INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: LICK CREEK/GREEN RIDGE	2. Operational Period: <table style="width: 100%; border: none;"> <tr> <td style="border: none;">Date From:</td> <td style="border: none;">7/29/2021</td> <td style="border: none;">Date To:</td> <td style="border: none;">7/29/2021</td> </tr> <tr> <td style="border: none;">Time From:</td> <td style="border: none;">0600</td> <td style="border: none;">Time To:</td> <td style="border: none;">2000</td> </tr> </table>	Date From:	7/29/2021	Date To:	7/29/2021	Time From:	0600	Time To:	2000												
Date From:	7/29/2021	Date To:	7/29/2021																		
Time From:	0600	Time To:	2000																		
3. Objective(s): Strategic Objectives: <ul style="list-style-type: none"> - Provide for the safety of fire fighters and the public through utilization of strategic and deliberate risk assessment processes. Ensure incident within an incident protocols are established - Develop and implement operational objectives based on identified values at risk and highest probability of success limiting fire spread - Follow established guidelines and mitigations regarding COVID and other infectious diseases - Enhance relationships through timely communication and active involvement with the public, stakeholders, and cooperators - Coordinate with the READ's to ensure natural and historical values are protected to the degree necessary - Maintain fiscal responsibility keeping cost commensurate with the values at risk - Provide initial attack response to new fire starts within the TFR boundary. Assist with initial attack efforts outside the boundary as requested 																					
Lick Creek Operational Objective: <ul style="list-style-type: none"> - Keep fire within its currently identified perimeter 																					
Green Ridge Operational Objective: <ul style="list-style-type: none"> - Keep fire north of the 2015 Butte Creek Burn scar along the West Butte Creek Trail to the East Butte Creek Trail to Yearling Ridge Trail to Crooked Creek Trail to Monument Ridge and along the first creek trail to NF 40 at Misery. Protect Little Turkey Tail Recreation residences and the Godman Guard Station Trail - Keep fire east of FS road 64 to protect private property, structures, and recreation sites - Keep fire south of the Panjab Trailhead to Panjab Campground along the Salter Trail to the 4022 Road towards Clear Water - Keep fire west of NF 40 Road. Minimize suppression impacts in the Wenaha-Tucannon Wilderness using natural containment features as practical 																					
COVID Mitigations: <ul style="list-style-type: none"> - All persons must wear a mask indoors at all times regardless of vaccination status, as well as outdoors when physical distancing cannot be maintained - Maintain a module as one, wash your hands and sanitize surfaces

Lick Creek / Green Ridge Weather Forecast

FORECAST NO: 18
FORECAST FOR: Thursday Day Shift
SHIFT DATE: 07/29/2021
DATE AND TIME ISSUED: 07/28/2021 at 2000

NAME OF FIRE: Lick Creek/Green Ridge
UNIT: OR-UMF
SIGNED: *Mary Wister* - Incident Meteorologist
541-377-9905 (cell) / mary.wister@noaa.gov

**...Hot with Low Humidity through Friday and a Slight Chance of Afternoon Thunderstorms...
...Gusty and Erratic Winds always possible with Thunderstorms...**

WEATHER DISCUSSION: A warming trend continues through Friday, and it will be considerably warmer today with low humidity. The air mass remains unstable with cumulus buildups in the afternoon. There is a slight chance of showers and thunderstorms during the last few hours of the operational period and this tonight. RH recoveries tonight will be poor, and several fire weather concerns are anticipated on Friday (hot, dry, unstable, and a northeast wind).

TODAY:

WEATHER: Partly cloudy. A slight chance of afternoon showers or thunderstorms, mainly after 1500 PDT.
MAXIMUM TEMPERATURE: 79-82° above 5000 feet. 88-93° valley bottoms along Turkey-Panjab creeks.
MINIMUM RELATIVE HUMIDITY: 25-30% above 5000 feet. 18-23% valley bottoms.
20-FOOT RIDGETOP WINDS: Southwest 2 to 5 mph in the morning, becoming Northwest 4 to 9 mph with gusts to 12 mph.
GREEN RIDGE CREEKS: Upslope/up-creek: 3 to 8 mph.
CHANCE OF WETTING RAIN ($\geq 0.10''$): 10%
LIGHTNING ACTIVITY LEVEL: 1...possibly 2.
HAINES INDEX: 4 (Low)
INVERSIONS/STABILITY: Unstable after mid-morning inversion breaks.

TONIGHT:

WEATHER: Partly cloudy. A slight chance of evening showers or thunderstorms.
MINIMUM TEMPERATURE: 65-69° above 5000 feet. 60-65° along Turkey and Panjab Creeks
MAXIMUM RELATIVE HUMIDITY: 22-28% ridgetops. 60-70% creek bottoms.
20-FOOT RIDGETOP WINDS: Northwest around 5 mph becoming East-Northeast around 5 mph in the early morning. Drainage winds in the lower creeks 0 to 3 mph.
CHANCE OF WETTING RAIN ($\geq 0.10''$): 20%
LIGHTNING ACTIVITY LEVEL: 2.
HAINES INDEX: 4 (Low)
INVERSIONS/STABILITY: Shallow low level inversion developing overnight.

FRIDAY:

WEATHER: Partly cloudy. A slight chance of a late afternoon shower or thunderstorm.
MAXIMUM TEMPERATURE: 84-88° above 5000 feet. 92-97° valley bottoms along Turkey-Panjab creeks.
MINIMUM RELATIVE HUMIDITY: 20-25% above 5000 feet. 15-20% valley bottoms.
20-FOOT RIDGETOP WINDS: East-Northeast 4 to 8 mph becoming Northeast 5 to 10 mph gusting to 12-15 mph.
GREEN RIDGE CREEKS: Northeast winds 5 to 10 mph in the afternoon.
CHANCE OF WETTING RAIN ($\geq 0.10''$): 10%
LIGHTNING ACTIVITY LEVEL: 1...possibly 2 late afternoon.
HAINES INDEX: 5 (Moderate)
INVERSIONS/STABILITY: Unstable after mid-morning inversion breaks.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 3	TYPE OF FIRE: Vegetation
FIRE NAME: Lick Creek-Green Ridge Fires	OPERATIONAL PERIOD: Jul 29, 2021
DATE ISSUED: July 28, 2021	TIME ISSUED: 1930
UNIT: WA-Umatilla National Forest	SIGNED: Dan O'Connor Fire Behavior Analyst (FBAN) 

WEATHER SUMMARY: See detailed Fire Weather Forecast in IAP

FUELS:

Fire areas include a range of conifer systems, from higher elevation Sub Alpine Fir and Engelmann Spruce, to Doug-Fir, Grand Fir and Lodgepole Pine under 5000', and Ponderosa Pine in the lower elevations of the Forest. Outside of the 2006 Columbia Complex and the 2015 Grizzly Complex, all forested areas have extensive dead and down and ladder fuels that will work together to elevate fire into the crowns and generate short range spotting.

The area is currently classified as 'Exceptional' drought by the US Drought Monitor, with Energy Release Components currently setting daily record highs, and approaching all time high levels. You may see some resistance to spread in brush and re-prod areas, but these veg structures are losing moisture daily. Heavy dead and down fuels will likely burn completely, holding heat and actively consuming through all hours of the day.

EXPECTED FIRE BEHAVIOR: *Based on the Warmest, Driest, Windiest Conditions Forecasted*

<u>Maximum Spotting Distance</u> 0.10 mile <u>Probability of Ignition</u> 80-90%	<u>Fuel Type/Model</u>	<u>Maximum Rate of Spread (chains/hour)</u>	<u>Maximum Flame Length (feet)</u>
<i>Expect moderate to active fire behavior, especially in slope/wind aligned runs</i>	Timber litter and understory TU5/TL4	Head 15-20 ch/hr Flank 4-6 ch/hr	Head 8-10ft Flank 4-6ft
	Grass/Shrub GS1	Head 22-28 ch/hr Flank 4-5 ch/hr	Head 4- 5 ft Flank 1-3 ft

GENERAL/Potential:

DAY: Unstable air in the afternoon once the inversion clears could bring to life areas still holding intense heat. Expect isolated areas of active fire behavior with low spread in the timber litter, potential for isolated torching in the interior unburned islands and adjacent to control lines. Spotting up to .10 mile is possible primarily in the mature spruce/fir timber type. Expect surface fire with creeping, smoldering and backing/flanking. Look for Green Ridge to become more active mid-afternoon. With current ERC values and drought conditions even light wind speeds will contribute to very active fire behavior.

SPECIFIC:

Green Ridge: Potential rollout, flanking, and active backing down into the Tucannon River drainage in the Division M 'spot'. Some slope driven runs to the east and west of the most active spots are again possible with any afternoon clearing or support from winds. Fire continues its slow but steady march south towards West Butte Ridge with fuel driven ground fire and occasional isolated single tree and group torching. Active burning will also occur in the large unnamed drainage south of H-37, with more rollout, backing, and potential for slope driven runs with favorable topographic support. Look for spotting to occur downwind of these runs in all areas.

Lick Creek: Continued interior burning will occur within the fire area, especially along the southern and western flanks. Be especially heads up of any group torching with winds pushing embers across containment lines, as there are multiple large drainages lacking recent fire history to the south and west that would be very receptive to spotting.

AIR OPERATIONS:

Sunrise: 0528, Civil Twilight ends: 2101

SAFETY:

Yesterday we saw what the fire can do with upper atmospheric support for growth, even for an hour or two late morning or near the end of shift. Know what your fire is doing at all times.

HEALTH AND SAFETY MESSAGE

Respect flows two ways and can mean as much to the giver as to the one receiving

INCIDENT: Lick Creek / Green Ridge Fire | DATE: 7/29/2021 | Oper. Period: Day

“SEE IT.....SAY IT!”

If you see a hazard or a dangerous situation developing,
tell your supervisor and those around you.

A Dose of Respect

Respect for ourselves guides our morals, respect for others guides our manners.

We are ALL accountable for SAFE behaviors

LOOKOUTS, COMMUNICATIONS, ESCAPE ROUTES, SAFETY ZONE

10 Standard Fire Orders

18 Situations that Shout Watch Out

We Need all this to perform our job safely, its up to everyone!!

Hygiene

- **Wash your hands.** Washing your hands before preparing or eating food, after going to the bathroom, after coughing or sneezing, and after handling garbage, goes a long way toward preventing the spread of bacteria and viruses. Keep a hygiene product, like an alcohol-based sanitizing gel, handy for when soap and water isn't available.
- **PPE “Nomex”.** When using your PPE insure you are wearing it in the right places. You Nomex shirt that you wear on the fire line all day, shouldn't be worn when in fire camp, or in the chow lines or at morning briefing. Observe your Nomex is it due for changing out or needs cleaning? Is it going to provide you the protection you need?
- Shower often or when you have the opportunity.

If you can smell yourself,

others have been able to for a while.

Fireline

Weather Environment

- Weather continues to be hot and dry.
- Decreasing humidity's means increased fire behaviors.

Fire Behavior:

- Base actions on expected weather and fire behavior.
- In areas where firing has been completed watch for changes in overhead hazards as smoldering may have weakened the base of snags and other objects.
- Extreme Fire Behavior is possible at any time during the day, be heads up.
- Alignment of topography and wind during the burning period should always be considered a trigger point to re-evaluate strategy and tactics

Fire Management Board

FIRE MANAGEMENT BOARD

FMB Memorandum No. 21-006

20 July 2021

TO: Fire Management Board Members
FROM: Erin Horsburgh, FMB Chair *Erin Horsburgh*
SUBJECT: MPHAT Wildland Fire COVID-19 Prevention and Mitigation 2021

The purpose of this memorandum is to request wide distribution of the attached *Wildland Fire COVID-19 Prevention and Mitigation 2021* guidance issued from the Medical and Public Advisory Team (MPHAT) July 17, 2021.

The following has been excerpted as recommendations for fire leadership.

- Fire managers, agency administrators, line officers and incident managers need to re-enforce the importance of prevention and mitigation of COVID-19 in the workplace.
 - MPHAT would like to remind all leadership and fire personnel that following MPHAT's guidance has been proven effective and is critical to prevent the further spread of COVID-19.
 - Leader's intent and expectations must be clear that COVID-19 prevention and mitigation is still a priority for the 2021 fire season.
 - With vaccination status not being systematically tracked, face covering/mask and physical distancing requirements on wildfire incidents needs strengthened – everyone follow COVID-19 prevention and mitigation guidance for un-vaccinated individuals regarding physical distancing and mask/face covering use in fire camp unless alone in an enclosed space or actively engaged in firefighting on the fireline.
- Fire managers, agency administrators, line officers and incident managers need to prioritize and incorporate COVID-19 strategies that were effective and considered standard operating procedures in 2020 such as:
 - daily individual screening tool, distributive operations, spike camps, boxed meals, community cooler mitigations, remote briefings, decentralized staging areas, virtual and remote participation, and module as one (updated) to the maximum extent possible.

The MPHAT memorandum will be loaded shortly at <https://www.nwcg.gov/coronavirus>.

NWCG Executive Board Members
COVID-19 Coordinator

Who is listening? And who might hear you?

You will be surprised to find out.

Some comments are best left unsaid.

We often do not know what the repercussions of our comments, jokes or stories might be when heard by others. Often they are taken out of context or just plain inappropriate. This will cause us all problems. Please remind your folks of this.

Thanks Bill Otani HRSP
