CHECK YOUR MOTOR VEHICLE USE MAP

The Motor Vehicle Use Map (MVUM) is a companion map to the one you are using. The MVUM is a highly detailed document that identifies the roads, trails, and areas on the map that are open to motor vehicles. It also identifies areas where motor vehicles are prohibited or restricted. The MVUM is available for purchase at the Prineville District Office and retail locations in Maupin. Not all boat launches or primitive camping sites are depicted at this map scale. Those boating on the river should use the guide as a primary source for navigation, hazards, launches, facilities, etc.

The most heavily used section of the river is the 10.4-mile stretch from Harpham Flat to Sandy Beach. Other popular floats include the 9.4-mile stretch from Warm Springs to Trout Creek, a 36.6-mile stretch from Trout Creek to Maupin, the 18.9-mile stretch from Buck Hollow to Macks Canyon, and a 23.5-mile stretch from Macks Canyon to Heritage Landing. Jetboating is allowed from the mouth of the Deschutes River (at its confluence with the Columbia River) to Macks Canyon year-round (except for non-jetboat weekends between June and September) and from Macks Canyon to Buck Hollow from October 1 to June 14. For more information regarding the Lower Deschutes River jetboat schedule, please contact the Oregon State Marine Board at (503) 378-8567 or www.boatorregon.com.

Boating

Whitewater rafting, kayaking, drift and jetboating are all popular activities on the Lower Deschutes Wild and Scenic River. A boater pass is required to boat the Lower Deschutes River. Information on how to obtain a pass is available on-line at www.boatorpass.com. A Deschutes River Boater's Guide is available for purchase at the Prineville District Office and retail locations in Maupin. Not all boat launches or primitive camping sites are depicted at this map scale. Those boating on the river should use the guide as a primary source for navigation, hazards, launches, facilities, etc.

The most heavily used section of the river is the 10.4-mile stretch from Harpham Flat to Sandy Beach. Other popular floats include the 9.4-mile stretch from Warm Springs to Trout Creek, a 36.6-mile stretch from Trout Creek to Maupin, the 18.9-mile stretch from Buck Hollow to Macks Canyon, and a 23.5-mile stretch from Macks Canyon to Heritage Landing. Jetboating is allowed from the mouth of the Deschutes River (at its confluence with the Columbia River) to Macks Canyon year-round (except for non-jetboat weekends between June and September) and from Macks Canyon to Buck Hollow from October 1 to June 14. For more information regarding the Lower Deschutes River jetboat schedule, please contact the Oregon State Marine Board at (503) 378-8567 or www.boatorregon.com.
