INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:	2. Operational Period: DAY	
THIELSEN	Date/Time From: 10/03/2020 0700 SAT	Date/Time To: 10/03/2020 1900 SAT
3. Objective(s):		
<p>1) Protection of human life and safety is the first priority for all actions taken on a wildfire and can overrule all other strategic and incident objectives and management and incident requirements.</p> <p>2) Base management decisions on meeting objectives while also minimizing the risk of COVID-19 exposure to responders and the public. COVID-19 considerations may alter how you meet goals but should not lead to higher-risk tactics.</p> <p>3) Patrol and mop up as directed by operations to eliminate the risk of loss of containment when hazards have been mitigated and LCES has been established.</p> <p>4) Monitor fire activity and, protect as needed, the WUI infrastructure at Diamond Lake (109 recreation residences, Diamond Lake Resort, FS campgrounds, ODFW facility), Lemolo Lake (Lemolo Lake Resort/KOA, Pacificorps facilities, Cinnamon Butte, Storage Facilities at Mt. Bailey, and Hemlock Butte Ski Cabin), and Sandshed/ODOT site near Hwy 138/FS Road 2610 from the threat of wildfire to prevent loss of highly valued assets.</p> <p>5) Monitor and ensure safe passage for public on Hwy 138 as it is a major east-west transportation route which would impact both the public and fire personnel access.</p> <p>6) Implement and Coordinate suppression and suppression repair actions with the lead READ to ensure that impacts to the Oregon Cascades Resource Area, Local Roadless Areas, and Mt. Thielsen Wilderness Area to ensure repair standards are followed implemented in accordance to the standards and mitigate damage caused by suppression activities.</p>		
4. Operational Period Command Emphasis:		
<p>1) Monitor cumulative fatigue and ensure all incident resources receive adequate rest.</p> <p>2) Follow established incident-within-an-incident protocols listed in the Medical Plan.</p> <p>3) Protection of human life and safety is the first priority for all actions taken and shall override all other incident strategic objectives. Evaluate risk vs. benefit in strategic and tactical planning and only commit operational resources to actions that have the highest probability of success of protecting values.</p>		
General Situational Awareness:		
Look up, look down, look all around for hazards, recognize them and mitigate them.		
5. Site Safety Plan Required? Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>		
Approved Site Safety Plan(s) Located at: SEE ATTACHED SAFETY MESSAGE		
6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

Fire Weather Forecast

FORECAST NO: 16
PREDICTION FOR: Saturday
Shift Date: October 3, 2020
TIME AND DATE
FORECAST ISSUED: 10/2/2020 at 1800

INCIDENT: Thielsen Fire
UNIT: Umpqua National Forest
SIGNED: Ryan Fliehman
Incident Meteorologist (IMET)

Weather Discussion: The warm and dry weather pattern will continue as the ridge of high pressure remains in place. A weak wave of energy passes through Washington State on Sunday that will flatten the ridge of high pressure bringing temperatures down a few degrees. The aforementioned ridge rebounds on Monday allowing for a warming trend through midweek. Overnight humidity recovery continues to be good on the fire.

WEATHER FORECAST:

Today:

SKY/WEATHER: Temperatures above normal. A little hanging smoke from California wildfires.

High Temperature...77-82F

Min RH.....22-27%

20-FOOT WINDS:

Ridges: Light downslope/downvalley early. Becoming upslope/upvalley 4-8 gust 12 mph.

Lake Level and Valleys: Downslope early 2-5 mph. Light north winds after 1000 at 3-6 mph.

CWR (>=0.10")....0% **LAL....**1 **Haines Index...4 (Low)** **Mixing Height...6500 ft AGL**

Tonight:

Weather: Clear skies with a little smoke in the valleys. Good humidity recovery.

Low Temperature on Fire...44-49F

Low Temperature in Chemult...34-39F

Max RH.....75+% (Good Humidity Recovery)

20-FOOT WINDS: Light downslope/downvalley 2-5 gust 8 mph.

CWR (>=0.10")....0% **LAL....**1

Sunday:

SKY/WEATHER: Some smoke from California fires. Warm with sunny skies.

High Temperature...73-78F

Min RH.....25-30%

20-FOOT WINDS:

Ridges: Light downslope/downvalley early, becoming upslope/upvalley 4-8 gust 12 mph.

Lake Level and Valleys: Downslope early 2-5 mph. Light north winds after 1000 at 3-6 mph.

CWR (>=0.10")....0% **LAL....**1 **Haines Index...4 (Low)** **Mixing Height...6000 ft AGL**

Extended Outlook:

Monday and Tuesday...The ridge of high pressure rebounds allowing temperatures to rise and humidity to fall. Winds still remain terrain driven through this period. Overnight humidity recovery continues to rise into the good category. Some smoke will drift into the region from California wildfires.

Cinnamon RAWS Obs (as of 1700)	Temp (F) Hi/Low	RH (%) Max/Min	Peak Wind (mph)	Rainfall (past 24 hours)
Friday 10/2	80/43	84/23	W 5 Gust 11 mph	0.00"

Please send weather observations taken in the field to IMET Ryan Fliehman at ryan.fliehman@noaa.gov

FIRE BEHAVIOR FORECAST

Incident Name	Thielsen	Forecast Number	19
Operational Period	10/03/2020	Date/Time Issued	10/02/2020 1700
Unit	OR-UPF	Forecast by (Name & Position)	Allan Hepworth FBAN (t)

FIRE BEHAVIOR DISCUSSION

GENERAL: Heavy down dead fuel moistures are running average for this time of year. 1 and 10-Hour Fuel moistures are low and trend at or below the 85th percentile.

Predicted Fire Behavior:

Resources on Cinnamon Butte reported a single tree torch on the east flank of division P/W early in the day yesterday. Division A/M also reported duff smoldering under heavy canopy, which has shaded fuels and inhibited drying until recently.

- Live herbaceous and woody fuel moistures are low and with the contribution of jackpot ladder fuels, single tree torching could continue to be observed.
- Unburned interior fuels comprised of duff, needle cast, and 10 hour fuels can support spread, which can result in consumption up through ladder fuels and into the canopy. Weak terrain winds won't support spread through the canopy.

<u>Ridge Top Spotting:</u>	Fuel Types	Rates of Spread	Flame Lengths
Up to 1/4 of a mile	Pine/Fir with slash	Up to 8 ch/hr, ¼ mile	Less than 5 feet
Probability of Ignition 73%	Shrubs with slash	Up to 18 ch/hr, ¼ mile	Less than 6 feet

SPECIFIC:

Today: Continuation of drying further promotes consumption of duff, heavy down dead fuels, and single tree torching as observed yesterday on division P/W. Smoldering and slow creeping fire under the canopy in division A/M is expected.

Tonight: Moderate to good humidity recovery and cool nighttime temperatures stall overnight fire spread.

AIR OPERATIONS:

Continuation of hazy skies throughout the day, possibility clouds moving in late in the burn period. Neither should have an impact on aerial operations.

SAFETY:

It is recommended that firefighters limit their consumption of energy beverages and hydrate regularly. Results of studies revealed significant decreases in intracellular hydration immediately post exercise, as well as increased urinary output, blood pressure and heart rate when EBs were consumed, Recommended ratio of liquid intake is 3 waters per 1 Gatorade.

LEARN MORE ABOUT FIRE BEHAVIOR---

Evaluating spotting fire behavior requires the integration of three factors:

- the source, size, and number of firebrands
- the distance the firebrand is carried downwind
- The probability of igniting a new fire at the downwind location

Short-Range Spotting is not generally considered as significant in the growth of wildfires, because the advancing fire usually overruns the developing spot fire. Based on that, the assumption is that short range spotting is typically accounted for in the spread model outputs

Long-Range Spotting is differentiated from short-range spotting, primarily because firebrands are being lifted by a convection column and carried beyond the immediate fire area.

Please send your fire behavior observations to:

alison_coons@firenet.gov or allan_hepworth@firenet.gov

HEALTH AND SAFETY MESSAGE

*"I have fought the good fight, I have finished the race, I have kept the faith."
The Red Team*

INCIDENT: Archie Creek & Thielsen Fire	DATE: Saturday, October 3, 2020
Major Hazards & Risks: <i>Hydration, Fatigue, Driving/ Heavy Equipment, Public Interface, and Covid-19</i>	
<p>Assignment: Completing the assignment starts from the time you check in till you are back home. The Southern Area Red Team wants to meet the objectives with the resources assigned to the incident. This means we are ALL to do our jobs efficiently and SAFELY to finish our assignment. By doing this we will have kept the faith that what we did on our assignment was intended to help sustain the forest.</p> <p>Driving/Heavy Equipment: The Southern Area Red Team wants to thank everyone on the Incident for doing their part in safe operations. As we continue throughout the season, use deliberate actions when driving to and from the line such as slowing down, avoiding distractions while driving, using spotters when parking and backing, and driving defensively. Heavy equipment operations will continue to have specific hazards that continuously need mitigation. Needs for spotters and road guards around high traffic areas are paramount to safe operations. When new resources arrive, they are not familiar with the operations and routines so they should be briefed and made aware of operations in their work area.</p> <p>Fatigue: It has been a long season for most all of us. Long periods of multiple days spent working fires can take its toll on the best of us. Please take the time to take care of yourself. Frequent breaks, adequate rest, hydration, good eating habits, and good personal hygiene practices will help mitigate the accumulated fatigue.</p> <p>Increasing Public Interface: Firearms hunting season will open in Western Oregon this Saturday October 3rd. Many deer hunters will be coming close to our fire impacted areas for recreation. Expect to see an increase in traffic, people looking for camping sites within the forest, and the need to be very aware of public safety in fire impacted areas.</p> <p>Covid-19: Continue to provide awareness and mitigations for Covid-19 prevention in all our daily operations. Do not let complacency put you, your co-workers, or families at risk. The wearing of masks within 6 feet of others, frequent hand washing, disinfecting workspaces, vehicles and monitoring your co-worker's health are all proven ways to mitigate the spread.</p>	

Thank you for your time and consideration

Archie Creek and Thielsen Fire Safety Officers: Brad Lidell, Larry Connell, Tommy Hawkins, John Fugitt, Ivan Cupp, Troy Floyd, Steve Gray, Gary Kemp, Chad Hyatt, Richard Gillaspay.

If you suspect that you might have COVID-19...

Do NOT enter the building at Chemult Ranger Station if you have any of the following symptoms:

- **New Loss of Taste or Smell**
- **Fever (100.4 and Greater)**
- **Shortness of Breath or Difficulty Breathing**
- **Sore Throat**
- **Congestion or Runny Nose**

- 1. Isolate yourself away from others**
- 2. Call 317-730-6653 for medical attention**

Daily COVID-19 Reminder

- **“MODULE OF ONE” Concept:** Resources assigned to the Thielsen Fire need to focus on reducing the amount of time they spend around other resources they do not need to directly work with. Please limit your exposure to other resources.
- **Cloth face coverings (MASKS):** All individuals must wear a mask when they are working in close quarters outside their “Module of One.”
 - Masks must cover your mouth and nose.
 - Lightly used medical masks are okay.
 - Supply has medical masks for distribution.
 - Masks need to be worn inside ICP buildings, and when social distancing is not practical (supply, ground support, briefing areas).
- **Hygiene:** All resources need to wash their hands before and after touching common items around camp.
- **Local Community:** Please ensure that resources are following the above when they are visiting local area business.
- **Wildland Fire COVID-19 Screening Tool:** Apply the screening tool to yourself and any crew members you are responsible for.

If you have questions or concerns, please contact the Red Team COVID Coordinator
Birk Roseman 850-363-7214 / birk.roseman@usda.gov

Wildland Fire COVID-19 Screening Tool

DO YOU HAVE ANY OF THESE SYMPTOMS?

Today or in the past 24 hours, have you had a fever or a combination of more than one of the other any symptoms listed below **in addition to your normal work-related issues?**

- Fever, felt feverish, or had chills? Repeated shaking with chills?
- Cough? Shortness of breath or difficulty breathing?
- Muscle pain? Headache? Sore throat?
- New loss of taste and/or smell?

In the past 14 days, have you had contact with a person known to be infected with the coronavirus (COVID-19)?

DOCUMENT IN YOUR 214 THAT YOUR CREW AND YOU HAVE CONDUCTED SELF SCREENING EVERY DAY.

Take temperature with touchless thermometer if available

Wildland Fire COVID-19 Symptom Protocols

If you or a member of your crew have symptoms related to COVID-19:

- **Remove the individual from work duties.**
- **Do not announce that someone has symptoms, step aside, and report to Medical.**
- **Wait for clearance to return to duty.**

To best protect all Archie Fire resources, please log the “CONTACT” you and your crew may have had each day in your 214.

- **Contact: exposure to individuals outside of your “Module of One” that is within 6 feet and lasts longer than 15 minutes.**

If you have questions or concerns, please contact the Red Team COVID Coordinator
Birk Roseman 850-363-7214 / birk.roseman@usda.gov

Archie Creek Fire & Thielsen Fire Training Message

Getting ready to demob?

If as much work as possible has been completed in the PTB, Trainees may close their assignment with the TNSP **NOW!**

Contact the Incident Training Specialist

Erika L. Davis (850) 841-0038, Erika.Davis@USDA.GOV, MS Teams, FaceTime, or WhatsApp

TRAINING REGISTRATION

<https://tinyurl.com/yxs7x4bm>

- Initiate registration via QR code
- Send Red Card and PTB cover
- Receive confirmation email w/forms

TRAINING CLOSE-OUT

<https://tinyurl.com/y54ufg3v>

- Initiate Close-out via QR code
- Send completed Performance Evaluation(s), Evaluation Record(s), Final Evaluators Verification (if necessary)

Thielsen Fire Union Contact Information

For
NFFE Bargaining Unit Employees of the Forest Service
As of September 18, 2020

Union Representative(s):	PRIMARY: Linda M. Spencer	SECONDARY: Erin Kidwell
Title:	Chief Steward for Umpqua BU	R6 FS Council VP
E-mail:	linda.m.spencer@usda.gov	erin.kidwell@usda.gov
Phone:	541-825-3163	971-333-4091

Notice of Right to Representation

As a bargaining unit employee represented by a labor organization, you have the right to request representation from your certified labor organization at any investigative examination/interview where you reasonably believe the examination might result in disciplinary action being taken against you. You may make this request at any time prior to or during the interview. If you request union representation, your agency may opt to: (1) suspend questioning and grant your request then resume the interview; (2) discontinue the interview; or (3) offer you the choice to proceed with the interview without a Union representative or to forego the interview.

Clarification about the Above Notice

If a management representative wants to question you (a bargaining unit employee) about an allegation that you were involved in some occurrence that could result in a proposal to discipline you, Union believes it is in your interest to have a Union representative present when you are questioned. **You have to invoke that right by asking for representation. Management is not obligated to inform you of this right, and they are not obligated to automatically arrange for a Union representative to be present.** In the event that you request representation and a Union representative has not been dispatched to the incident, contact will be made with the Union representative listed above, and arrangements will be made for that representative or his designee to come out on site, or to meet with you by telephone.

Afterhours/Nighttime contact #: Erin Kidwell 971-333-4091

FINANCE

Communication for finance should be sent to
2020.Thielsen.Finance@firenet.gov

Submit all Personnel Time and Equipment Time to the above email.

All CTRs and Shift Tickets must be signed by your incident supervisor.
Shift tickets shall also be signed by the contractor or their representative.

Please write the fire name and your Resource Order number on the CTR or Shift Ticket.

There should only be one person (single resource) on a Crew Time Report.

You should project time through your travel day if you are demobing on October 5. You may demob in person directly after briefing, or remotely by email.

Demob: If you are scheduled to demob, please contact Finance a day in advance to ensure that your time is complete. On your demob day, see Laura directly after morning briefing to initiate the demob process.

Please label CTR files: **Last, First O-1 CTR 10.01 – 10.02.20**

Tip: Select download (three small dots at the top if you have an iPhone), you can use the free Adobe Acrobat Reader DC for PDF app; the form will be fillable.

INCIDENT DOCUMENTATION

The Thielsen Fire IMT is endeavoring to reduce the amount of physical paper documentation to the extent practicable.

Please help your friendly neighborhood DOCL prepare an efficient and organized documentation package by **uploading your documents early and often!**

PREFERRED METHOD:

- Review the list of files required to be retained by the IMT (via QR Code below). Store these files in your MS Team Channel and the DOCL will copy over to official eDOCBOX.

ALTERNATIVE METHOD:

- Email files to 2020.thielsens.plans@firenet.gov with subject heading "Incident Documentation"
- Upload directly to the digital "Doc Box Inbox" via the Teams Documentation Channel. Once in the Channel, select the "files" tab at the top to find the inbox.
- If unable to scan, text, or email a picture of the document electronically, there is a physical Doc Box located in the Plans Section for hardcopy files.

Documentation questions?

Contact: Aerin_Land@firenet.gov 305-432-6695

(Working virtually on the east coast and may be unavailable after 20:00 PDT) You may also contact any onsite Plans person.

Steps in the Demob process

- If you need an airline flight, use the QR code below to schedule a flight at least 3 days before your demob date.
- All resources need to turn in supplies, radios, clean up your camp site, get vehicle/equipment inspected and get weed washed if your vehicle and equipment have been on the line.
- Contact Logistics to confirm that you have completed the above steps.
- Next close out with the Time Unit virtually using your smart device or laptop connected to the internet, Check-in at Chemult Camp will have a laptop available and can provide guidance in the process.
- Trainees need to close out with the Training Specialist before demobing.

Units to Contact	Name	Phone	email

Important information for those traveling home by vehicle

Driving is the most hazardous thing we do while on an incident. It is for this reason I wanted to remind everyone about driving safely as you travel home. You should be well rested before beginning travel with 8 hours off before driving. Remember these rules as you prepare to go home.

- **No driver will drive more than 10 hours (behind the wheel) within any duty-day.**
- **Multiple drivers in a single vehicle may drive up to the duty-day limitation provided no driver exceeds the individual driving (behind the wheel) time limitation of 10 hours.**
- **To manage fatigue, every effort should be made to conduct travel between 0500 and 2200 hours.**
- **Take a break every two hours besides meal stops, get out of the vehicle and walk around.**

Thielsen Fire

IAP Transportation Map

OR-UPF-000441

Weed Wash:
 The access road to Buck Eye Cinder Pit is on the north side of HWY 138 approximately 1.25 miles west from the Junction with HWY 97. The road is signed in orange as "Staging Area."
 To access the weed wash, traffic travelling north will proceed to the Buck Eye cinder pit to turn around. They will then travel south and enter the weed wash on the right side of the road. The exit is the same pit access road back to HWY 138.

Thielsen Fire Evacuation Time Map

OR-UPF-000441

Estimated Ground Time Evacuation

- 1 to 2 Hours
- 2 to 4 Hours
- 4 to 6 Hours
- More than 6 Hours

- Wilderness
- PacificCrestTrail
- Wildfire Daily Fire Perimet
- High Clearance Vehicles
- Passenger Vehicles

Estimated Ground Evac Time Overview: This layer contains the estimated ground transport time in hours from every point within the Continental United States (CONUS) to a definitive care facility (hospital). This data includes both walking speeds when traveling off-road and driving speeds according to the speed limit of the roads traveled. The intent of this layer is to initial discussions regarding Agency Administrator risk tolerance and mitigation as it pertains to firefighter safety at the earliest possible opportunity in the decision making process. It is not intended to automatically deter resource deployment to any location, but to encourage thoughtful decisions about the risks being transferred to firefighters and how to mitigate those risks.

MEDICAL PLAN (ICS 206 WF)

Emergency Phone Number: 206-771-0237

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2 ^o - 3 ^o burns more than 4 palm sizes, heat stroke, disoriented. <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2 ^o - 3 ^o burns not more than 1-3 palm sizes. <input type="checkbox"/> GREEN / PRIORITY 3 Minor injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" (Ex: Trout Meadow Medical)
On-Scene Incident Commander		Name of on-scene IC of incident within an Incident (Ex: TFLD Jones)
Patient Care		Name of Care Provider (Ex: EMT Smith)

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
