12. Prepared By: Print Name: Sheldon Rhoden Date/Time Prepared: 09/07/2015 2000 PDT		13. Approved By: Print Name: Doug Johnson Signature: _____									
14. Date/Time Submitted: 09/07/2015 2015 PDT		15. Primary Location, Organization, or Agency Sent To: NWCC									
16. State: WA	17. County / Parish / Borough: Stevens		18. City: Fruitland								
19. Unit or Other:	20. Incident Jurisdiction:	21. Incident Location Ownership (if different than jurisdiction): WA-SPA									
22. Latitude/Longitude: Latitude: 48° 0' 17" Longitude: 118° 12' 13"	23. US National Grid Reference: Grid Zone: 11UMP x-Coordinate: 10224 y-Coordinate: 17525	24. Legal Description: Principal Meridian: Willamette Township: 29N Range: 37E Section: 19 1/4 Sec: of 1/4 Sec: NE									
25. Short Location or Area Description (list all affected areas or a reference point): North and East of Carpenter Road and Mudget Lake Road			26. UTM Coordinates: Zone: 11 Easting: 410224 Northing: 5317525								
27. Note any geospatial data available (indicate data format, content, and collection time information and labels): NIFC ftp site http://ftp.nifc.gov/incident_specific_data/pacific_nw/2015_Incidents_Washington/CarpenterRoad_WA_SPA_000046/IncidentData/Products/											
28. Observed Fire Behavior or Significant Events for the Time Period Reported (describe fire behavior using accepted											

Incident Status Summary (ICS-209)

Incident: **CARPENTER RD.**

terminology. For non-fire incidents, describe significant events related to the materials or other causal agents):

**Minimal
Smoldering
Creeping**

Narrative:

29. Primary Fuel Model, Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc):

**Timber (Litter and Understory)
Timber (Grass and Understory)
Short Grass (1 foot)**

Narrative:

30. Damage Assessment Information (summarize damage and/or restriction of use or availability to residential or commercial property, natural resources, critical infrastructure and key resources, etc):

A. Structural Summary	B. # Threatened (up to 72 hrs)	C. # Damaged	D. # Destroyed
E. Single Residences	300	0	18
F. Multiple Residences	0	0	0
G. Mixed Commercial / Residential	0	0	0
H. Nonresidential Commercial Property	5	0	10
I. Other Minor Structures	100	0	14

31. Public Status Summary:

C. Indicate the Number of Civilians (Public) Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	1	0	1
E. With Injuries/Illness	0	0	0
F. Trapped/In Need of Rescue	0	0	0
G. Missing	0	0	0
H. Evacuated	0	0	0
I. Sheltering in Place	0	0	0
J. In Temporary Shelters	4	0	4
K. Have Received Mass Immunizations	0	0	0
L. Require Immunizations	0	0	0
M. In Quarantine	0	0	0
N. Total # Civilians (Public) Affected:	5	0	5

32. Responder Status Summary:

C. Indicate the Number of Responders Below:

	Previous Report Total	A. # this Reporting Period	B. Total # to-date
D. Fatalities	0	0	0
E. With Injuries/Illness	3	0	3
F. Trapped/In Need of Rescue	0	0	0
G. Missing	0	0	0
H. Evacuated	0	0	0
I. Sheltering in Place	0	0	0
J. In Temporary Shelters	0	0	0
K. Have Received Mass Immunizations	0	0	0
L. Require Immunizations	0	0	0
M. In Quarantine	0	0	0
N. Total # Responders Affected:	3	0	3

33. Life, Safety, and Health Status/Threat Remarks:

All evacuations reduced to Level I. Road closures in effect. Mine waste and undisclosed mine excavations are of concern.

34. Life, Safety, and Health Threat Management:

Incident Status Summary (ICS-209)

Incident: CARPENTER RD.

<p>35. Weather Concerns (synopsis of current and predicted weather; discuss related factors that may cause concern): An upper disturbance crossed northern Washington today, producing a few very light showers as well as highly variable cloud cover. Temperatures climbed into the mid 60s today, with relative humidity levels of 45-55%. After some patchy morning fog, variable cloudiness with isolated rain showers are expected once again on Tuesday, but a wetting rain is not anticipated. Temperatures are forecast to warm to near 70 degrees, with minimum RH levels of 37-42%.</p>		Active?
	A. No Likely Threat	X
	B. Potential Future Threat	
	C. Mass Notifications in Progress	
	D. Mass Notifications Completed	
	E. No Evacuation(s) Imminent	
	F. Planning for Evacuation	
	G. Planning for Shelter-in-Place	
	H. Evacuation(s) in Progress	
	I. Shelter-in-Place in Progress	
	J. Repopulation in Progress	
	K. Mass Immunization in Progress	
	L. Mass Immunization Complete	
	M. Quarantine in Progress	
N. Area Restriction in Effect		
O. Road Closure	X	
P. Trail Closure		
Q. Area Closure		

36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: **Minimal burning conditions expected, wetting rain received 9/5. Fire behavior minimal, smoldering.**

24 hours: **Minimal burning conditions expected, wetting rain received 9/5. Fire behavior minimal, smoldering.**

48 hours: **Minimal burning conditions expected, wetting rain received 9/5. Vertically oriented fine fuels available for consumption. Smoldering likely.**

72 hours: **Fire behavior potential increasing with creeping surface fire possible.**

Anticipated after 72 hours: **Fuels continue to dry. Surface fine fuels available to carry fire.**

37. Strategic Objectives (define planned end-state for incident):

Full Suppression strategic objectives are to contain the fire west of Highway 231 and north of the Turtle Creek Road on the Spokane Agency. South and east of a line beginning on the Cedonia Addy Road then east to the Klins Meadow Road, then SE along that road to the Red Marble Road then SW to the North Fork of Cedar Creek, then south to Deer Creek Road to Bellinger Road, then to the Gennett Road.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **With current fire conditions and predicted weather, minimal fire growth is expected. Vertically oriented fuels will be available to carry this afternoon.**

24 hours: **Still minimal fire growth expected. Warming temp and lower humidity will begin curing fine fuels.**

48 hours: **Still minimal fire growth expected. Warming temp and lower humidity will begin curing fine fuels. Smoldering under protected canopy or topography.**

72 hours: **Still minimal fire growth expected. Warming temp and lower humidity will begin curing fine fuels. Smoldering under protected canopy or topography.**

Incident Status Summary (ICS-209)

Incident: **CARPENTER RD.**

Creeping surface fire spread will be possible, with fine woody fuels cured to support low intensity surface fire. Brush and grass will support moderate intensity fire on favorable exposures.

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **None.**

24 hours: **None.**

48 hours: **None.**

72 hours: **None.**

Anticipated after 72 hours: .

40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:

- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Wetting rain has mitigated fire behavior and assisted with containment and completion of direct line. Mop-up and repair operations will continue.

41. Planned Actions for Next Operational Period:

We will continue to perform point structure protection, build and secure direct line and continue patrol spot fires. Mop-up and repair operations have begun on southern portion of the incident and are progressing north. Hazmat identification will continue.

42. Projected Final Incident Size/Area (use unit label – e.g., “Acres”, “Square Miles”):

43. Anticipated Incident Containment or Completion Date: **09/12/2015**

44. Projected Significant Resource Demobilization Start Date: **09/09/2015**

45. Estimated Incident Costs to Date: **\$18,119,653.00**

46. Projected Final Incident Cost Estimate:

47. Remarks (or continuation of any blocks above – list block number in notation):

Current weather conditions are continuing to allow for a direct suppression strategy. State mobilized resources will be demobilized on 9/8 and National Guard resources will be demobilized on 9/9.

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):
