FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 12	TYPE OF FIRE: Wildland
FIRE NAME: Chuweah Creek	OPERATIONAL PERIOD: July 25-26, 2021 0600-0600
DATE ISSUED: July 24, 2021	TIME ISSUED: 1800
UNIT: WA-COA	Don Strand FBAN

INPUTS

WEATHER SUMMARY: Sunny. Max Temps near 97 with min RH near 10%. Winds southwest 8-10 mph gusts to 20 mph.

OUTPUTS

FIRE BEHAVIOR

GENERAL:

- Fuels: Dead fuels moistures continue to be very dry. Live fuels are drying and becoming more available to burn.
- Fire behavior potential remains very high. Thermal belt developing overnight so anything burning will continue burning in the thermal belt. ERC's will continue to be near the 97th percentile. Fuels are mixed grass, brush, conifer with grass and brush understory with areas of light logging slash.
- Probability of Ignition will approach 90% today unshaded. Maximum spotting distance approaching 0.2 mile. Expect
 continued cleanup of unburned islands with backing, flanking fire spread with occasional torching where ladder
 fuels are available

Specific:

DIV D: Expect fire to back and flank with isolated torching in available fuels inside control lines. Potential exists for spots outside fire lines. Watch for hold over spot fires.

Incident 90 Fire: Fire is continuing to smolder with potential for flare ups. Expect squirrelly winds at times to contribute possible flare ups and spotting.

DIV G: Burnout and holding. Potential for isolated torching in areas of burnout and interior dirty burns. On steeper slopes, watch for roll outs carrying burning material down slope below your location. Pay attention to smoke drift when burning out.

DIV K/W: Expect interior areas unburned areas west of Keller Butte Road to continue to clean up. Smoldering and creeping fire behavior. Continue to watch for spot fires. On steeper slopes, watch for roll outs.

INITIAL ATTACK: In the event resources are assisting with local IA, update your SA to your new work area. Remember, the light flashy fuels can quickly change directions of spread and rapidly accelerate. Rates of spread in grass and brush can be much faster than firefighters can move.

AIR OPERATIONS: Watch for turbulence in the complex terrain.

SAFETY

Increasing temps, dry fuels, low humidity and squirrelly winds will contribute to increased fire behavior potential over the next 24-48 hrs.

Areas of dirty burns with heat-treated brush have potential for reburn.

Dozer and road berms have potential to hold heat.

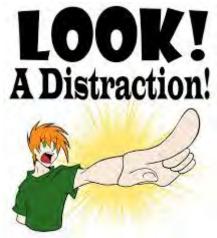

Safety Message

July 25-26, 2021

INCIDENT: Chuweah Creek OPERATIONAL PERIOD: 0600-0600

TOPICS:

COMMON BARRIERS TO EFFECTIVE COMMUNICATION INCLUDE: (part 2 of 4)

Lack of focus. You can't communicate effectively when you're multitasking. If you're checking your phone, planning what you're going to say next, or daydreaming you're almost certain to miss nonverbal cues in the conversation. To communicate effectively, you need to avoid distractions and stay focused.

The Big C: Complacency

As we progress toward moving on to the next assignment or getting back home; it is easy to have our focus <u>distracted</u> and become <u>complacent</u> to the risks we have faced daily for the last week or so. **THE RISKS ARE STILL THERE!**

KEEP UP ON PROPER HYDRATION BEFORE, DURING, AND AFTER SHIFT

SAFETY OFFICER: Jack Cates, Keith Wakefield, Taija Corso (T)

Chuweah Creek Fire, July 25, 2021

<u>Tolerance</u>: Please exercise tolerance for each other while you continue working on this incident. It is easy to get burnt out and on edge with each other given the terrain, hard work, and extreme weather conditions.

Working together as a team, displaying a positive attitude, and watching out for each other exemplifies leadership and professionalism. Be nice!

Be mindful of the language that you use as offensive or derogatory remarks are inappropriate and are not acceptable in a workplace.

Thank you for the good work, be safe and have a nice day.

REMINDERS & Thank You!

- ❖ Given latest agency/policy direction, please wear a mask, practice social distancing, and wash hands frequently. Thank you!
- ❖ Quiet hours begin at 2200 hours until 0600 hours. Please step away from the sleeping area if you need to talk on your phone. Use headphones if listening to music or watching late night movies.
- ❖ Please be respectful and place all trash and micro trash in the proper containers. Please make sure any trash stored in the back of your vehicle does not blow out while driving to and from the fire.
- Thank you everyone for your patience throughout this fire assignment.
