## HEALTH AND SAFETY MESSAGE

***SAFETY*** starts with ***YOU!***

We are **ALL** accountable for **SAFE** behaviors and actions

### Fire Order of the Day – Give clear instructions and be sure they are understood

#### **Communications:**

- Ensure communications are in place and all personnel know frequencies.
- Ensure all personnel have received instructions and they are understood.
- Ensure all personnel know operational assignments and emergency procedures.

Ensure: Lookouts, Communications, Escape Routes and Safety Zones are in place and known to all.

Have a good and safe shift!

#### **Watch Out Situation of the Day**

6. INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

#### **Communication Responsibilities**

All Firefighters have five communication responsibilities

- \***Briefings** – All resources require briefings. Use briefing checklist in pocket guide.
- \***Debrief Actions** – as necessary. Use pocket guide After Action Review to stimulate discussion and provide guidance.
- \***Communicate Hazards to Others** –
- \***Acknowledge messages** –
- \***Ask if you do not know** – Ask questions in unfamiliar situations. The only dumb question is the one you did not ask.

*The greatest problem with communication is the illusion that it has been achieved*
