## **INCIDENT OBJECTIVES (ICS 202)**

1. Incident Name:	2. Operational Period	I: DAY/NIGHT		
CHUWEAH CREEK FIRE	Date/Time From:		Date/Time To:	
	07/24/2021 0600	SAT	07/25/2021 0600	SUN
3. Objective(s):				
Implement risk management practices for the sa	fety of firefighters,	other responders and	I the public as the first p	riority.
Minimize impacts to private property, critical infra and range land.	astructure, timber, (	cultural and natural re	sources including water	r, fish, wildlife,
Maintain and strengthen community relationship	s and provide time	ly fire information to th	ne public and cooperato	rs.
Establish and maintain all current COVID-19 mit	gation protocols ad	ccording to CDC guid	elines.	
4. Operational Period Command Emphasis:				
Implement direct suppression tactics where safe	to do so to minimi	ze fire size, protect tir	mber values and private	property.
General Situational Awareness:				
Monitor the weather conditions and base all acti	ons on current and	expected fire behavio	or.	
5. Site Safety Plan Required? Yes No X				
Approved Site Safety Plan(s) Located				
1 11	ed helow are included in	n this Incident Action Plan):

#### Fire Weather Forecast

FORECAST NO: 11 INCIDENT: Chuweah Creek Fire PREDICTION FOR: Saturday UNIT: Colville Reservation

**Shift Date:** July 24-25, 2021 0600-0600 **SIGNED:** Bob Tobin

TIME AND DATE Incident Meteorologist (IMET)

**FORECAST ISSUED:** 7/23/2021 at 2000

\_\_\_\_\_\_

<u>Weather Discussion:</u> A weak ridge of high pressure will strengthen some through the weekend over the region. This will result in warming temperatures. Relative humidity is already very dry and it should become even drier the next few days. Overnight recoveries on mid-slopes and ridges will be poor at best. Winds will be light and variable at night, but should come around to the southwest-west with afternoon gusts on ridgetops 15 to 20 mph on ridgetops.

### **WEATHER FORECAST:**

### Today:

**SKY/WEATHER:** Sunny and warmer

High Temperature...78-83 above 2500 feet...83-88 below 2500 feet.

24hr Change...Up 2-4 degrees.

Min RH......15-20% above 2500 feet...15-20% below 2500 feet

24hr Change...Up 2-3 percent.

**20-FOOT WINDS:** Southwest 8-10 mph with gusts around 15 mph.

CWR (>=0.10").... 0% LAL....1 Haines Index...3 (Very Low) Mixing Height...6800 ft AGL

#### Tonight:

Weather: Clear. Areas of smoke. Low Temperature...62-66. Max RH......40-48%

20-FOOT WINDS: Becoming north 4-7 mph after 0200.

CWR (>=0.10")....0% LAL...1.

#### Sunday:

**SKY/WEATHER:** Sunny.

**High Temperature...**82-86 above 2500 feet...85-90 below 2500 feet. **Min RH.....**12-18% above 2500 feet...10-15% below 2500 feet

**20-FOOT WINDS: West** winds 10-12 mph with gusts to 20 mph.

CWR (>=0.10")....0% LAL....1 Haines Index...4 (Low) Mixing Height...7800 ft AGL

#### **Extended Outlook**

Monday...Partly cloudy. Low: 55-65/35-40% High: 84-94. Min RH: 10-16% Winds: southwest 8-12 mph with gusts to 20 mph.

**Tuesday...**Partly to mostly cloudy. Low: 60-65/32-37%...High: 82-92. Min RH: 12-18% Winds: Southwest 8-12 mph with gusts to 15 mph.

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 11	TYPE OF FIRE: Wildland
FIRE NAME: Chuweah Creek	OPERATIONAL PERIOD: July 24-25, 2021 0600-0600
DATE ISSUED: July 23, 2021	TIME ISSUED: 1800
UNIT: WA-COA	Don Strand FBAN

#### **INPUTS**

**WEATHER SUMMARY:** Sunny. Max Temps near 88 with min RH near 15%. Winds southwest 8-10 mph gusts to 15 mph.

#### **OUTPUTS**

#### **FIRE BEHAVIOR**

#### **GENERAL:**

- Note: Smoke haze over the fire area may reduce fire behavior potential some due to shading and slightly increasing stability. In the event it clear, expect an increase to forecasted fire behavior activity.
- Fuels: Dead fuels moistures continue to be very dry. Live fuels are drying and becoming more available to burn.
- Fire behavior potential remains very high. Thermal belt developing overnight so anything burning will continue burning in the thermal belt. ERC's will continue to be near the 97<sup>th</sup> percentile. Fuels are mixed grass, brush, conifer with grass and brush understory with areas of light logging slash.
- Probability of Ignition will approach 80% today unshaded. Maximum spotting distance approaching 0.2 mile. Expect
  continued cleanup of unburned islands with backing, flanking fire spread with occasional torching where ladder
  fuels are available.

### Specific:

**DIV D:** Expect fire to back and flank with occasional torching in available fuels inside control lines. Potential exists for spots outside fire lines with fire growth. Watch for hold over spot fires.

**Incident 90 Fire**: Fire is continuing to smolder with potential for flare ups. Expect squirrelly winds at times to contribute to possible flare ups and spotting.

**DIV G:** Burnout and holding. Potential for isolated torching in areas of burnout and interior dirty burns. On steeper slopes, watch for roll outs carrying burning material down slope below your location. Pay attention to smoke drift when burning out.

**DIV K/W:** Expect interior areas unburned areas west of Keller Butte Road to continue to clean up with surface fire spread and occasional torching. Continue to watch for spot fires. On steeper slopes, watch for roll outs.

**INITIAL ATTACK:** In the event resources are assisting with local IA, update your SA to your new work area. Remember, the light flashy fuels can quickly change directions of spread and rapidly accelerate. Rates of spread in grass and brush can be much faster than firefighters can move.

AIR OPERATIONS: Watch for turbulence in the complex terrain.

#### **SAFETY**

Increasing temps, dry fuels, low humidity and squirrelly winds will contribute to increased fire behavior potential over the next 24-48 hrs; this is a recipe for large fire growth.

"At all times maintain your situational awareness so you can provide for your safety & safety of your coworkers."

18.TAKING A NAP NEAR THE FIRELINE

## Safety Message July 24-25, 2021

INCIDENT: Chuweah Creek OPERATIONAL PERIOD: 0600-0600

#### **TOPICS:**

## **COMMON BARRIERS TO EFFECTIVE COMMUNICATION INCLUDE: (part 1 of 4)**

### "STRESS"

THE CONFUSION CREATED WHEN ONE'S MIND OVERRIDES THE BODY'S BASIC DESIRE TO CHOKE THE LIVING DAYLIGHTS OUT OF SOMEBODY WHO DESPERATELY NEEDS IT!

**Stress and out-of-control emotion.** When you're stressed or emotionally overwhelmed, you're more likely to misread other people, send confusing or off-putting nonverbal signals, and lapse into unhealthy knee-jerk patterns of behavior. To avoid conflict and misunderstandings, you can learn how to quickly calm down before continuing a conversation.

"When working with people it is like mining for gold. You don't look for the dirt, you look for the gold."

"It's difficult to get a little excited."

\*\*KEEP UP ON PROPER HYDRATION BEFORE, DURING, AND AFTER SHIFT\*\*

## Deliberate Risk Assessment-Hazard Summary July 24-25, 2021 0600-0600

Viral Transmission   Mitigations, Communicable   Disease	Moderate  High  Low  Moderate  Moderate  Moderate
Disease recommendations. Report and isolate if not feeling well.  Extraction Time Identify medivac sites and helispots. Initiate ground transport to accident site. Identify EMT/EMTP from resources assigned to division. Provide line qualified paramedics to each division as available. Review IWI protocol to ensure familiarity. Utilize civilian medivac as treatment/timing dictates. Evaluate on-going need for repositioning medical personnel.  Steep Terrain/Gravity Do not work crews above or below each other. Post lookouts for rolling material. Watch footing in loose soil, rock and around vegetation. Do not work below heavy equipment. Scout and identify travel routes. Establish LCES.  Hazard Trees Use avoidance to limit exposure time. Snag ahead to avoid exposure. Use qualified fallers, blasting, or alternate methods if needed. Conduct on-going risk analysis of all work areas. Follow Hazard Tree Safety Guidelines (IRPG page 22).  Communication Evaluate for dead zones prior to engagement. Utilize human repeaters as needed. Ensure accountability of resources in problem areas.  Physical Factors Maintain hydration schedule. Closely monitor work rate and implement resperiods. Maintain hydration schedule. Closely monitor work rate and implement resperiods. Maintain nutrition. Ensure adequate work/rest.  Environmental Factors Assign medical personnel to camp. Assess for known allergies and report to medical personnel. Obtain Bee Bopper/wasp spray and yellow jacket traps. Maintain an awareness of livestock. Keep an eye out for wildlife including bears, cougars, and rattlesnakes.  Fire Behavior Beaware of burn windows and weather impacts and min/max RH for flashy fuels/local conditions. Be aware of increased fire behavior and concerns specific to thunderstorm safety (IRPG p. 21). Report changes to FBAN and IMET. Include thunderstorm safety message in IAP.  Unburned Fuels/Firing Ops Establish LCES. Ensure management action points are implemented and followed. Weather updates as needed during burning operations. Locate indirec	Moderate  High  Low  Moderate  Moderate  Moderate

## **Human Resource Message**

## Chuweah Creek Fire, July 24, 2021

<u>Crucial Conversations and You:</u> We have crucial conversations everyday with family, friends, and co-workers. Hopefully, those conversations go well however, I am guessing that some do not. Conversations become uncomfortable when there is disagreement, human problems arise, then we are left trying to figure out what happened.

When we think about what a "crucial conversation" is we do not necessarily think about it in terms of that conversation being a human problem. However, many human problems lie in how people behave if during that conversation, there is disagreement.

Understanding how to have a crucial conversation will help bridge the gap when it comes to effectively communicating with others. Here are some tips from "*Vital Smarts*" that may help you with your crucial conversations.

- ⇒ People need to feel safe and will go to silence and violence because they feel unsafe sharing their meaning. When this happens, step out of the conversation, and restore safety.
- ⇒ Respect is like air. You do not really notice it until it is not there-and then it is all you notice. When respect is violated, dialogue stops.
- ⇒ When we find ourselves at cross purposes, our automatic reaction is to either give in or dig in. These are the wrong responses. Learn how to step out of the content, create a Mutual Purpose, resolve conflict, and return to healthy dialogue.
- ⇒ Anytime you find yourself stuck, there is a crucial conversation you are either not holding or not holding well.

Susie Manezes, PNW-Team 12- (HRSP) Contact Number: 602-571-9327
Food Bank Donations will go directly to Nespelem Head Start. Thank you!

## Chuweah Creek Fire Incident Training Program

A (Virtual) TNSP is available to help with training related issues and incident documentation for your training assignment.

To receive documented credit for your assignment, Click the link or scan the QR Code below to access and complete the Trainee Registration Form. Once registered you will receive additional instructions via text. For training related questions, call or text Brad Smith (TNSP) at 209-770-4809 or email bradley\_smith@firenet.gov (Be sure to list "Chuweah Creek" on any correspondence)

Chuweah Creek - Trainee Registration Form

## **LOGISTICS MESSAGE**

## **KITCHEN**

Breakfast 0500 – 0900
Dinner 1700-2200
Lunches and ice are available at the refrigerated trailers.

## **SHOWERS**

**Open hours** 0500 - 1200 and 1400 - 2200

## **GROUND SUPPORT**

Ground Support hours **0600-2200**Attention WEX card users... Fuel is available in Nespelem at Jacksons Service Station. See ground support for directions.

## **SUPPLY**

Cache hours **0600-2200**Cache orders prior to 0900 should be delivered same day.

## -CAMPING NOTE-

Attention all personnel camping around the Pow-wow grounds All tents need to be set up at least 5 feet from any of the structures/sheds
anywhere in the area. If your tent is already set up within 5 feet, it needs to be
moved at least 5 feet (or more) away from structures.

## Chuweah Creek Fire Finance

FSC2 - Cheri Fuller, FSC2 (T) Christina Goebel

Email: 2021.chuweahcreek.finance@firenet.gov

Phone: 425-495-3420

Hours of operation 0530 – 2200

If you haven't checked in with finance, you need to do so if you would like to be paid. The finance chiefs will be at briefing every morning, so if you have time to turn in or questions please come see us.

## Need to see the following ...

C-12 C-19	E-24 E-40 E-91 E-95 E-131	O-9 O-49 <b>O-66</b> need to see O-144 O-170
--------------	---------------------------------------	--

#### **Incident Maps**

For incident maps scan the QR code on the cover of the IAP to open the 'Current Maps' folder.

Note: Sometimes the local area's cellular network is not fast enough for large file downloads. This may result in a browser timeout and error message about the map not being able to download to be displayed. The Community Center has a guest Wi-Fi that can be utilized.

#### How to Download and Open Maps in Avenza

#### Method 1: From a browser

- 1. Tap on the desired map link and wait for the preview.
  - \* If it fails to load, use method 2 instead
- 2. Tap the 'send to' icon (square with up arrow)
- 3. Choose the Avenza app

#### Method 2: From Avenza direct

- 1. Tap and hold on the desired map link, then choose 'copy' to copy the direct URL to the map
- 2. Launch the Avenza app
- 3. When not in any map... Tap the + (plus) icon at the top of the screen
- 4. Choose the load from URL option (last choice)
- 5. Paste the direct URL to the map
- 6. Tap 'Done'; the map will begin downloading

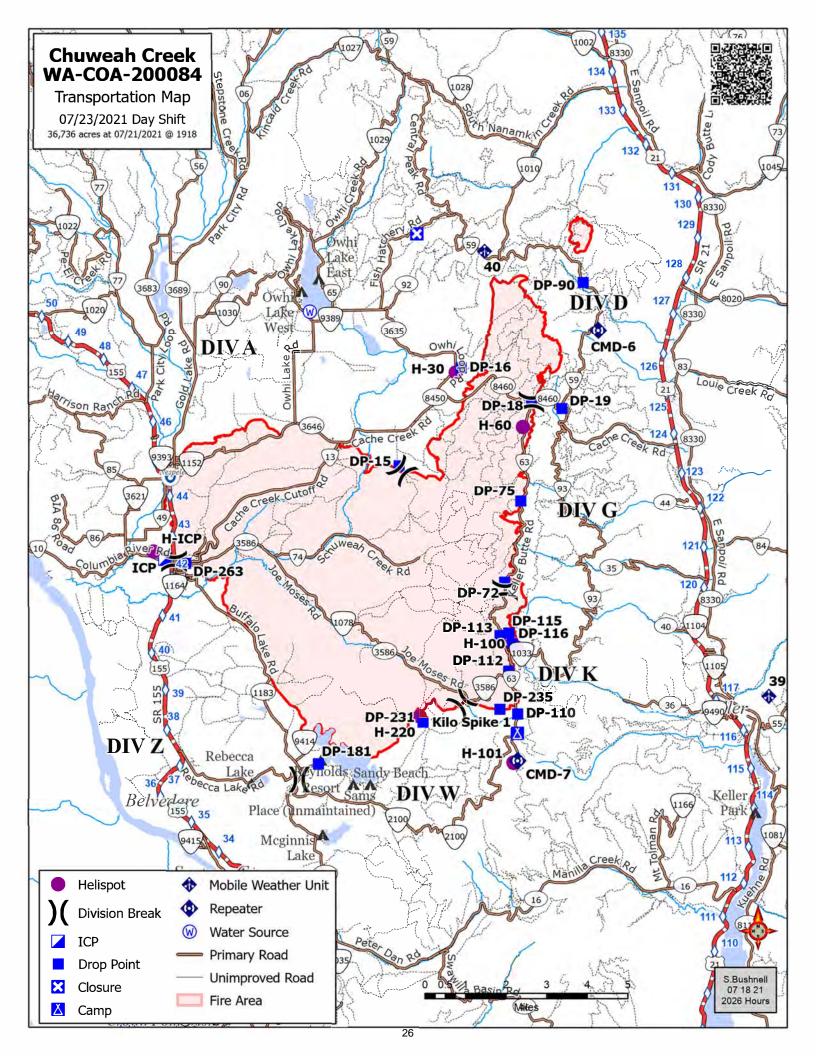

#### **How to Send Map Updates to the Situation Unit**

Send map updates by email to <a href="mailto:2021.chuweahcreek.situation@firenet.gov">2021.chuweahcreek.situation@firenet.gov</a> or text/call the Situation Unit at 360-584-3373. Make sure to include your name, position and explanation of the update you send.

- 1. Open the map in Avenza.
- 2. Click the pin with three lines near the lower-right corner.
- 3. *iPhone:* In the lower right, click the square with up arrow. From the pop-up menu, choose Export to Others.

Android: In the lower right, click the circle with three lines. Click the pop-up circle with up arrow.

- 4. Set these options:
  - a. Filename leave alone
  - b. Export Format choose SHP, GPX or XML
  - c. Data all features

## **CHUWEAH CREEK FIRE COVID-19 MITIGATIONS:**

## Supervisors are required to go over this list each morning with assigned resources

In the last 24 hours have you experienced:

Symptom
Cough more than expected?
Shortness of breath or difficulty breathing?
Fever? Chills?
Muscle pain, outside your normal for firefighting?
Sore throat?
New loss of taste or smell?
Fatigue, outside your normal for firefighting?
Headache, outside your normal for firefighting?
Congestion or runny nose, outside your normal for firefighting?
Nausea or vomiting
Diarrhea
* Take temperature with no-touch thermometer, if available *

- Masks must be worn indoors, in enclosed spaces, and outdoors when 6-foot social distancing cannot be maintained regardless of vaccination status.
- Masks must be worn at ALL briefings, breakouts and meetings.
- Conduct daily verbal screening checks within crews, report any COVID-like symptoms to your direct supervisor. Supervisors should report any positive symptoms to the Medical Unit for next steps.
- Observe "Module as One" practices.
- Send crew representatives to pick up meals.
- Wash hands frequently and disinfect high-traffic areas on a regular basis.
- Limit close contact between firefighters and the public to prevent exposure and spread.
- Use the Zoom link provided to join briefings remotely.

#### **EMERGENCY PLAN**

#### INCIDENT WITHIN AN INCIDENT

#### ON SCENE SUPERVISOR

In the event of an accident or medical incident of any size, your primary responsibility is to ENSURE that the victim(s) receive prompt and effective Triage, Treatment and Transportation.

- Conduct size-up of the incident (nature of accident, number type of resources involved, latitude and longitude location): notify incident communications center and supervisor, request assistance as needed.
- Order and coordinate medical and support response to the accident.
- Evaluate special needs (law enforcement, haz mat, etc.).
- Clear the command frequency if medical emergency; coordinate with incident communications and air attack for air medical transportation needs
- Preserve and photograph the scene for accident investigation.
- Remain aware of surroundings and the status of the main incident (delegate personnel to monitor the main fire) to ensure safety of medical treatment personnel.
- Until relieved, supervise and manage all personnel involved at the incident scene.
- ENSURE THE MEDICAL INCIDENT REPORT IN THE INCIDENT ACTION PLAN IS BEING USED AND FOLLOWED.

## **MEDICAL PLAN (ICS 206 WF)**

Controlled Unclassified Information//Basic

#### **Medical Incident Report**

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

١.	<b>CONTACT COMMUNICATIONS</b>	/ DISPATCH (	Verif	correct free	uency	prior t	o starting	repo	rt)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical. IC is TFLD Jones. FMT Smith is providing medical care."

Meadow Medical, IC is TFLD Joi	nes. EMT Smith	is providing medical care."									
Severity of Emergency / Tra Priority	Severity of Emergency / Transport Priority  RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE  Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.  YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary.  Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.  GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport  Ex: Sprains, strains, minor heat-related illness.										
Nature of Injury or Illne	ss										
& Mechanism of Injury					Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)						
Transport Request					Air Ambulance / Short Haul/Hoist Ground Ambulance / Other						
Patient Location					Descriptive Location & Lat. / Long. (WGS84)						
Incident Name					Geographic Name + "Medical" (Ex: Trout Meadow Medical)						
On-Scene Incident Comma	ander				Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)						
Patient Care					Name of Care Provider (Ex: EMT Smith)						
3. INITIAL PATIENT ASSES	SMENT: Com	nlete this section for each natier	nt as annlicable (start w	ith the most severe natient)							
Patient Assessment: See IRI Treatment:	PG page 106										
4. TRANSPORT PLAN:											
Evacuation Location ( <i>if differ</i>	ent): (Descript	tive Location (drop point, ii	ntersection, etc.) or	Lat. / Long.) Patient'	s ETA to Evacuation Location:						
Helispot / Extraction Site Size	e and Hazards	S:									
5. ADDITIONAL RESOURCE	S / FOUIPME	NT NEEDS:									
Example: Paramedic/EMT, Crew	rs, Immobilizatio	n Devices, AED, Oxygen, Trad									
6. COMMUNICATIONS: Ide	ntify State Ai ame/Number	•			le Tone/NAC *						
Function Channel N COMMAND	ame/inumber	Receive (RX)	Tone/NAC *	Transmit (TX)	TONE/NAC "						
AIR-TO-GRND											
TACTICAL											
7. CONTINGENCY: Consider	ations: If nrim	ary options fail what action	s can be implemente	d in conjunction with p	imary evacuation method? Be thinking						
ahead.	,			,.	<u></u>						
8. ADDITIONAL INFORMAT	ION: Updates/0	Changes, etc.									
REMEMBER: Confirm ET	A's of resour	ces ordered. Act accord	ding to your level	of training. Be Alert.	Keep Calm. Think Clearly. Act Decisively.
