CHECK YOUR MOTOR VEHICLE USE MAP

The **Motor Vehicle Use Map (MVUM)** is a companion map to the one you are holding. It identifies the roads, trails and areas on National Forest lands and Grasslands where motorized travel is allowed. Please check with the appropriate agency or individual regarding roads and trails off National Forest lands.

Motorized travel is restricted to designated roads, trails, and areas throughout the National Forest. Cross country travel with motorized vehicles, off designated roads or trails, is prohibited. See your **Motor Vehicle Use Map**.

The **MVUM** is the legal document that identifies designated motorized roads and trails on National Forest land.

Motor Vehicle Use Maps are updated every year and are available FREE at the Forest Service offices listed on the back of this map and at www.fs.fed.us/recreation/programs/ohv/ohv_maps.shtml

Getting Around on National Forest Roads

...is different from driving on a city street or state highway. Knowing something about forest roads will help you make good choices about roads that fit your vehicle capabilities and driving experiences.

Most roads suitable for passenger car travel are identified by two types of markers as shown below. These markers are posted at the entrance of the road. Roads marked with these are generally a good choice for passenger car travel.

3720 1 9 0

Most roads not suitable for passenger car travel are identified by a brown plastic stake with vertical numbers. They may also be identified by ditches and earth obstructions across the roads and very rough driving surfaces. If you choose to drive these roads, plan to encounter rocks, boulders, road washouts, downed trees, and brush encroaching on the roadway. Roads marked for logging should not be used.

Please remember...

- **Most** roads are low-standard, gravel-surfaced, one-lane roads with turnouts for meeting oncoming traffic. **Most** roads are not maintained or snowplowed in winter weather
- Encounters with logging trucks are possible, even on weekends
- Driving rules on State Highways apply to National Forest roads
- When driving on one-lane roads, be prepared to stop
- Not all roads are shown on this map
- You can find out more about current road conditions by calling the local Ranger District Office
