Chaplin, SITL Date/Time Prepared: 08/18/2015 1800 PDT		13. Approved By: Print Name: Jay T. Esperance, ICT2 Signature:									
14. Date/Time Submitted: 08/18/2015 1810 PDT		15. Primary Location, Organization, or Agency Sent To: WA-NES									
16. State: WA	17. County / Parish / Borough: Stevens	18. City: Fruitland									
19. Unit or Other:	20. Incident Jurisdiction: WA-NES	21. Incident Location Ownership (if different than jurisdiction): WA-NES									
22. Latitude/Longitude: Latitude: 48° 0' 17" Longitude: 118° 12' 13"	23. US National Grid Reference: Grid Zone: 11UMP x-Coordinate: 10224 y-Coordinate: 17525	24. Legal Description: Principal Meridian: Willamette Township: 29N Range: 37E Section: 19 1/4 Sec: of 1/4 Sec: NE									
25. Short Location or Area Description (list all affected areas or a reference point): North of Carpenter Road and Mudget Lake Road			26. UTM Coordinates: Zone: 11 Easting: 410224 Northing: 5317525								
27. Note any geospatial data available (indicate data format, content, and collection time information and labels):											
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted terminology. For non-fire incidents, describe significant events related to the materials or other causal agents): Extreme Narrative:											

Incident Status Summary (ICS-209)

Incident: CARPENTER ROAD

Fire behavior: torching, crowning, uphill runs with 1/4 - 1/2 mile spotting. Terrain driven winds have resulted in fire whirls & dust devils. Fire continues to burn actively throughout the night in a thermal belt with torching, crowning, uphill runs, rapid rates of spread. Extreme fire behavior observed during the afternoon hours with moderate spotting distances.

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

Timber (Grass and Understory)

Narrative:

Timber mixed with grass, intermixed timber with forest litter, mixed timber with dead & down, moderate to heavy brush.

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	400	0	15
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	5	0	10
I. Other Minor Structures	200	0	13

31. Public Status Summary:

C. Indicate the Number of Civilians (Public) Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	0	1	0
E. With Injuries/Illness	0		0
F. Trapped/In Need of Rescue	0		0
G. Missing	0		0
H. Evacuated	0	75	0
I. Sheltering in Place	0		0
J. In Temporary Shelters	0	4	0
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Civilians (Public) Affected:	0	80	0

32. Responder Status Summary:

C. Indicate the Number of Responders Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	0		0
E. With Injuries/Illness	0		0
F. Trapped/In Need of Rescue	0		0
G. Missing	0		0
H. Evacuated	0		0
I. Sheltering in Place	0		0
J. In Temporary Shelters	0		0
K. Have Received Mass Immunizations	0		0
L. Require Immunizations	0		0
M. In Quarantine	0		0
N. Total # Responders Affected:	0		0

33. Life, Safety, and Health Status/Threat Remarks:

Public safety: Level II and Level III Evacuations in Place. Most publics are cooperating.

35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern):

Today: Temp. 88, RH: 20%, Wind N at 5-10 with significant upslope components.
Tomorrow: Wednesday will be the warmest day of the week with winds shifting

34. Life, Safety, and Health Threat Management:

	Active?
A. No Likely Threat	
B. Potential Future Threat	X
C. Mass Notifications in Progress

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **Spread to the NE presently due to spotting and extreme fire behavior.**

24 hours: **Increased spreading to north and east due to expected weather event and alignment due to topography. High value timber resources will continue to be lost. Infrastructure threatened includes power lines, threatened and endangered species, archeological, historical, cultural and recreational values. It is anticipated the fire will**

48 hours: **continue to spread to the northeast / east and threaten timber preserves and the resistance to control will become greater. Lack of resources is influencing outlying operational periods. Specific values are voles, Bald eagle habitat, known archeological/cultural sites and recreation areas.**

72 hours: **See above.**

Anticipated after 72 hours:

37. Strategic Objectives (define planned end-state for incident):

The Full Suppression strategic objectives are compromised due to lack of resources, primarily Type 1 Crews and lack of communication equipment.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **150 structures located north and NE of the fire are imminently threatened without critical resources. Fire is backing towards 250 structures near McCoy Lake. Minimal structure protection resources available. Wednesday's weather forecast will significantly change fire behavior, threatening structures.**

Specifics:

T&E sprcies - voles

Cultural - Bald Eagle habitat, known archeologic/cultural sites and recreation values.

24 hours: **See above**

48 hours: **See above**

72 hours: **Seel above**

Anticipated after 72 hours:

Incident Status Summary (ICS-209)

Incident: CARPENTER ROAD

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:
 12 hours: **2 Type I Crews, 5 Type 2IA Crews, 4 TFLDs, Radio startup kit, 16 Type 6 Engines.**
 24 hours: **Without critical resources, objectives will be compromised until season ending event.**
 48 hours: **See above**
 72 hours: **See above.**
 Anticipated after 72 hours:

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
 1) critical resource needs identified above,
 2) the Incident Action Plan and management objectives and targets,
 3) anticipated results.
 Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.
Full suppression utilizing strategies and tactics that will minimize the fire spread and maximize safety strategies. Due to national fire PL-5, resources identified above are in short supply, coupled with the anticipated weather 24 hours and beyond can result in significant fire spread threatening 400 structures. Operationally the fire is still utilizing IA resources rotating on and off shift. These resources are fatigued and unless replaced present serious safety concerns.

41. Planned Actions for Next Operational Period:
Catch slop overs, construct line, burnout unburned fuels, construct contingency lines. Mop up within 100 feet of structures.

42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):

43. Anticipated Incident Containment or Completion Date: **09/08/2015**

44. Projected Significant Resource Demobilization Start Date:

45. Estimated Incident Costs to Date: **\$1,600,000.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

Block 31 H: Estimated evacuations.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
