Lick Creek – Green Ridge Fires

OR-UMF-000658 / OR-UMF-000659 P6N5AV (0614)

Send TIME to: 2021.greenridge.finance@firenet.gov

Sunday, August 15, 2021 - Monday, August 16, 2021

Operational Period 0600-0600

Rocky Mountain IMT2 Black

Troy Hagan, ICT2 — Bill Waln, Deputy ICT2

Public Fire Information

2021.greenridge@firenet.gov

Communications 24-Hour Emergency Number:

971-727-7965

IAP/Map/Demob/Check-in/Etc

https://tinyurl.com/jtb3wzk6

1. Incident Name: Lick Creek / Green Ridge

2. Operational Period:

Date From: 08.14.2021 Date To: 08.15.2021 Time From: 0600

Time To: 0600

3. Objective(s):

- Provide for the safety of firefighters and the public through the utilization of strategic and deliberate risk assessment processes. Ensure incident within an incident (IWI) protocols are established.
- Develop and implement strategy and tactics with the highest probability of success to protect identified values at risk.
- Maintain and enhance relationships, through timely communication, actively engaging the Agency Administrators, the public, and stakeholders.
- Coordinate with the READs to ensure natural and historical values are identified and protected.
- Assist with initial attack as requested, when it will not impede meeting of incident objectives.
- Manage the incident following established COVID-19 mitigation guidelines limiting spread of infectious diseases.

4. Safety

Safety is something that happens between your ears, not something you hold in your hand. A few considerations you should take in consideration would be.

Situation awareness: background, process, and benefits and practice.

Attitude: how it affects those around you.

Complacency: definition/significance Making wise choices: most tasks we engage in require us to make choices or decisions or choosing alternative courses of action or failing to recognize that there are alternative ways to act (distraction).

There is a danger of safety messages becoming too repetitive.

Exposure to risk over the long term produces cumulative risk. Cumulative risk is risk that increases over the long term. The more you repeat the behavior, the greater the chance that something bad will happen. Russian roulette.

As soon as you see a mistake and do not fix it, it becomes your mistake.

Check new arrivals to ensure that they know how to program king radios to the scan function. Do not assume everyone knows how to do.

5. Prepared by PSC2:		Name: Rocco Snart Signature:

Lick Creek / Green Ridge Weather Forecast

FORECAST NO: 35

FORECAST FOR: Sunday Operational Period

SHIFT DATE: 8/15/2021

DATE AND TIME ISSUED: 8/14/2021 at 1900 PDT

NAME OF FIRE: Lick Creek/Green Ridge

UNIT: OR-UMF

SIGNED: Mary Wister - Incident Meteorologist

mary.wister@noaa.gov

...Breezy Winds from the West-Southwest through Monday...

WEATHER DISCUSSION: Winds are shifting to a west-southwest direction and will increase this afternoon and evening due to a cold frontal passage. West-east drainages such as the Tucannon River drainage may be exposed to wind alignment and the potential for winds to accelerate. Winds will relax some late tonight but increase again on Monday with stronger gusts. Today will be the last hot day with low humidity, and a cooling trend begins Monday.

TODAY:

WEATHER: Partly cloudy.

MAXIMUM TEMPERATURE: 82-87° above 5000 feet. 93-97° valley bottoms.

MINIMUM RELATIVE HUMIDITY: 20-25% above 5000 feet. 15-20% valley bottoms.

20-FOOT RIDGETOP WINDS: West-Southwest 5-10 mph in the morning...increasing to 8-12 mph with gusts

to 20 mph after 1400...

GREEN RIDGE CREEKS: Upslope/Upcanyon 3-8 mph. West winds gusting to 10 mph through the

Tucannon River drainage and other west-east drainages.

CHANCE OF WETTING RAIN (≥ 0.10"): 0%.

HAINES INDEX: 3 (Very Low).

INVERSION/STABILITY: Low level inversion lifts around 1000. Unstable above the inversion.

TONIGHT:

WEATHER: Decreasing clouds. Breezy

MINIMUM TEMPERATURE: 68-72° above 5000 feet. 55-60° valley bottoms.

MAXIMUM RELATIVE HUMIDITY: 30-35% above 5000 feet. 55-60% valley bottoms.

20-FOOT RIDGETOP WINDS: West-Southwest 8-12 mph with evening gusts to 22 mph. Gusts to 18 mph

after midnight.

GREEN RIDGE CREEKS: Downslope/Down canyon 2-5 mph. West winds gusting to 12 mph through the

Tucannon River drainage and other west-east drainages in the evening.

CHANCE OF WETTING RAIN (≥ 0.10"): 0%

LIGHTNING ACTIVITY LEVEL: 1.

HAINES INDEX: 4 (Low)

INVERSION/STABILITY: Marginally unstable above the low level inversion.

MONDAY:

WEATHER: Partly cloudy. Cooler. Breezy.

MAXIMUM TEMPERATURE: 75-80° above 5000 feet. 86-91° valley bottoms.

MINIMUM RELATIVE HUMIDITY: 27-32% above 5000 feet. 20-25% valley bottoms.

20-FOOT RIDGETOP WINDS: West-Southwest 9-13 mph with gusts to 25 mph.

GREEN RIDGE CREEKS: Upslope/Upcanyon 3-8 mph. West winds gusting to 12 mph through the

Tucannon River drainage and other west-east drainages in the evening.

CHANCE OF WETTING RAIN (≥ 0.10"): 0%.

HAINES INDEX: 3 (Very Low).

INVERSION/STABILITY: Low level inversion lifts around 1000. Unstable above the inversion.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 20	TYPE OF FIRE: Wildfire					
FIRE NAME: Lick Creek & Green Ridge Fires	OPERATIONAL PERIOD: 08-15-2021 24 Hour					
DATE ISSUED: 08-14-2021	TIME ISSUED: 1900					
UNIT: Umatilla NF OR-UMF-000658 & 000659	SIGNED: //s// Larry Long FBAN					

INPUTS

See the attached Incident Weather Forecast

OUTPUTS FIRE BEHAVIOR

GENERAL: Wind speeds will increase today resulting in slightly higher rates of spread and higher fire intensity then what we've seen the last few days, especially in the late afternoon. Expect torching and spotting throughout the day and well into the night due to the low RH's and high temperatures.

Probability of ignition is 90% with spotting distances of 2000 feet possible. Haines Index 3

1-hour fuel moistures: 3%, 10 hours at 4%, 100 hours at 7%, 1000-hour fuels are ~8 % and live fuel moistures are at around 75-95%. ERCs are above the 97th percentile.

Fuel model	Max. Flame	D. Slig DOS	Night Shift	G
	Length	Day Shift ROS	ROS	Spotting
Timber little and understory	9-10 ft.	13-24 ch/hr	9-19 ch/hr	.4 miles
TU5/TL4				
Short Grass/Shrub – GR2	4-7 ft.	22-54 ch/hr	7-16 ch/hr	.4 miles
		1		

SPECIFIC:

Green Ridge: The fire will continue to progress up and out of the drainages on the south flank, pushed by an upslope wind of 3-8 MPH and the west-southwest general winds. The fire will be active in the heavier concentrations of fuels as the winds surface causing torching and spotting. The active line in divisions A & P will move along the drainages and over the ridges to the east and southeast. The Lick Creek fire has provided an effective barrier towards the east.

Lick Creek: The WSW winds today should again be favorable by pushing the heat and smoke into the interior. Expect interior fuels to continue to consume and put off smoke.

Night Division: Due to the late burning periods, anticipate daytime burning conditions to continue well into the late evening and continuing until the downslope winds set up and/or the humidity recovers. Expect torching and spotting, especially on the uphill runs.

AIR OPERATIONS:

Heavy smoke may hamper air operations.

SAFETY

Local Thresholds – WATCHOUT: Combinations of any of these factors can greatly increase fire behavior:

Elevations	20' Winds +15 mph	RH <20%	Temp +80°	1000hr Fuel <7%
3000 –5500'	WSW 8-12 mph G20	15-20%	93-97°	~8%

Green Ridge Fire Human Resource Message

Your Rights

To Work in a Harassment-Free Work Environment

- All employees have the right to work in a harassment-free environment where people treat one another with dignity and respect.
- A harassment-free work environment assists in providing a safe and productive work environment.

Please feel free to contact me... I have set up shop and am here to help anyway I can.

Mike Baines, Human Resource Specialist 724-678-6147

TEAM BLACK FINANCE PROCEDURES

Green Ridge, Lick Creek, and Dry Gulch Fires

We are using a 100% electronic time submission process. Please submit time daily. PLEASE REPORT TIME BASED ON THE FIRE YOU WORKED ON.

Resources just checking in: After checking in using the QR Code on the front of an IAP, please continue to the Finance portion and complete the Finance Check-In Form. Don't forget to submit the appropriate forms/documents electronically.

E-mail time to: 2021.greenridge.finance@firenet.gov

Please include resource type (**OVERHEAD**, **EQUIPMENT** OR **CREW**) in <u>subject line</u>. Please send electronic documents OR pictures.

If you are sending other information or questions to the finance email, please send separate email with appropriate subject line, ie: "Question on time" or "Explanation of travel."

Resources DO
NOT need to
physically come
to Finance to
Demob

To electronically demob from finance: Submit final CTRs and Shift Tickets to the above finance email. Include your email address and phone number. Make sure CTRs/Shift Tickets are complete and legible. Once you have turned in your final CTRs/Shift Tickets you are released from Finance. A final timesheet (OF288) and/or Invoice (OF286) will be emailed to you for review. Please respond with a confirmation email of accuracy. If there are errors or edits needed, contact-46 finance asap by replying to the email.

Travel safely home without having to deal with finance in person!

If you are unable to send electronic CTRs/Shift Tickets due to lack of connectivity, or incompatible devices, hard copies will be accepted. Coordinate with your supervisor for delivery to Finance. <u>BESURE TO INCLUDE PHONE NUMBER AND EMAIL ADDRESS</u>. When you are ready to demob, call one of the Finance numbers below.

If you have any questions, please contact us at: Finance 971-245-0248 or 971-727-7461; Comp/Claims 541-969-2396

Demob Tips

***Note: If you have cell phone coverage and have nothing to return to Communications or Supply, you will not physically need to come to demob. ***

AIR TRAVELERS please contact or stop by demob 4 days prior to your demob date to confirm travel plans.

After being notified by your supervisor of your tentative release date:

- 1. Return all supplies, radios, etc. that were checked out. If you have no items to return, you can complete finance and demob virtually. All line vehicles must complete a WEED WASH and have a post-inspection of their vehicles.
- 2. Submit time for all personnel and equipment to Finance per directions in IAP.
- 3. Once you receive confirmation from FINANCE with a copy of your OF-288 and other financial documentation, you are free to complete Step 4 and travel home.
- 4. Complete demob Checkout Sheet using QR code on the cover of the IAP. If unable to use, see demob. Once demob receives confirmation from Finance and your demob checkout sheet has been electronically submitted, you will be released in the system.

Training Specialist Message/Training Process

You do not have to wait until the last work day to complete a position task book (PTB) evaluation. You can complete the evaluation process at any time on the incident. Trainees are not required to check in with the Incident Training Specialist (TNSP). However, Geographic Area Priority Trainee Program participants are strongly encouraged to check in with the TNSP. The TNSP is available to answer questions and/or help guide both the Trainee and Evaluator through the process.

- 1. Incident trainees should check in early with the TNSP either in person or remotely using the QR code on the IAP cover. Within that QR code exists a training portal.
- 2. The trainee needs to take ownership of their training assignment. Working closely with their evaluator, identify tasks and learning opportunities that can be documented in their PTB.
- 3. Ensure all the information is complete and correct on the Evaluation Record and, if being recommended for certification, the PTB Verification/Certification form. Incorrect or incomplete information is a very common issue in PTBs and, all too often, delays certification of a trainee as fully qualified. Please review all information to make sure it is complete, accurate, and legible.
- 4. The evaluator should complete an Incident Personnel Performance Rating (ICS 225 WF) for the trainee, and submit a copy to the TNSP either in person or a picture copy.
- 5. Once all the documentation is completed, the trainee will need to close out with the TNSP. The trainee can: 1) stop by and close out in person with TNSP; 2) call the TNSP to go through the Exit Interview Form and discuss how the assignment went; or 3) complete the Exit Interview Form through the QR code link.

Incident Training Specialist email: 2021.greenridge.plans@firenet.gov

Team Ordering/Timeline Process:

0630 - Morning Briefing, start of crew time.

1100 - Last call to change spike camp resource hot food location.

1600 - DIVS to have next day's resource order ready for Planning OPS.

- All crew level orders will be placed through DIVS or Branch.
- DIVS or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

GPS Datum: NAD 83- Degrees, Decimal, Minutes (DDMM.MM)

Definitions

FOB-Forward Operating Base is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

Line Spike Camp-Managed by Operations at the DIVS level; mobile, short duration and self-sufficient.

Spike Camp-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

Emergency Medevac- Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's. Communications to clear command channel radio traffic.

Medical Transport-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.
