- Trail
- Highway
- Main Road
- Forest Service Road

Disclaimer: Wildfire perimeters for the current fire season, including active, dormant, and inactive fires, are supplied from various sources. The data is refreshed from operational sources and is not necessarily updated when practical. BC Wildfire Service does not warrant the accuracy of the data. BC Park, Protected Area, Eco Reserve, and other designations are for reference purposes only. The information is intended for general purposes only and should not be relied on as accurate because fires are dynamic and circumstances may change quickly. The levels of current fire activity within the mapped fire perimeters can vary widely. In the event that the perimeters overlay locations with property or infrastructure, the perimeters do not indicate what level of damage (if any) may have occurred.
