Structure Triage Information

Structure Number: 169
Structure Name: FS #2
SubDivision: Cottonwood Guard Station
GPS Location, Lat. 48 1.25178
GPS Location, Long. 120 38.45526
Safety Zone Present: No
Type of Structure: Other
Other Type of Government Building
Surrounding Fuels: Shrub, Timber, Slash
Structure Triage Category: Non-Defensible, Prep and Leave
Roof Material: Metal
Heat Traps: Wood Deck, Other Receptor
Electrical Power: Solar/Wind
Hazards: Terrain, Fuels, HazMat
Hazard Notes: 500 gal LPG tank on site, no safety zone.
Access to Site: T3/4 Engine
Comm with ICP: Radio
Water Source: Faucet / Hose, Creek
Mitigation Time: 1-2 Hours
Other Resources
Needed to Protect: Hose lay with sprinkler kits, scratch line around all structures, use structure wrap where needed.

Where is Safety Zone: No safety zone present.

Primary Structures: 1

Outbuildings: 4

Defensible Space: 50-100 Feet

Siding Material: Wood

Gas to Structure: Aboveground

Best Access From: Located at the end of Entiat River Road MP 37.5 on left.

Notes: Cottonwood Guard Station is a complex of 5 structures. 1 primary single story structure with a clean metal roof and wood siding. Roof is clear of debris and all heat traps have been covered with structure wrap. There is also a large barn and tac shop on site with three other misc outbuildings. All buildings have hand line scratched around them and have been structure wrapped where necessary. All structures in the compound have been covered by a hose lay with sprinkler system. Cottonwood Guard Station is considered a prep and leave due to lack of safety zones and distance in proximity to established safety zones.

Structure Triage Information

Structure Number: 159
Structure Name: PH #4-1
SubDivision: Pope Summer Homes
GPS Location, Lat. 47 58.56348
GPS Location, Long. 120 33.69276
Safety Zone Present: No
Type of Structure: Residential
Other Type of Surrounding Fuels: Shrub, Timber, Slash
Structure Triage Category: Non-Defensible, Prep and Leave
Roof Material: Wood
Heat Traps: Open Eaves, Wood Deck, Rain Gutters, Other Receptor
Electrical Power: Generator
Hazards: Fuels, HazMat
Hazard Notes: LPG tank on site.
Access to Site: T3/4 Engine
Comm with ICP: Radio
Water Source: Creek
Mitigation Time: 1-2 Hours
Other Resources

Where is Safety Zone: Safety zone is located 7 miles south on Entiat River Road.
Primary Structures: 1
Outbuildings: 1

Defensible Space: 50-100 Feet

Siding Material: Wood

Gas to Structure: Aboveground

Best Access From: West on unnamed driveway marked #4 west of Entiat River Road.

Other Resources Needed to Protect:
Notes:

Hose lay with sprinkler kits, scratch line around structure and utilize structure wrap where needed.

Structure is a single story structure with a loft located along the Entiat River in the Pope Summer Homes. Structure's primary building construction is comprised wood siding with a dirty wood roof. Heat traps and decks are present but clear of debris and combustible materials. Access to the structure is by a narrow but passable driveway located off of main roadway in a small group of structures. Structure 4-1 is non-defendable prep and leave due to lack of safety zone present on site.

Structure Triage Information

Structure Number: 158
Structure Name: RH #3-4
SubDivision: Riverside Summer Homes
GPS Location, Lat. 47 58.21704

GPS Location, Long. 120 33.19182

Safety Zone Present: No

Type of Structure: Residential

Other Type of

Surrounding Fuels: Shrub, Timber, Slash

Structure Triage

Category: Non-Defensible, Prep and Leave

Roof Material: Wood

Heat Traps: Open Eaves, Wood Deck, Other Receptor

Electrical Power: Solar/Wind, Generator

Hazards: Fuels, HazMat

Hazard Notes: 250 gal LPG tank on site.

Access to Site: T3/4 Engine

Comm with ICP: Radio

Water Source: Creek

Mitigation Time: 1-2 Hours

Other Resources

Needed to Protect: Hose lay with sprinkler kits, scratch line around and wrap structure.

Notes: Structure is a single story structure located along the Entiat River in the Riverside Summer Homes. Structure's primary building construction is comprised wood siding with a clean wood roof. Heat traps and decks are present but clear of debris and combustible materials. Access to the structure is by a narrow but passable driveway located off of main roadway in a group of three structures. Structure 3-4 is non-defendable prep and leave due to lack of safety zone present on site.

Where is Safety Zone: Safety zone is located 6 miles south on the Entiat River Road.

Primary Structures: 1

Outbuildings: 2

Defensible Space: 50-100 Feet

Siding Material: Wood

Gas to Structure: Aboveground

Best Access From: West on unnamed driveway marked #3 west of Entiat River Road.

Defensible Space: 30-50 Feet

Siding Material: Wood

Gas to Structure: Aboveground

Best Access From: Entiat River Road

Hose lay with sprinkler kits, vegetation removal from immediate proximity to structures. Scratch line around all structures.

Structure is a single family single story structure with a metal roof and wood siding. There are 5 additional outbuildings as well as a second livable trailer under a constructed cover. Structure has a roof clear of debris and vegetation has been brushed back from the structures. Scratch line has been established around all structures. Structures are in close proximity to safety zones and are uninhabited at this time.

GPS Location, Lat. 47 57.48888
GPS Location, Long. 120 32.13216
Safety Zone Present: No
Type of Structure: Other
Other Type of Government building
Surrounding Fuels: Timber,Slash
Structure Triage Category: Non-Defensible, Prep and Leave
Roof Material: Wood
Heat Traps: Open Eaves,Wood Deck,Other Receptor
Electrical Power: Solar/Wind
Hazards: Fuels,HazMat
Hazard Notes: 500 gal LPG tank present on site. Bulk fuel storage in outbuilding.
Access to Site: T1 Engine
Comm with ICP: Radio
Water Source: Faucet / Hose,Porta-Tank/Pumpkin,Creek
Mitigation Time: 1-2 Hours
Other Resources
Needed to Protect: Hose lay with sprinkler kits, scratch line around structure, use structure wrap as needed on structure.

Where is Safety Zone: Safety zones are located south of guard station location approx 4 miles.
Primary Structures: 1
Outbuildings: 3

Defensible Space: 30-50 Feet

Siding Material: Wood

Gas to Structure: Aboveground

Best Access From: Silver Falls Guard Station is located at the Silver Falls Trail along Entiat River

Notes: Silver Falls Guard Station is a complex of 4 structures with 1 primary structure and 3 outbuildings. Primary structure is a single level structure with a clean shake shingle roof with wood siding. there is one medium size garage on site and two smaller misc outbuildings. All buildings in the Silver Falls compound have had hand line scratched around them and have been covered by a hose lay and sprinkler system. Structure wrap was used where necessary. Silver Falls Guard Station is considered prep and leave due to it's distance from established safety zones.
