Lick Creek / Green Ridge Weather Forecast

FORECAST NO: 31
FORECAST FOR: Wednesday Day and Night Shift
SHIFT DATE: 8/11/2021
DATE AND TIME ISSUED: 8/10/2021 at 2000 PDT

NAME OF FIRE: Lick Creek/Green Ridge
UNIT: OR-UMF
SIGNED: *Mary Wister* - Incident Meteorologist
541-377-9905 (cell) / mary.wister@noaa.gov

...Much Warmer with Low Humidity and Poor RH Recovery Tonight...

WEATHER DISCUSSION: A persistent forecast is in store through Friday, but the warming trend will continue. Today will be considerably warmer than Tuesday, and it will turn hot at elevations below 3500 feet. The atmosphere will remain stable with a light north-northwest, therefore there will be little mixing of smoke and reduced visibilities—mainly in Branch II.

TODAY:

WEATHER: Mostly sunny. Smoky, mainly Branch II.
MAXIMUM TEMPERATURE: 77-83° above 5000 feet. 90-95° valley bottoms.
MINIMUM RELATIVE HUMIDITY: 20-25% above 5000 feet. 15-20% valley bottoms.
20-FOOT RIDGETOP WINDS: North-Northwest 5-10 mph.
GREEN RIDGE CREEKS: Upslope/Upcanyon 2-5 mph.
CHANCE OF WETTING RAIN ($\geq 0.10''$): 0%.
HAINES INDEX: 3 (Very Low)
INVERSION/STABILITY: Low level inversion lifts around 0900. Strong mid-level inversion.

TONIGHT:

WEATHER: Mostly clear. Smoky.
MINIMUM TEMPERATURE: 63-68° above 5000 feet. 50-55° valley bottoms.
MAXIMUM RELATIVE HUMIDITY: 38-43% above 5000 feet. 70-75% valley bottoms.
20-FOOT RIDGETOP WINDS: North-Northwest wind 5-10 mph with strongest winds in the evening.
GREEN RIDGE CREEKS: Downslope/Down canyon 2-5 mph.
CHANCE OF WETTING RAIN ($\geq 0.10''$): 0%
LIGHTNING ACTIVITY LEVEL: 1.
HAINES INDEX: 3 (Very Low)
INVERSION/STABILITY: Stable. Low and mid-level inversion.

THURSDAY:

WEATHER: Mostly sunny. Smoky.
MAXIMUM TEMPERATURE: 80-85° above 5000 feet. 95-100° valley bottoms.
MINIMUM RELATIVE HUMIDITY: 18-23% above 5000 feet. 12-17% valley bottoms.
20-FOOT RIDGETOP WINDS: Light and variable in the morning...becoming North-Northwest 5-10 mph with gusts 12-15 mph in the afternoon.
GREEN RIDGE CREEKS: Upslope/Upcanyon 2-5 mph.
CHANCE OF WETTING RAIN ($\geq 0.10''$): 0%.
HAINES INDEX: 3 (Very Low)
INVERSION/STABILITY: Low level inversion lifts around 0900. Mid-level inversion.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 16	TYPE OF FIRE: Wildfire
FIRE NAME: Lick Creek & Green Ridge Fires	OPERATIONAL PERIOD: 08-11-2021 24 Hour
DATE ISSUED: 08-10-2021	TIME ISSUED: 2000
UNIT: Umatilla NF OR-UMF-000658 & 000659	SIGNED: //s// Larry Long FBAN

INPUTS

****See the attached Incident Weather Forecast****

OUTPUTS FIRE BEHAVIOR

GENERAL: Fire behavior should be moderate again today with the lower wind speeds. Seasonal humidity combined with the lower wind speeds will result in slower rates of speed, reduced torching, and a lower chance of crown fire. However, the humidity has started a steady downward trend and we're seeing the fuel moistures drop into a critical stage and this will result in an increase in fire activity throughout the remainder of the week and into the weekend.

Probability of ignition is 90% with spotting distances of 1000 feet possible. Haines Index 3

1-hour fuel moistures: 3%, 10 hours at 5%, 100 hours at 7%, 1000-hour fuels are ~8 % and live fuel moistures are at around 75-95%. ERCs are above the 90th percentile.

Fuel model	Max. Flame Length	Day Shift ROS	Night Shift ROS	Spotting
Timber little and understory TU5/TL4	8-9 ft.	9-13 ch/hr	7-10 ch/hr	.2 miles
Short Grass/Shrub – GR4	4-5 ft.	15-25 ch/hr	5-8 ch/hr	.2 miles

SPECIFIC:

Green Ridge: The fire will continue to progress up and out of the drainages, but should lessen when the winds switch to a NNW direction. Rates of spread will be slow and flame lengths reduced. The fire will be active in the heavier concentrations of fuels as the winds surface. Conditions should be favorable for burnout operations in Division M. The active fire in division P adjacent to the Lick Creek fire will continue to move to the southeast along the Tucannon drainage.

Lick Creek: The NNW winds today should again be favorable by pushing the heat and smoke into the interior. Expect interior fuels to continue to consume and put off smoke.

Night Division: Due to the late burning periods, anticipate daytime burning conditions to continue well into the late evening and continuing until the downslope winds set up and/or the humidity recovers.

AIR OPERATIONS:

Heavy smoke may hamper air operations.

SAFETY

Local Thresholds – **WATCHOUT:** Combinations of any of these factors can greatly increase fire behavior:

Elevations	20' Winds +15 mph	RH <20%	Temp +80°	1000hr Fuel <7%
3000 –5500'	NNW 5-10 mph	15-20%	90-95°	~8%

6. Work Assignments:
 Patrol and improve line where needed.
 Transfer operational needs to Day Operations.
 Take action as needed to ensure that existing structures and infrastructures do not sustain further damage.

7. Special Instructions:
 Frontline Medical (E-61; LWD 8/13) located @ DP-17
 CA-OR Life Flight (E-206; LWD 8/12) located @ DP-270
Lead READ Will Marquardt: 530-402-6202
 DIVS to identify equipment to be sent in an event of an IA within TFR. Operations will identify closest resources to respond to new incident.
 Please make sure 3/32" fish screens are used at all draft sites in Punjab Creek, Touchet, and Tucannon Rivers.
 Resources to return to Dayton ICP at end of shift.

Human Resource Message

Lick Creek and Green Ridge Fires August 11, 2021

HARASSMENT FREE WORK ENVIRONMENT:

The Umatilla National Forest, along with our Rocky Mountain Area Team Black, stand together against harassment. We are committed to providing a harassment free work environment. Harassment is unacceptable, harmful behavior and will not be tolerated. We want to create an inclusive work culture where everyone feels safe doing their job.

We all like to have fun and joke around however, if our conduct has the purpose or effect of interfering with an individual's work performance or creating an unfriendly or offensive work environment, then we are looking at harassment and that is not fun. Therefore, our commitment supports the principle of respectful relationships, and workforce diversity efforts, and extends to all employees, volunteers, and others working on this incident. We are also required by policy and law to follow up on all complaints of harassment.

Should you encounter a harassing situation that you are uncomfortable with, talk with your supervisor, and or Human Resources to get the situation resolved. Do What's Right to stop Harassment.

Quote for the Day:

“Becoming fearless isn't the point. That's impossible. It's learning how to control your fear, and how to be free from it, that's the point.” - Francis Quarles

❖ *Please have a safe and productive day today.*

TEAM BLACK FINANCE PROCEDURES

**** Lick Creek, Dry Gulch and Green Ridge Fires ****

**We are using a 100% electronic time submission process. Please submit time daily.
PLEASE REPORT TIME BASED ON THE FIRE YOU WORKED ON.**

Resources just checking in: After checking in with Plans, please complete the electronic Finance Check-In Form and submit appropriate forms/documents electronically.

To submit time, please use the QR code below that applies to your resource type,

OVERHEAD

- Resource Orders beginning with an O.
- Modules.
- Vehicles belonging to individual overhead that require an invoice.

EQUIPMENT

- Resource Order Numbers beginning with an E.

CREW

- Resource Order Numbers beginning with a C.
- Helitack Crews beginning with an A.

OR email time to: 2021.greenridge.finance@firenet.gov Please include resource type (**OVERHEAD, EQUIPMENT OR CREW**) in subject line. Please complete electronic documents OR send pictures.

If you are sending other information or questions to the finance email, please send separate email with appropriate subject line, ie: "Question on time" or "Explanation of travel."

To electronically demob from finance: Submit final CTRs and Shift Tickets to the above finance email. Include your email address and phone number. Make sure CTRs/Shift Tickets are complete and legible. A final timesheet (OF288) and/or Invoice (OF286) will be sent to you for review. Please respond with a confirmation of accuracy. If there are errors or edits needed, inform finance asap by replying to the email.

Travel safely home without having to deal with finance in person!

If you have any questions, please contact us at:

Finance 971-245-0248 or 971-727-7461; Comp/Claims 541-969-2396

Demob Tips

*****Note: If you have cell phone coverage and have nothing to return to Communications or Supply, you will not physically need to come to demob.*****

After being notified by your supervisor of your tentative release date:

1. Return all supplies, radios, etc. that were checked out. If you have no items to return, you can complete Finance and Demob virtually. All line vehicles must complete a WEED WASH and have a post-inspection of their vehicles.
2. Submit time for all personnel and equipment to Finance per directions in IAP.
3. Once you receive confirmation from FINANCE with a copy of your OF-288 and other financial documentation, you are free to complete Step 4 and travel home.
4. Complete Demob Checkout Sheet using QR code on the cover of the IAP. If unable to use, see demob. Once demob receives confirmation from Finance and your demob checkout sheet has been electronically submitted, you will be released in the system.

Demob Unit email: 2021.greenridge.demob@firenet.gov

Training Specialist Message/Training Process

You do not have to wait until the last work day to complete a position task book (PTB) evaluation. You can complete the evaluation process at any time on the incident. Trainees are not required to check in with the Incident Training Specialist (TNSP). However, Geographic Area Priority Trainee Program participants are strongly encouraged to check in with the TNSP. The TNSP is available to answer questions and/or help guide both the Trainee and Evaluator through the process.

1. Incident trainees should check in early with the TNSP either in person or remotely using the QR code on the IAP cover. Within that QR code exists a training portal.
2. The trainee needs to take ownership of their training assignment. Working closely with their evaluator, identify tasks and learning opportunities that can be documented in their PTB.
3. Ensure all the information is complete and correct on the Evaluation Record and, if being recommended for certification, the PTB Verification/Certification form. Incorrect or incomplete information is a very common issue in PTBs and, all too often, delays certification of a trainee as fully qualified. Please review all information to make sure it is complete, accurate, and legible.
4. The evaluator should complete an Incident Personnel Performance Rating (ICS 225 WF) for the trainee, and submit a copy to the TNSP either in person or a picture copy.
5. Once all the documentation is completed, the trainee will need to close out with the TNSP. The trainee can: 1) stop by and close out in person with TNSP; 2) call the TNSP to go through the Exit Interview Form and discuss how the assignment went; or 3) complete the Exit Interview Form through the QR code link.

Incident Training Specialist email: 2021.greenridge.plans@firenet.gov

Safety Message

INCIDENT NAME: Lick Creek/Green Ridge	OPERATIONAL PERIOD: 08/11/21 0600-0600
---------------------------------------	--

Stop, Think, Talk, Then Act...

It's easy to take short cuts with the sense of urgency that we feel while on fires. We do dangerous things whether you're on fires or at home in your daily routine.

When it comes to safety and decision making, start a dialog with your employees and let them know that their feedback is important. Ask them what their concerns are and if they have any suggestions. "What are some other options?"

What does Stop, Think, Talk and Act mean to you?

What are barriers to speaking up?

How would you begin the conversation about hazards and risk mitigations? Hint, IRPG.

How does a "higher up" arriving on scene affect the situation?

What does it take for you to say no to an unsafe situation? (IRPG Specific Hazards Page 19)

ALWAYS REMEMBER TO STOP, THINK, TALK AND THEN ACT!

SAFETY OFFICERS:	Pat Medina SOF2, Eric White SOF2(t), Ryan Grant SOFR, Sean Lowry SOFR, Don Foco SOFR, Eric Adams SOFR, Robert Pelton SOF2.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
