Flight Time: 2131 PDT Flight Date: 08/09/2020	Interpreter(s) location: Denver, CO Interpreter(s) Phone: 303-517-7510	GACC IR Liaison: Jim Grace GACC IR Liaison Phone: 541-771-4521	National Coordinator: Tom Mellin National Coord. Phone: 505-842-3845
Ordered By: BICC	A Number: 21	Aircraft/Scanner System: Tenax N350FV / TK-9	Pilots/Techs: Pilot: Donaldson Pilot: Cole Tech: John Neubert (Overwatch Imaging)
IRIN Comments on imagery: Imagery pretty good, with great variation in orthorectification between the bands, but found a combination that worked.		Weather at time of flight: Clear	Flight Objective: Map heat and heat perimeter
Date and Time Imagery Received by Interpreter: August 9, 2020 @ 2200 PDT		Type of media for final product: Shapefiles, PDF Map, KMZ, IR Daily Log	
Date and Time Products Delivered to Incident: August 9, 2020 @ 2300 PDT		Digital files sent to: https://ftp.nifc.gov/public/incident_specific_data/pacific_nw/2020/Incidents_Oregon/2020_NealsHill_ORBUD_002079/IR/ Also in the folder requested on the order	
Comments /notes on tonight's mission and this interpretation: Tonight's mapping used last night's IR perimeter as a base for mapping. No heat found in the small area of perimeter growth mapped last night. This was near H4. No intense heat was mapped tonight. A number of isolated heat sources were mapped. Three small areas of scattered heat were mapped as well. Most of the heat remains in about the same areas as last night. Questions or comments, please contact the interpreter with the contact info above.
