**Communications 24-Hour
Emergency Number:**

971-727-7965

1. Incident Name:
Lick Creek / Green Ridge

2. Operational Period:

Date From: **08.16.2021** Date To: **08.17.2021**
Time From: **0600** Time To: **0600**

3. Objective(s):

- Provide for the safety of firefighters and the public through the utilization of strategic and deliberate risk assessment processes. Ensure incident within an incident (IWI) protocols are established.
- Develop and implement strategies and tactics with the highest probability of success to protect identified values at risk.
- Maintain and enhance relationships, through timely communication, actively engaging the Agency Administrators, the public, and stakeholders.
- Coordinate with the READs to ensure natural and historical values are identified and protected.
- Assist with initial attack as requested, when it will not impede meeting of incident objectives.
- Manage the incident following established COVID-19 mitigation guidelines limiting spread of infectious diseases.

4. Safety

OPERATIONAL TEMPO

Maintaining operational tempo is not solely about speeding up to match or exceed the pace of the environment. It's also about knowing when operations should slow down and why. We are most vulnerable to accidents and errors when operational tempo changes, especially when it changes quickly.

Maintaining good situation awareness in spite of change in operational tempo represents a considerable challenge.

The key to managing operational tempo successfully is monitoring the changing environment and capabilities of the team, and then applying good judgment to determine whether to push forward or pull back while making necessary adjustments.

“SEE SOMETHING.....SAY SOMETHING!”

If you see a hazard or a dangerous situation developing, tell your supervisor and those around you.

There have been a number of close calls on this incident lately. From driving to aviation, minor incidents are reported every day. Please slow down and communicate your intentions to those around you. If you see an unsafe situation beginning to develop, communicate it immediately!

Lick Creek / Green Ridge Weather Forecast

FORECAST NO: 36
FORECAST FOR: Monday Operational Period
SHIFT DATE: 8/16/2021
DATE AND TIME ISSUED: 8/15/2021 at 1900 PDT

NAME OF FIRE: Lick Creek/Green Ridge
UNIT: OR-UMF
SIGNED: Matt Jeglum - Incident Meteorologist
503-704-9955

...Windy and then cool with a chance of precip...

WEATHER DISCUSSION: The primary weather concern today will be moderate southwesterly winds. It will be the windiest day since last Saturday but with temps and humidity that will moderate slightly from Sunday. Elevated winds will continue into Tuesday albeit with a switch from southwesterly to northwesterly. Tuesday and Wednesday will be much cooler and wetter than recent days with the highest rain potential (CWR of 25%) on Wednesday morning and afternoon.

TODAY:

WEATHER: Mostly sunny and windy.

MAXIMUM TEMPERATURE: 72-78° above 5000 feet. 84-89° valley bottoms.

MINIMUM RELATIVE HUMIDITY: 24-29% above 5000 feet. 17-23% valley bottoms.

20-FOOT RIDGETOP WINDS: West-Southwest 10-18 mph with gusts as high as 28 mph.

GREEN RIDGE CREEKS: Upslope/Upcanyon 3-8 mph. West winds gusting to 20 mph through west-east drainages in the evening.

INVERSION/STABILITY: The low level inversion will lift around 1000.

CHANCE OF WETTING RAIN ($\geq 0.10''$): 0%. **HAINES INDEX:** 3 (Very Low).

TONIGHT:

WEATHER: Partly clear. Breezy.

MINIMUM TEMPERATURE: 53-58° above 5000 feet. 50-58° valley bottoms.

MAXIMUM RELATIVE HUMIDITY: 55-65% above 5000 feet. 75-85% valley bottoms.

20-FOOT RIDGETOP WINDS: West-Southwest 8-12 mph with gusts to 20 mph.

GREEN RIDGE CREEKS: Daytime winds persist until becoming downslope/downcanyon 3-6 mph after 0100.

INVERSION/STABILITY: Only a weak inversion will be present due to the strong winds aloft.

CHANCE OF WETTING RAIN ($\geq 0.10''$): 0% **LAL:** 1

TUESDAY:

WEATHER: Partly cloudy. Cooler with wind lingering.

MAXIMUM TEMPERATURE: 60-65° above 5000 feet. 68-73° valley bottoms.

MINIMUM RELATIVE HUMIDITY: 40-46% above 5000 feet. 33-40% valley bottoms.

20-FOOT RIDGETOP WINDS: Northwest 7-14 mph with gusts to 25 mph.

GREEN RIDGE CREEKS: Northwest winds 5-10 mph with gusts to 20 mph with some channeling by terrain.

INVERSION/STABILITY: A weak low level inversion will lift around 0900.

CHANCE OF WETTING RAIN ($\geq 0.10''$): 5%. **HAINES INDEX:** 3 (Very Low).

Observations from the field are valuable!

Email any obs to matthew.jeglum@noaa.gov or text them to 503-704-9955.

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 21	TYPE OF FIRE: Wildfire
FIRE NAME: Lick Creek & Green Ridge Fires	OPERATIONAL PERIOD: 08-16-2021 24 Hour
DATE ISSUED: 08-15-2021	TIME ISSUED: 1900
UNIT: Umatilla NF OR-UMF-000658 & 000659	SIGNED: //s// Larry Long FBAN

INPUTS

****See the attached Incident Weather Forecast****

OUTPUTS FIRE BEHAVIOR

GENERAL: Wind speeds will increase considerably resulting in much higher rates of spread and higher fire intensity than what we've seen the last few days, especially in the late afternoon. Crown fire rates of spread can reach 2 miles/hour. Expect torching and spotting throughout the day and well into the night due to the low RH's and high temperatures.

Probability of ignition is 85% with spotting distances of ½ mile possible. Haines Index 3

1-hour fuel moistures: 3%, 10 hours at 4%, 100 hours at 7%, 1000-hour fuels are ~8 % and live fuel moistures are at around 75-95%. ERCs are above the 97th percentile.

Fuel model	Max. Flame Length	Day Shift ROS	Night Shift ROS	Spotting
Timber little and understory TU5/TL4	9-12 ft.	13-32 ch/hr	9-18 ch/hr	.5 miles
Short Grass/Shrub – GR2/GS2	2-4 ft.	22-36 ch/hr	3-6 ch/hr	.5 miles

SPECIFIC:

Green Ridge: The fire will continue to progress up and out of the drainages on the south flank, pushed by an upslope wind of 3-8 MPH and the west-southwest general winds. The fire will be active in the heavier concentrations of fuels as the winds surface causing torching and spotting. The active line in divisions A & P will move along the drainages and over the ridges to the east and southeast. Expect long range spotting and crown runs due to the dry fuels and the high wind speeds.

Lick Creek: The WSW winds today should again be favorable by pushing the heat and smoke into the interior. Expect interior fuels to continue to consume and put off smoke.

Night Division: Due to the late burning periods, anticipate daytime burning conditions to continue well into the late evening due to the high wind speeds and continuing until the downslope winds set up and the humidity recovers. Expect torching and spotting, especially on the uphill runs.

AIR OPERATIONS: Heavy smoke may hamper air operations.

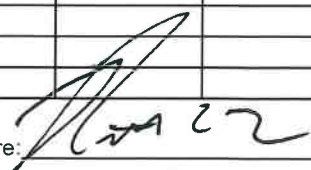

SAFETY

Local Thresholds – **WATCHOUT:** Combinations of any of these factors can greatly increase fire behavior:

Elevations	20' Winds +15 mph	RH <20%	Temp +80°	1000hr Fuel <7%
3000 –5500'	WSW 8-16 mph G28	18-24%	83-88°	~8%

6. Work Assignments:
Patrol and improve line where needed.
Transfer operational needs to Day Operations.
Take action as needed to ensure that existing structures and infrastructures do not sustain further damage.

7. Special Instructions:
Frontline Medical (E-61) located at DP-17. Lead READ Aaron Malson: 530-917-5701
DIVS to identify equipment to be sent in an event of an IA within TFR. Operations will identify closest resources to respond to new incident.
Please make sure 3/32" fish screens are used at all draft sites in Punjab Creek, Touchet, and Tucannon Rivers.

1. INCIDENT NAME: Green Ridge / Lick Creek 2. OPERATIONAL PERIOD 8/16/2021 START TIME: 0730 END TIME: 2130 SUNRISE: 0547 SUNSET: 2002

3. REMARKS (Safety Notes, Hazards, Air Operations Special Equipment, etc.).

AVIATION WATCH OUT INFORMATION

Should the operation or the flight be stopped due to a change in conditions? Consider the following:

Radio communications.

Environmental conditions – weather, visibility, terrain, elevation, temperatures.

Is there a better way to complete the mission?

Poor visibility.

4. READY ALERT AIRCRAFT:

IA: TBD
 Medivac: 3JR @ KALW
 Life Flight @ Walla Walla
 3JR Short Haul @ KALW

Green Ridge Fire

Human Resources Message

Please remember to think before you act.

What might be fun now, could have bad

consequences later.

If you have a concern – text me, call me, come see me.

Mike Baines - 724-678-6147

TEAM BLACK FINANCE PROCEDURES

****Green Ridge, Lick Creek, and Dry Gulch Fires****

We are using a 100% electronic time submission process. Please submit time daily.
PLEASE REPORT TIME BASED ON THE FIRE YOU WORKED ON.

Resources just checking in: After checking in using the QR Code on the front of an IAP, please continue to the Finance portion and complete the Finance Check-In Form. Don't forget to submit the appropriate forms/documents electronically.

E-mail time to: 2021.greenridge.finance@firenet.gov

Please include resource type (**OVERHEAD, EQUIPMENT OR CREW**) in subject line. Please send electronic documents OR pictures.

If you are sending other information or questions to the finance email, please send separate email with appropriate subject line, ie: "Question on time" or "Explanation of travel."

To electronically demob from finance: Submit final CTRs and Shift Tickets to the above finance email. Include your email address and phone number. Make sure CTRs/Shift Tickets are complete and legible. **Once you have turned in your final CTRs/Shift Tickets you are released from Finance.** A final timesheet (OF288) and/or Invoice (OF286) will be emailed to you for review. Please respond with a confirmation email of accuracy. If there are errors or edits needed, contact-46 finance asap by replying to the email,

Travel safely home without having to deal with finance in person!

If you are unable to send electronic CTRs/Shift Tickets due to lack of connectivity, or incompatible devices, hard copies will be accepted. Coordinate with your supervisor for delivery to Finance. BE SURE TO INCLUDE PHONE NUMBER AND EMAIL ADDRESS. When you are ready to demob, call one of the Finance numbers below.

If you have any questions, please contact us at:

Finance 971-245-0248 or 971-727-7461; Comp/Claims 541-969-2396

Demob Tips

*****Note: If you have cell phone coverage and have nothing to return to Communications or Supply, you will not physically need to come to demob.*****

AIR TRAVELERS please contact or stop by demob 4 days prior to your demob date to confirm travel plans.

After being notified by your supervisor of your tentative release date:

1. Return all supplies, radios, etc. that were checked out. If you have no items to return, you can complete finance and demob virtually. All line vehicles must complete a WEED WASH and have a post-inspection of their vehicles.
2. Submit time for all personnel and equipment to Finance per directions in IAP.
3. Once you receive confirmation from FINANCE with a copy of your OF-288 and other financial documentation, you are free to complete Step 4 and travel home.
4. Complete demob Checkout Sheet using QR code on the cover of the IAP. If unable to use, see demob. Once demob receives confirmation from Finance and your demob checkout sheet has been electronically submitted, you will be released in the system.

Demob Unit email: 2021.greenridge.demob@firenet.gov (970) 217-6479

Training Specialist Message/Training Process

You do not have to wait until the last work day to complete a position task book (PTB) evaluation. You can complete the evaluation process at any time on the incident. Trainees are not required to check in with the Incident Training Specialist (TNSP). However, Geographic Area Priority Trainee Program participants are strongly encouraged to check in with the TNSP. The TNSP is available to answer questions and/or help guide both the Trainee and Evaluator through the process.

1. Incident trainees should check in early with the TNSP either in person or remotely using the QR code on the IAP cover. Within that QR code exists a training portal.
2. The trainee needs to take ownership of their training assignment. Working closely with their evaluator, identify tasks and learning opportunities that can be documented in their PTB.
3. Ensure all the information is complete and correct on the Evaluation Record and, if being recommended for certification, the PTB Verification/Certification form. Incorrect or incomplete information is a very common issue in PTBs and, all too often, delays certification of a trainee as fully qualified. Please review all information to make sure it is complete, accurate, and legible.
4. The evaluator should complete an Incident Personnel Performance Rating (ICS 225 WF) for the trainee, and submit a copy to the TNSP either in person or a picture copy.
5. Once all the documentation is completed, the trainee will need to close out with the TNSP. The trainee can: 1) stop by and close out in person with TNSP; 2) call the TNSP to go through the Exit Interview Form and discuss how the assignment went; or 3) complete the Exit Interview Form through the QR code link.

Team Ordering/Timeline Process:

- 0630 - Morning Briefing, start of crew time.
- 1100 - Last call to change spike camp resource hot food location.
- 1600 - DIVS to have next day's resource order ready for Planning OPS.

- All crew level orders will be placed through DIVS or Branch.
- DIVS or Branch will place all orders through Communications Unit.
- All orders will be tracked using the process found on the front of this form.

GPS Datum: NAD 83- Degrees, Decimal, Minutes (DDMM.MM)

Definitions

FOB-Forward Operating Base is a secure forward position established to strategize, design and discuss tactics, and for personnel to transfer information and meet.

Line Spike Camp-Managed by Operations at the DIVS level; mobile, short duration and self- sufficient.

Spike Camp-Supported by Logistics, listed in the IAP, numbers in camp are set by 1100, named by Plans.

Emergency Medevac- Life threatening situation requiring immediate medical attention. Handled as per IAP med plan and team SOP's. Communications to clear command channel radio traffic.

Medical Transport-Transport of less serious injury/illness managed by Operations or line Medics back to camp for evaluation and/or treatment.

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (Verify correct frequency prior to starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° - 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° - 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		Brief Summary of Injury or Illness <i>(Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location		Descriptive Location & Lat. / Long. (WGS84)
Incident Name		Geographic Name + "Medical" <i>(Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		Name of on-scene IC of Incident within an Incident <i>(Ex: TFLD Jones)</i>
Patient Care		Name of Care Provider <i>(Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: Complete this section for each patient as applicable (start with the most severe patient)

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): (Descriptive Location (drop point, intersection, etc.) or Lat. / Long.) Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: Considerations: If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.

8. ADDITIONAL INFORMATION: Updates/Changes, etc.

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
