AM BRIEFING

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name:		2. Operational Period: DAY	
JACK FIRE-ROUGH COMPLEX		Date/Time From: 08/15/2021 0700 SUN	Date/Time To: 08/15/2021 2100 SUN
3. Objective(s):			
<p>General Control Objectives for the Incident (include alternatives)</p> <ul style="list-style-type: none"> *Ensure firefighter and public safety by using strategies and tactics that mitigate known and anticipated hazards while providing for the highest probability of success. *Minimize impacts to communities adjacent to the fire, private lands, other critical infrastructure and natural resources. *Follow CDC guidelines and COVID BMPs as well as Region 6 protocols. If you or your resources have any symptoms, contact Medical. *Provide accurate and timely fire information through interagency and public coordination. *Limit acreage burned through direct and indirect suppression tactics (see 204 for specific detail). <p>Management Objectives</p> <ul style="list-style-type: none"> *Implement suppression actions that have a high probability of success while mitigating risk to firefighters and the public. *Utilize the Risk Management Process to maintain safe and effective operational decisions. *Consider fire fighter exposure with respect to communication, driving, aviation and heat exposure in decisions and actions. *Ensure medical response and communications plans are in place prior to engaging operations. *Implement suppression actions in consideration of values at risk to minimize adverse impacts while managing fire suppression costs. *Maintain and strengthen relationships with partner agencies, local communities, and private landowners. *Take initial attack action on fires within the delegated IA response area (TFR). Support request for assistance to initial attack on North Umpqua Zone, as requested. 			
4. Operational Period Command Emphasis:			
<p>Commanders Intent</p> <ul style="list-style-type: none"> *Safety: Firefighter, public, and aviation safety will be addressed through hazard/exposure risk mitigation processes. *Communication: We will keep the Agency Administrators informed of significant accomplishments and concerns. *Risk Management: We will use mindful risk assessment process to mitigate unnecessary risk to firefighters and update, and/or revise decisions as necessary. *Human Resources: We will ensure that all incident personnel be treated with dignity and respect. We have a zero tolerance for harassment, alcohol, or illegal drug use. *Operations: We will make informed tactical decisions engaging the fire in the right locations with the appropriate resources. *Public Information: We will provide timely and accurate information through the press, meetings, trap lines, briefings, community meetings, and social media. *Stakeholders: We will coordinate with the local community to enhance key partnerships and keep them effectively informed of progress along with the use of their local knowledge. *Finance: We will establish and monitor cost effective methods for accomplishing incident objectives. *Resource Advisors: We will work closely with resource advisors to limit fire impacts to sensitive cultural and environmental areas as well as critical habitats, including the Frank & Jeanne Moore Wild Steelhead Special Management Area.

Jack Fire/Rough Patch Incident Weather Forecast

FORECAST NO: 37D
 PREDICTION FOR: Sunday Day Shift
 SHIFT DATE: August 15, 2021
 FORECAST ISSUED: 1700 August 14, 2021

NAME OF FIRE: Jack Fire / Rough Patch Complex
 UNIT: N. Umpqua RD / NW Team 13
 INCIDENT METEOR. Jeff Tonkin
 Text Observations: 707-672-3386

Much Less Smoke Today....Stronger Winds Mid Week

WEATHER DISCUSSION:

Slightly less smoke will contribute to near normal temperatures and rh values today. An upper trough will begin to approach the coast of Oregon later today beginning a cooling trend for Monday and Tuesday. This trough and associated weak front will help improve sky conditions with regard to smoke. Winds will continue to be light and out of the west today but gradually increase during the afternoons on Monday and Tuesday.

WEATHER FORECAST TODAY (SUNDAY DAY SHIFT):

WEATHER: Partly cloudy with filtered sunshine from smoke. Smoke partially mixing out after 1500.
MAX TEMPERATURES: Drainages (<3500 ft): 93 – 98 F Upper Slopes/Ridges (>3500 ft): 86 – 91 F
MIN HUMIDITY: Drainages: 16 to 21% Upper Slopes/Ridges: 19 to 24%
WINDS (EYE LEVEL):
 Lower Slopes/Drainages and Upper Slope/Ridges: NW or upslope 4 – 7 mph...locally gusty from 8 to 13 mph after 1400 PDT.
LAL: 1 CWR: 0% Mixing Height: 6k ft AGL Haines: 4 Inversion Elevation 4k ft breaking late afternoon.
AFTERNOON / EVENING SMOKE TRNSPT WIND:
 Lower slopes/Drainages...NW 2 mph. Ridge top...W 5 - 9 mph. High Altitude...SW 12 mph

WEATHER FORECAST FOR SUNDAY NIGHT:

WEATHER: Smoke laying in heavy overnight
MIN TEMPERATURES: Drainages (< 3500 ft): 60 – 65. Slopes/Ridges (> 3,500 ft): 63 – 68 F
MAX HUMIDITY: Drainages: 80%. Upper Slopes/Ridges: 60 – 70%
WINDS (EYE LEVEL): Drainages/Valleys – Down slope/Down drainage or E 2 – 4 mph.
 Upper Slopes/Ridges – E 3 – 5 mph.
LAL: 1 CWR: 0% Mixing Height: 400 ft AGL

OUTLOOK FOR MONDAY:

WEATHER: Mostly sunning filtered through smoke. Smoke mixing out after 1400.
Drainages: (<3500 ft): Max Temps: 88 – 93 F Min RH: 23 - 28%. Wind: NW 4 – 6 mph...Gusts 8-13 mph.
Upper Slopes/Ridges (>3500 ft): Max Temps: 81 – 86 F. Min RH: 18 - 23%. Wind: NNW 4 – 7 mph...Gusts 9-14 mph.
LAL 1. CWR 0%. Mixing Height: 5k ft AGL. Haines: 4 High
AFTERNOON / EVENING SMOKE TRNSPT WIND:
 Lower slopes/Drainages...NW 2 mph. Ridge top...W 5 - 9 mph. High Altitude...SW 12 mph

THREE DAY EXTENDED (TUESDAY – THURSDAY)

	<u>Max T</u>	<u>Min RH</u>	<u>Max RH</u>	<u>Midslope Afternoon Winds</u>	<u>LAL</u>	<u>WX</u>	<u>POP</u>
TUE	91 – 95	26%	50%	NW 4-6 Gust 12 mph	2	Partly Cloudy	5%
WED	86 – 91	31%	60%	NW 4-6 Gust 12 mph	1	Partly Cloudy	5%
THU	86 – 91	31%	60%	NW 4-6 Gust 12 mph	1	Partly Cloudy	5%

6. Control Operations/Work Assignments:						
<p>Task: Continue to monitor and suppress existing fires and aggressively suppress new spots or slop-overs. Identify and construct indirect control lines utilizing access features and barriers to spread.</p> <p>Purpose: Minimize acres burned and impacts to cultural/natural resources, private land and FS/BLM infrastructures.</p> <p>End State: Alternate and contingency lines constructed, previously contained wildfires are secured, those fires are in mop-up and patrol status. For uncontained fires, develop and implement an action plan (PACE) for short and long-term incident management strategies.</p>						
7. Special Instructions:						
<ul style="list-style-type: none"> LCES in place prior to engaging and ensure communication with supervisor. Identify and map line locations, fire line, perimeters, staging and drop points. Heavy equipment and water tender operators use the division tactical channel for road safety. Coordinate all heavy equipment use with REAFS <p>** IA Resources</p>

6. Control Operations/Work Assignments:

Task: Implement burn operations south of Buckhead Mountain; implement burn operations on the north, west, south, and east sides near Minke.

Purpose: Prevent fire from impacting values at risk

End State: Keep fire within the PACE model containment lines.

7. Special Instructions:

- Utilize aviation with PSD capabilities to support overall burn operations as need.
- Priorities could change due to increased fire behavior and movement towards containment lines.
- Meet the fire where it pushes us if needed.

3. REMARKS
 * UAS UR322 is piloted by Lakeview IHC and will be working in DIVR. Standard notifications will be made through ATGS or to Strader Helibase.
 * All aircraft are shared between Jack Fire, Rough Patch Complex and Devils Knob out of Strader Helibase.
 * Ensure to provide correct and verified **TARO** information for responding missions outside of our TFR.
 * Flight follow with ATGS or Helibase inside TFR, RICC for Devils Knob Complex and incidents outside of TFR.
 * **DO NOT USE LEMON DIP TANK (Bucket) or STEAMBOAT CREEK on Rough Patch** *
 * **DO NOT USE BEAVER SWAMP, FISH LAKE AND BLUE BUFF DIP on Devils Knob** **

CHECK-IN & DEMOB INSTRUCTIONS
JACK Fire (OR-UPF-000625)
& Rough Patch Complex (OR-UPF-000373)

CHECK-IN: Check-in is an on-line only process .

STEP 1. Fill out and submit the online check-in form available at <https://bit.ly/2Rr545v> or scan the Jack Fire QR code.

STEP 2. Next email the following Documents to: 2021.roughpatch.finance@firenet.gov. Include your **Resource Order Number** in the email subject line:

<u>Documents</u>	<u>Fed/State Agency</u>	<u>Contractors</u>	<u>Crews</u>	<u>Equipment</u>	<u>AD/Casual Hires</u>
Resource Order	X	X	X	X	X
Red Card	X	X	X	X	X
Safety or RT-130 card for each person with quals & training date		X	X		
Contract Agreement (pages 1- 3)		X	X		
Pre-use equipment inspection				X	
Manifest (names & quals)			X	X	
Casual Hire Form with ECI#					X

Once completed you should get an automated response in your email that your Check-In was received.

STEP 3. All contracted Equipment resources, NERV rentals, and Contract Crews need an inspection from Ground Support and/or the Incident Contract Project Inspector.

Contact Michelle @ Check-In for questions at 253-339-0761 (from 0700-2000).

DEMOB:

STEP 1. Your incident Supervisor needs to submit a General Message to Demob 48 hours prior (72 if flying) to your departure. Ensure your last workday is correct in the IAP.

STEP 2. Return all items to Communications and Supply, Get inspection and weed wash.

STEP 3. Fill out and submit the online demob form available through the QR code below. Take hard

STEP 4. copies of your CTRs, Shift Tickets, Contracts and Resource Order to Finance. After getting your time posted you will finalize with finance by receiving your O-288.

STEP 5. Call Lorie in Demob @ 360-280-7354 to finalize your travel ETA/ETD information.

Thanks for your work and have a safe trip home.

Rights and Responsibilities of All Personnel Assigned to this Incident

Rights:

- To work in a safe environment:
 - ✓ That is free from alcohol and non-prescription drug usage.
 - ✓ In which proper mask wearing and social distancing is practiced.
- To work in a harassment-free environment.
- To say “no” to unwelcome advances or requests for favors.
- To file complaints using the Forest Service Harassment Center, EEO process, or other appropriate avenues.

Responsibilities:

- To maintain an attitude of respect and healthy concern for your colleagues by:
 - ✓ Treating others with dignity, equity, courtesy and respect, and
 - ✓ Properly wearing your mask and practicing social distancing.
- To abide by agency and incident ethics and conduct regulations.
- To report any harassment or other inappropriate conduct you observe or experience to the Human Resource Specialist, your supervisor, any member of the Incident Management Team, or the Harassment Reporting Center at 844-815-8943. Allegations of harassment will be dealt with promptly and thoroughly.

Please feel free to contact me if you have any concerns.

Karen Mora, Human Resource Specialist

970-420-5108

TRAINING MESSAGE - Trainees - please SIGN IN with the Training Specialist, by accessing the fillable Trainee Sign-In Form here:

<https://forms.office.com/g/L5c3rbydZf>

ONCE YOU HAVE SIGNED IN.....at any time during the during the incident:

If Trainee or Trainer is demobing: Trainers – Trainer needs to **fill out the relevant parts of the Task Book** and do an **Incident Personnel Performance Rating** and discuss the assignment with the trainee.

If Trainee is staying: Trainee should contact the Training Specialist to discuss plans for remainder of the assignment.

If Trainee is demobing: Trainee should access the **Trainee SIGN OUT** form here:

<https://forms.office.com/g/AzqjvjDpZa>

If you have any questions or need to discuss your assignment, please contact the Training Specialist

Don Washco, 623-695-6487 Don_Washco@firenet.gov

Great Basin Team 2 Expectations 2021
Safety is the Team's Number One Priority
Everyone is a safety officer—See It, Say It, and Fix It!

The Team is committed to identifying clear Task, Purpose, and End State that achieves the Agency Administrator's direction and objectives in a timely and cost effective manner.

The Team provides every person associated with the incident a safe, productive, and supportive work environment.

The Team operates in a transparent manner, facilitating open communication and dialogue up, down, and across the chain of command, with active listening and opportunity for discussion and collaboration.

Here are a few ways you can help the Team create an atmosphere of **Duty, Respect, and Integrity** as outlined in the Incident Response Pocket Guide (IRPG):

If you Need to Leave the Incident Environment when Off Duty:

Notify your supervisor of destination and estimated time of return in the event you are needed for duty prior to expected time.

Alcohol /Illegal Drugs / Fitness for Duty

Alcohol and illegal drugs are not permitted within the incident environment. Be ready, willing, and able to perform your duties. If you are unable to perform your duties, you may be released from the incident with the home unit or employer being notified of the circumstances.

Work Environment/Human Relations:

Conduct yourselves as professionals and maintain a positive, non-hostile work environment with mutual respect. Sexual harassment, discrimination, acts of reprisal or any inappropriate behavior that violates human rights, the provisions of equal employment opportunity (EEO), or ethics and conduct standards will not be tolerated. If you need clarification of these expectations, contact the Human Resource Specialist.

Your actions in the community outside of the incident environment must also conform to these standards while assigned to this incident. Your integrity is shown by obeying the law and following local rules and ordinances. Non-compliance with these expectations could result in your being released from the incident with the home unit or employer being notified of the circumstances.

Work / Rest Guidelines:

Any shift times over 16 hours require written justification and approval by the appropriate Section Chief on the Crew Time Report, and will be reviewed by the Incident Commander.

Performance Evaluations:

Performance Evaluations will be completed for all trainees and contractors (including ADs). Any unsatisfactory performance will be documented on an evaluation. It is your responsibility to ensure that your supervisor has completed an evaluation.

Use of Social Media on Wildland Fire Assignments:

Firefighters and Incident Management Team (IMT) members should be aware that existing agency-specific ethics and conduct regulations and restrictions governing the use of social media by federal employees on fire assignments apply.

Only authorized employees designated by the hosting unit may represent the government on public social media websites. If you choose to post to a social media website you should have a disclaimer that clearly states the views or opinions that you express are yours alone and do not represent the views of your agency or the IMT.

However, anything that you do post regarding wildland firefighting and the agency you work for reflects on that agency, the IMT you are assigned to and all wildland firefighters.

Social media sites are regularly monitored by federal agencies and employees may be held accountable for inappropriate conduct or ethics. When in doubt, don't post!

I hope you have a safe, productive and rewarding experience here. If you have any needs or concerns that cannot be addressed by my Command and General Staff, please feel free to visit with me.

Tony DeMasters
Incident Commander

2021 Team Evaluation – Please share your evaluation of the team by scanning the QR code.

HEALTH AND SAFETY MESSAGE

SAFETY starts with *YOU*

We are ALL accountable for SAFE behaviors

For Day/Night Operations: August 15, 2021

INCIDENT: Rough Patch Complex/ Jack Fire

DATE: 8-15-21

Major Hazards and Risks:

- **DRIVING:** Drive defensively, stay aware of changing road conditions, know where you are going. Expect the unexpected. **SLOW DOWN!!!**
- **TRANSITION:** Take the time to get clear leaders' intent. Ask questions and maintain a clear chain of communications throughout the operational period.
- **HEAT RELATED ILLNESS (HRI):** Take care to monitor the health and welfare of yourself and crew, drink plenty of water/fluids, take frequent breaks, get 8 hours of sleep, and get enough food.

Fire Order of the Day:

Give clear instructions and insure they are understood.

- **Task** = What is to be done
- **Purpose** = Why it is to be done
- **End State** = How it should look when done

ACCOUNTABILITY
is **KEY**
to **SUCCESS**

**take the time to know
where everyone is!!!**

Your Safety Team:
Laney Cutshaw
Brandon Hoffman

Situation Awareness

- **Speak up if you see something that looks wrong!!!**
- **Get a good briefing prior to beginning task**
- **Ask if you don't understand!!!!**

- **HELP BREAK THE "ERROR CHAIN"!!**

Always think LCES.....

Discuss possible risks prior to engaging in work tasks.

Transfer Of Command

Operational Engagement Category

Risks to fireline personnel increase significantly during transfer of command periods regardless of the size or complexity of the incident. There is a high potential for fatalities, serious injuries, or incidents (some have occurred in the past). Be proactive in mitigating the risks by proper implementation of LCES –Lookout, Communications, Escape Routes, and Safety Zones.

Factors for increased risks to fireline personnel during transition periods include:

- ◆ No, or poor, briefing of incoming personnel.
- ◆ Lack of fire weather and behavior information, both forecast and observed.
- ◆ Communications; face-to-face briefings may not be possible and radio frequencies may be overextended and/or changing due to the increased demands on the system.
- ◆ Initial attack resources may not have checked-in and the Incident Commander may not be aware of the number, type and location of all resources.
- ◆ Location of safety zones and escape routes may not be known and communicated to all resources.
- ◆ Not all Resources know who is in command.

Mitigation actions to take:

- ◆ Lookouts: Post and maintain your own lookouts.
- ◆ Communications: Maintain existing communications with your own and adjacent resources, as well as your original supervisor, while you are developing communications with incoming adjacent resources and your new supervisor.
- ◆ Escape routes and safety zones: Identify escape routes and assure incoming resources are aware of their locations; be aware that your original escape routes and safety zones may no longer be accessible due to changing fire behavior or your increased distance from them.
- ◆ Transition at the morning briefing.
- ◆ Utilize the Incident Response Pocket Guide transition checklist.

2021 COVID-19 Guidance

Great Basin Incident Management Team 2

LEADERS INTENT

- Incident responders have a **DUTY** to safeguard each other and the public we serve from hazards. It is through our **RESPECT** for everyone's health and safety that we follow these mitigations, and we rely on everyone's **INTEGRITY** to ensure that we do so and expect the same of others.
- All incident personnel are expected to conduct **self-screening** of their health daily. Individuals experiencing any of the symptoms referenced in the Wildland Fire COVID-19 Screening Tool will take precautions to self-isolate and immediately report symptoms to your supervisor and to the IMT's COVID-19 Coordinator or Medical for assessment.
- All incident personnel will adhere to the **Module as One** concept to the extent practical.
- All incident personnel and visitors will wear **cloth face coverings** when six feet of social distancing cannot be maintained with others outside of their Module as One.
- All incident personnel and visitors are required to wear **cloth face coverings** when attending briefings or meetings in common use areas at ICP and camps.
- All incident personnel and visitors will wear **cloth face coverings** whenever they enter an enclosed incident facility, such as yurt, tent, building, restroom facility, or other common-use areas regardless of proximity to other people.

ICP AND CAMPS

- Access into ICP and some base camp facilities may be restricted to essential personnel only, i.e. module supervisors and trainees.
- To promote isolation and social distancing, operational resources will be assigned to camps and spike camps dispersed on the incident.
- Food will be individually packaged and delivered to drop points for distribution. Special dietary needs should be reported to your line supervisor.
- Daily operational briefings will be conducted via radio or virtually. Only supervisors and trainees should attend in-person briefings.

2021 COVID-19 Guidance
Great Basin Incident Management Team 2

WILDLAND FIRE COVID-19 SCREENING TOOL

Today or in the past 24 hours, have you had any of the following symptoms¹?

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
<i>Take temperature with no-touch thermometer, if available</i>

Instructions for Screening

Item	What to Do
Supervisors should check in with resources multiple times a day (e.g., morning, lunch and after shift) to ensure no symptoms have developed.	Contact Medical or call the COVID Coordinator 503-985-2082
If resource has a cough that is more than expected, shortness of breath or difficulty breathing, or any other symptoms listed. Do not announce, escort symptomatic individual to an isolated area and contact Medical or the COVID-19 Coordinator.	

¹Symptoms of Coronavirus

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report					
FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.					
FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.					
Use the following items to communicate situation to communications/dispatch.					
1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report) Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic." 2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure. <i>Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."</i>					
Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>				
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>			
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>			
Patient Location		<i>Descriptive Location & Lat. / Long. (WGS84)</i>			
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>			
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>			
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>			
3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)					
Patient Assessment: See IRPG page 106					
Treatment:					
4. TRANSPORT PLAN:					
Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:					
Helispot / Extraction Site Size and Hazards:					
5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:					
<i>Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication</i>					
6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable					
Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					
7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.					
8. ADDITIONAL INFORMATION: Updates/Changes, etc.
