SAFETY MESSAGE

Fire fighter safety comes first on every fire, every time

MAJOR HAZARDS AND RISKS

- | | |
|--|---|
| <ul style="list-style-type: none"> • Dehydration—Drink lots of water • Long range spotting Ensure LCES in place • Heavy fuel loads • Potential increased fire behavior • Snags!!! Rolling Rocks!!! • Chance of Thunderstorms/Lightning | <ul style="list-style-type: none"> • Driving-- Lights on, seatbelts, drive defensively, use chock blocks. Watch for wildlife on roads • Rocky, rough terrain--falls/slips • Fatigue • Recreational Traffic • |

SAFETY THOUGHT

Been there, done that? Don't take safety for granted.
 Keep alert to hazards—no matter how often you've done the job.
 It's the one you don't see that eventually gets you.

**** Crews are tired. Leg muscles and feet are sore. Mop Up operations may lead to complacent attitudes. Stay alert and remember these hazards:**

- Steep slopes and rolling material
- Stump holes and blowing ash
- Snags
- Keep your head up and maintain your working distance
- Don't get in a hurry

“WATCH OUT” FOR COMPLACENCY

“LISTEN FOR THE ALARM”

- Fire activity is slowing considerably. Ward off boredom and complacency
- Take care of personal health needs.
- Clearly understand assignment and be accountable for meeting determined objectives.
- Review the 10 standard fire orders and 18 “watch out” situations.
- Communicate identified hazards to others.
- Enjoy your work but avoid horseplay.
- Display an appropriate sense of humor.
- It's a good time to do some “house-keeping with vehicles, secure all loose items in cab or bed of vehicles. Provide for safe transport of hand tools. Clean windshields daily. Use headlights and observe speed limits

Quote of the day

“Always drink upstream from the herd.” [Will Rogers](#)

CORONAVIRUS SAFETY

LIMIT THE SPREAD OF GERMS AND PREVENT INFECTION

Recommends the following steps to help prevent the spread of germs during this situation:

- Practice social distancing by keeping about six feet from others if you must go out in public.
- Wash your hands often with soap and water for at least 20 seconds, especially after being in a public place, or after blowing your nose, coughing or sneezing. If soap and water are not readily available, use a hand sanitizer with at least 60% alcohol.
- Avoid touching your eyes, nose or mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Cover your nose and mouth with a tissue when coughing or sneezing; throw used tissues in the trash. If a tissue isn't available, cough or sneeze into your elbow or sleeve, not your hands.
- Clean and disinfect frequently touched surfaces daily.

If surfaces are dirty, clean them - use detergent or soap and water prior to disinfection. Full information on how to disinfect found [here](#).

- You should wear a facemask when you are around other people (e.g., sharing a room or vehicle).

According to the CDC, COVID-19 symptoms include fever, shortness of breath and a cough. Symptoms may appear 2-14 days after exposure. Contact Medical Unit Leader for medical advice if you think you have been exposed to COVID -19 and develop symptoms.

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2^o – 3^o burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2^o – 3^o burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>
