36. Projected Incident Activity, Potential, Movement, Escalation, or Spread and influencing factors during the next operational period and in 12-, 24-, 48-, and 72-hour time frames:

12 hours: Creeping and smoldering with very isolated single tree torching. Minimal fire growth.
24 hours: Creeping and smoldering with very isolated single tree torching. Minimal fire growth.

48 hours: Creeping and smoldering with very isolated single tree torching. Minimal fire growth.

72 hours: **Creeping and smoldering with isolated single tree torching. Minimal fire growth.**

Anticipated after 72 hours: Minimal movement

37. Strategic Objectives (define planned end-state for incident):

Implement repair strategies for contingency lines in coordination with READS. Maintain surveillance of Wolverine fire perimeter.

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

12 hours: **None** 24 hours: **None** 48 hours: **None** 72 hours: **None**

Anticipated after 72 hours: None

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: None 24 hours: None 48 hours: None 72 hours: None

Anticipated after 72 hours: None

- 40. Strategic Discussion: Explain the relation of overall strategy, constraints, and current available information to:
- 1) critical resource needs identified above,
- 2) the Incident Action Plan and management objectives and targets,
- 3) anticipated results.

Explain major problems and concerns such as operational challenges, incident management problems, and social, political, economic, or environmental concerns or impacts.

Progress is being made toward completing incident objectives.

41. Planned Actions for Next Operational Period:

Continue yarding operations on Division O moving to Division L after completion. Continue implementing repair strategy on both Divisions in consultation with READS.

Incident: WOLVERINE

42. Projected Final Incident Size/Area (use unit label – e.g., "Acres", "Square Miles"): 65,512

43. Anticipated Incident Containment or Completion Date: 10/30/2015

44. Projected Significant Resource Demobilization Start Date: 09/22/2015

45. Estimated Incident Costs to Date: \$33,022,077.00

46. Projected Final Incident Cost Estimate: \$35,000,000.00

47. Remarks (or continuation of any blocks above – list block number in notation):

A weather related, season ending event is needed for full containment. ICP is located at Fish Lake. This will be the last 209 report unless there are significant changes.

2600 ACRES on North Cascades National Park (WA-NCP)

62699 ACRES on Okanogan-Wenatchee National Forest (WA-OWF)

213 ACRES on Private (WA-PRI)

49. Resources (summarize resources by category, kind, and/or type; show # of resources on top ½ of box, show # of personnel associated with resource on bottom ½ of box):

48. Agency or Org		CR2IA	ENG3	ENG6	DOZR	WTDS	SKID	TRVH	50. Ovhd	51. Tot Pers
