-----------------------	-----------------------------------	-------------------------------------	---------------------------------

MY SAFETY

It is important that individual responsibility be taught as the basis for a viable safety program. Some of those individual responsibilities are:

- Fitness for duty. Begin each work shift both mentally and physically prepared for the rigors of wildland firefighting. Getting adequate sleep, maintaining a healthy diet, and proactively participating in physical training are the foundation of "My Safety".
- Maintain personal hygiene and camp/worksite cleanliness. Make sure you wash your hands and take steps to prevent the spread of germs. Help camp staff out by making an effort to clean up after yourself.
- Utilization of personal protective equipment. Wear your PPE without being told. Each individual is responsible for performing their own risk assessments. If a hazard is identified that can be mitigate by wearing a particular PPE component it should be utilized. Fireline supervisors have more important duties to focus on other than performing glove patrol.
- Following safe work practices. Using a spotter when backing up vehicles is the prudent and professional course of action. If you are unsure of how to perform a job task safely, ask your supervisor or experience coworker.
- Using the correct reference materials is an important aspect of safety. You should have a working knowledge of the IRPG, IAP, and your local operating guidelines.
- Ensure instructions are clearly understood. Communication is a basic responsibility for all fire personnel. Ask appropriate questions to clarify uncertain issues. Speak up when you observe hazards that may place yourself or others at risk.
- Maintain situational awareness at all times. Awareness is a vital component of "My Safety". Pay attention to what is happening around your area of operations. Always display an awareness of what is happening around you by asking questions or making comments.

Do not expect someone else to be responsible for your safety. Take it upon yourself to make "My Safety" your number one priority.

Inappropriate Behavior

It is extremely important that inappropriate behavior be recognized and dealt with promptly on any incident. Inappropriate behavior is all forms of harassment including sexual and racial harassment. Harassment in any form will not be tolerated. When you observe or hear of inappropriate behavior you should:

- Inform and educate subordinates of their rights and responsibilities. Tell the harasser to stop the offensive conduct.
- Provide support to the victim.
- Report the incident to your supervisor and the individual's supervisor, if the behavior continues. Disciplinary action may be necessary.
- Develop appropriate corrective measures.
- Document inappropriate behavior and report it to the appropriate incident manager or agency official.
- While working in and around private property, recognize and respect all private property.
