Fire Weather Forecast

FORECAST NO: 25 INCIDENT: Walker-Chickadee Fires

PREDICTION FOR: Wednesday **UNIT:** DNR-USFS-BLM

Shift Date: September 1, 2021 SIGNED: Bob Tobin

TIME AND DATE Incident Meteorologist (IMET)

FORECAST ISSUED: 8/31/2021 at 2000

<u>Weather Discussion:</u> The low pressure system that is over the Pac NW will remain over the region through Thursday morning. Temperatures will be on the cool side Wednesday and be quite chill Thursday morning. Winds will stay northerly and will be gusty at times. High pressure will build into the region Thursday afternoon but flatten quickly by Friday afternoon. This will allow several degrees of warming both Thursday and Friday. Westerly flow into the Labor Day weekend will result in variable clouds and temperatures dropping back to normal if not a degree or two below normal.

WEATHER FORECAST: Chickadee

Wednesday:

SKY/WEATHER: Partly to Mostly cloudy. A slight chance of showers.

High Temperature... 57-63 above 4000 ft...72-76 below 4000 ft. 24hr chg: Up 3-5 degrees **Min RH.....** 35-45% above 4000 ft...25-35% below 4000 ft. 24hr chg: Down 2-4 percent.

20-FOOT WINDS: North 10-12 mph with gusts around 20 mph.

CWR (>=0.10")....0% LAL....1 Haines Index...2 (Very Low) Mixing Height...6900 ft AGL

Tonight:

SKY/WEATHER: Partly cloudy.

Low Temperature...42-48. **Max RH.....**55-65%

20-FOOT WINDS: North 10-12 with gusts to 15 mph.

CWR (>=0.10")....0% LAL....1

WEATHER FORECAST: Walker

Wednesday:

SKY/WEATHER: Partly to mostly cloudy.

High Temperature...56-63 above 4000 ft...68-72 below 4000 ft. 24hr chg: Up 3-5 degrees **Min RH.....**30-40% above 4000 ft...25-35% below 4000 ft. 24hr chg: Down 2-4 percent.

20-FOOT WINDS: Northwest 10-15 mph with gusts to 20 mph.

CWR (>=0.10")....0% LAL....1 Haines Index...2 (Very Low) Mixing Height...6500 ft AGL

Toniaht:

SKY/WEATHER: Partly cloudy.

Low Temperature...40-46. **Max RH.....**65-75%

20-FOOT WINDS: North 10-12 with gusts to 15 mph.

CWR (>=0.10")....0% LAL....1

Extended Outlook

Thursday... Mostly sunny. High: 63-73. Min RH: 25-35% Winds: North 5-10 mph with gusts to 20 mph.

Friday... Partly cloudy. High: 66-76. Min RH: 25-35% Winds: Southwest 8-10 gusts to mph.

Saturday...Mostly cloudy. A slight chance of showers overnight. High: 65-75. Min RH: 25-35% Winds: Southwest 10-15 mph with gusts 20-25 mph.

FIRE BEHAVIOR FORECAST FORECAST NUMBER: 25 TYPE OF FIRE: Wildland Walker Creek & Chickadee Creek OPERATIONAL PERIOD: Sept 1, 2, 2021 0600-0600 FIRE NAME: DATE ISSUED: Aug 31, 2021 TIME ISSUED: 2000 UNIT: WA DNR, BLM, USFS **Don Strand FBAN INPUTS**

WEATHER SUMMARY: See attached fire weather forecast

OUTPUTS

FIRE BEHAVIOR

FUELS: The fires are burning mostly in mixed conifer timber litter consisting of Douglas-fir (many with dwarf mistletoe clumps), western larch, Engelmann spruce reproduction and overstory., and lodgepole pine below 6.000'. Sub-alpine fir, white bark pine, and lodgepole pine occur above 6.000'. All timber types have ladder fuels with black moss/lichens that make for an easy transition to crown fire. Dead fine fuels, grass (where not heavily grazed), and slash can increase surface fire spread. Most live fuels, except for red alder, are available to carry fire and fuel moistures will continue to drop with seasonal drying. Live fuels are still drought stressed.

GENERAL: Slightly warmer and drier with breezy northerly winds today. Expect smoldering and creeping fire behavior in available surface fuels. Potential for isolated torching where jackpots of fuel exist under ladder fuels. Pay attention to areas exposed to winds. An increase in fire intensity likely where winds can penetrate canopies.

SPECIFIC:

Chickadee: Expect continued smoldering and creeping fire behavior. Still potential for torching and short-range spotting. Roll outs on steeper slopes are another method of fire spread. Areas exposed to northerly winds have potential to see an increase in intensity.

Fuel Moistures- Aeneas LO WIMS data from yesterday were- 10-hour 11%, 100-hour 12%, 1000-hour 14%. ERC 45.

Probability of Ignition will approach 60% unshaded and 30% shaded.

Walker: Continued smoldering and creeping fire behavior. Potential for winds channeling through saddles. Islands of unburned fuels and areas of dirty burns will slowly spread with potential for torching and spotting.

Fuel Moistures- Lost Lake RAWS WIMS data from yesterday were- 10-hour 12%, 100-hour 12%, 1000-hour 14%. **ERC 42.**

Probability of Ignition will approach 60% unshaded and 30% shaded.

Night: Cool with moderate to good humidity recovery. Northerly winds with gust to 15 mph. Pay attentions to areas there is wind/slope alignment. Continue to watch for hold over spots from previous fire activity.

AIR OPERATIONS: Expect some turbulence in areas of complex terrain

SAFETY

Breezy condition again today.

Remember: Base all actions on current and expected fire behavior.

INCIDENT: Walker Creek/Chickadee OPERATIONAL PERIOD: 0600-0600

MANAGING THE MAYDAY

The four (4) W's of size up: While we fight fires of varying complexities throughout the year, we rarely (and thankfully) deal with managing the EMS incident from beginning to end. This can be a daunting and stressful task for personnel. While the Emergency Plan is a useful tool, the four (4) W's is a simple, easy and provides you with a guide to establish most of the pertinent information needed to successfully manage the IWI.

"W"hat do I have?

"W"hat am I doing?

"W"hat do I need?

"W"ho is in command?

We call this the 30 second blueprint for success. While it may not answer all the questions needed, it certainly gets you off on the right foot.

COVID MITIGATIONS

Please review your COVID/Viral Transmission prevention guidelines. Maintain your distancing to the greatest extent, cough or sneeze away from other people, mask up when indoors and respect the personal space of others. If you begin feeling ill, notify your supervisor and seek medical attention for screening.

Ensure LCES in in place before engaging and continue to evaluate during the entire shift.

SAFETY OFFICER: Troy Corn, Jack Cates

Deliberate Risk Assessment-Hazard Summary 1-2 September 2021

Hazard	Mitigation	Post Risk
Viral Transmission Mitigations, Communicable Disease	Maintain awareness of health, perform self checks, maintain social distancing, wear face coverings when indoors or when social distancing cannot be maintained. Report and isolate if feeling symptomatic. Coordinate with Okanogan County Public Health for testing, reporting and isolation as needed. Conduct testing of personnel with exposure to known positive cases.	Low
Extraction Time	Identify medivac sites and helispots. Initiate ground transport to accident site. Identify EMT/EMTP from resources assigned to division. Provide line qualified paramedics to each division as available. Review IWI protocol to ensure familiarity. Utilize civilian medivac as treatment/timing dictates. Evaluate on-going need for repositioning medical personnel.	High
Heavy Equipment	Post lookouts around equipment work areas. Establish communications with equipment boss and operator. Do not work down slope from equipment. Familiarize crews with specialty equipment and processes.	High
Hazard Trees	Use avoidance to limit exposure time. Snag ahead to avoid exposure. Use qualified fallers, blasting, or alternate methods if needed. Conduct ongoing risk analysis of all work areas. Follow Hazard Tree Safety Guidelines (IRPG page 22).	High
Aircraft	Utilize Air Attack. Ensure all resources are a safe distance from all bucket and retardant drops. Establish LCES. Utilize air to ground primary radio channel. Reference IRPG (Safe aircraft operations pg. 56-58). Ensure IA resources have coordination with unassigned local air resources to provide deconfliction.	High
Steep Terrain/Gravity	Do not work crews above or below each other. Post lookouts for rolling material. Watch footing in loose soil, rock and around vegetation. Do not work below heavy equipment. Scout and identify travel routes. Establish LCES.	Moderate
Physical Factors	Maintain hydration schedule. Closely monitor work rate and implement rest periods. Maintain nutrition. Ensure adequate work/rest.	Moderate
Environmental Factors	Assign medical personnel to camp. Assess for known allergies and report to medical personnel. Obtain Bee Bopper/wasp spray and yellow jacket traps. Maintain an awareness of livestock. Keep an eye out for wildlife including bears, cougars, and rattlesnakes.	Moderate
Fire Behavior	Be aware of burn windows and weather impacts and min/max RH for flashy fuels/local conditions. Be aware of increased fire behavior and concerns specific to thunderstorm safety (IRPG p. 21). Report changes to FBAN and IMET. Include thunderstorm safety message in IAP.	Moderate
Unburned Fuels/Firing Ops	Establish LCES. Ensure management action points are implemented and followed. Weather updates as needed during burning operations. Locate indirect firelines to minimize the amount of unburned fuels. Follow Interagency Ignition Guide. Ensure communications between all firing operations. Establish road security at all firing sites. Follow approved firing plan for unburned fuels.	Moderate
Transportation	Signing of all incident roads that provide access to divisions. Daily updated travel plan maps. Practice defensive driving. In local communities obey the posted speed limits. Use reader boards to control entry as needed. Identify and evaluate contingency and alternate escape and travel routes.	Moderate
Communication	Evaluate for dead zones prior to engagement. Utilize human repeaters as needed. Ensure accountability of resources in problem areas.	Low
Public Interaction	Place new road closures as necessary and maintain current closures. Maintain awareness of evacuation areas and provide accurate information dissemination.	Low

6. Control Operations/Work Assignments:
Task
Patrol Chickadee and Walker incidents; secure fire line in areas with recent burn out operations as needed; mop up areas that
pose threat to structures.
Purpose
Limit fire spread outside of established control lines; limit threat to structures.
End State
Fire is contained within established control lines; structures are not threatened. 7. Special Instructions:

ICS 204 WF (1/14)

Division breakout will be at breezeway.

DNR IMT Mop UP STANDARDS

Department of Natural Resources
Walker Creek WA-NES-2021-2245
Chickadee Creek WA-NES-2021-2310

These standards may be adjusted and modified as the incident progresses, but are intended to give the IMT direction for planning. Mop-up specifications apply only to DNR protected lands at this time. Rehab standards will be developed based on landowner objectives once the incident is controlled. Other agencies will provide specific direction for their jurisdictions.

Mop-Up Specifications

Always consider over-head hazards prior to putting fire fighters in harm's way for mop up. Mitigate hazards and exposure as needed.

Achieve 100% mop-up along and inside the fire perimeter to a distance that is adequate to ensure the perimeter is secure to prevent the fire from escaping across existing containment lines.

To reduce hazards to firefighters during final mop-up, fall snags that pose "imminent" danger along all open roads within the fire perimeter.

Known spot fires outside the control lines will be 100% mopped up where appropriate to do so, a route to them will be flagged, and the perimeter of spots mapped in GIS.

Mop-up of partially burned areas further inside the lines will be determined on a case-by-case basis.

For structures and sensitive resources within the interior of the fire line, mop-up to a level to ensure that there will be no future effects from the fire.

As mop-up specifications are met on a Division, Operations will develop a plan for the resources and equipment to be left in place that may be required for future contingency actions.

Mop-up will be verified by aerial infrared equipment and/or gridded prior to fire turn back to Land Manager or Protecting Agency.

Notify Agency Representative if a cultural site is found during mop-up.

DNR Agency Representative Name: Brett Walker 509-680-4029

WALKER CREEK FIRE DEMOB LIST Wednesday September 1, 2021

DEMOB INSTRUCTIONS

Paperless and electronic demobilization will be used to the extent possible for all resources. **PLEASE LOOK closely at the Fire Name and Resource Number**. All finance documents will be emailed and signed virtually. Ensure all Final CTR's and Shift Tickets have been submitted to Finance the night before your demob day. Please be **PATIENT** as the phone lines are limited the and it takes a little longer for the virtual process.

<u>DEMOB STEPS</u> (Must Be Done In Order)

- **1.** If you have any items checked out by Supply and Communications, proceed to those areas to turn in equipment. If you don't have any items checked out, proceed to **NEXT STEP**.
- **2.** If you were inspected upon arrival or need a No Claims/No Comp receipt, check out with Ground Support. If this does not apply, proceed to **NEXT STEP**.
- **3.** Call Finance at 509-423-6011 or 509-433-1115 or 509-531-7418 to finalize paperwork.
- **4.** Call DMOB at 206-473-1425 or 509-432-6143 to complete the process to be released.

Walker Creek/Chickadee Fires COVID-19 PCR Testing Schedule:

ALL TESTING WILL BE PERFORMED BY LIFELINE AMBULANCE, LOOK FOR VEHICLES AT LOCATIONS BELOW

- Testing for Chickadee resources **09/01/21** will take place at Spears Ranch 0600
- Testing for Omak Stampede Camp resources **09/01/21** will take place near med unit at 1500

Walker Creek/Chickadee Fires COVID-19 PCR Testing Frequently Asked Questions:

Who should be PCR tested for COVID-19?

• Based on the number of positive COVID-19 cases on the Walker Creek/Chickadee Fires, Okanogan County Public Health has advised ALL firefighters assigned to the fires to be tested.

What happens if I test positive?

- If you test positive for COVID-19 but have mild or no symptoms, NW Team 12 has a plan in place to keep firefighters working while safely isolated from other crews. A positive test does not automatically mean you will be isolated and unable to work.
- If you test positive and your symptoms are more severe, NW Team 12 will work with Okanogan County Public Health to find the best solution for your isolation and recovery in coordination with your home unit.

What happens if I choose not to be tested?

- Firefighters who are not tested and have NO COVID-19 symptoms will be allowed to keep working, but will be isolated from other crews to prevent further spread from unidentified cases.
- Firefighters who choose not to be tested but ARE displaying COVID-19 like symptoms will be required to isolate according to Okanogan County Public Health recommendations and will not be allowed to continue working.

When and how will I get my test results?

• With the current backlog of tests at area labs, your test results will not be available for 24-48 hours, or in some cases longer. There will be no change to your work status while we await results. You will be able to access your results online as soon as they are available. Details will be provided to you when you are tested.

Is rapid testing available?

Yes, rapid testing is available at all times, however these tests are most accurate for symptomatic patients and
might not catch someone who is asymptomatic but still carrying COVID-19, which is why we recommend PCR
testing for firefighters before they travel home.

WALKER CREEK/CHICKADEE FIRE COVID-19 MITIGATIONS

Supervisors are required to go over this list each morning with assigned resources- report any symptoms to medical unit.

In the last 24 hours have you experienced:

- Cough more than expected?
- Shortness of breath or difficulty breathing?
- Fever? Chills?
- Muscle pain, outside your normal for firefighting?
- Sore throat?
- New loss of taste or smell?

- Fatigue, outside your normal for firefighting?
- Headache, outside your normal for firefighting?
- Congestion or runny nose, outside your normal for firefig
 - Nausea or vomiting
- Diarrhea
- * Take temperature with no-touch thermometer, if available *
 - All personnel are required to wear a mask at all times, whether indoors or outdoors, unless working alone or actively engaged in firefighting on the fireline.
 - Use radio or Zoom link provided to join briefings remotely.
 - Observe 6ft Distancing at all times.
 - Send crew representatives to pick up meals masks must be worn in food lines.
 - Wash hands frequently and disinfect high-traffic areas on a regular basis.
 - Limit close contact between firefighters and the public to prevent exposure and spread. WEAR A MASK AT ALL TIMES WHILE IN PUBLIC PLACES.

Human Resource Message

Walker Creek and Chickadee Creek Fires, September 1, 2021

Mutual Respect:

Mutual respect involves accepting differences in a respectful manner, promoting communication, and learning among team members based on the diversity of opinions and cultural backgrounds.

To show respect for others:

- > Listen Listening to what another person has to say is a basic way to respect them.
- > Affirm When we affirm someone, we are giving evidence that they matter
- > Serve that is why we are here
- > Be polite You may change someone's day
- > Be kind You may save someone's life
- > Be Thankful -It is the way we affirm appreciation

Quote for the Day!

"Make improvements, not excuses. Seek respect, not attention."

- Roy T. Bennett

Be safe and have a good day!

Susie Manezes, Human Resource Specialist -NW Team 12 Contact Number: 602-571-9327. smanezes@blm.gov

A Message from Public Information

TALKING TO THE PUBLIC ABOUT DONATIONS: Please help us inform the public that firefighters are UNABLE to receive food donations.

Community members are so grateful for the work you are doing that they want to bring meals to the fireline, which we unfortunately *cannot* receive.

If you are talking to the public and the subject of meals or supplies comes up, please **emphasize that as fire line resources, you carry and receive everything you need.** Thank you for helping us spread the word!

If community members have questions that you do not feel equipped to answer professionally, please give them our fire information line: (509) 557-7257.

PHOTOS: Your fireline photos help us build understanding with the public. Community members want to see what you see because you go where others can't safely go. We are looking for any pictures of the fire line and **fire resources working on the fire line in their PPE.** You can send photos to:

Email: <u>2021.walkercreek@firenet.gov</u>

Text: (509) 557-7257

As always, make sure you're wearing all your PPE and conveying a professional, caring, and respectful attitude toward the homes and land in this community. Thanks for helping us out!

Lastly, while it's our job to talk to the public, we want you to know the public is talking to you too. Today we received this email from a happy cabin and landowner on the Walker Creek Fire:

"Today, I went up to check on the cabin after I heard the evacuation order had been lifted on Friday. I wish to give you all my heartfelt thanks for digging a hand line around the cabin, woodshed, and storage shed, as well as laying hose line with a pump in the creek next to the cabin. I had no idea this had been done. Thanks again for all the wonderful work you folks are doing!"

Make sure that your CTR and ST have the correct fire that you are working on.

Please make sure to call the appropriate person for assistance.

For all agency, casual hire & Co-Ops
Call Carol at (509) 433-1115

For all Contract
Resources (VIPR) or
DNR Hire at Fire
Call Todd at
(509) 939-9262
DNR Call Mark
(509)531-7418

VIPR Contracts questions or Problems Call Rob (509) 675-5821

Note to Contractors with transports

For all heavy equipment with a transport, two operators must be shown on the shift ticket for the transport to receive full pay.

Finance is all virtual. We will be happy to take all your paperwork, CTRs and Shift tickets all by email or text.

***Please be patient with us as we process your time for demob. Our finance section is working as quickly as possible to process your time.

Incident Maps

How to Download Maps in Avenza

If you're cell signal is poor you may need to connect to a wifi to download maps. However sometimes being connected to a wifi can slow map downloads. You'll just have to find out what works best.

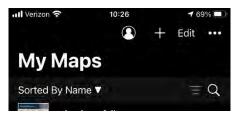

Method 1: From a browser - If you have a good cell or wifi signal

- 1. Tap on the desired map link and wait for the preview. *If it fails to load, use method 2 instead*
- 2. Tap the 'send to' icon (square with up arrow)
- 3. Choose the Avenza app

Method 2: From Avenza direct – if you don't have a good cell or wifi signal

- 1. Tap and hold on the desired map link, then choose 'copy' to copy the direct URL to the map
- 2. Launch the Avenza app
- 3. When not in any map... Tap the + (plus) icon at the top of the screen
- 4. Choose the load from URL option (last choice)
- 5. Paste the direct URL to the map
- 6. Tap 'Done'; the map will begin downloading

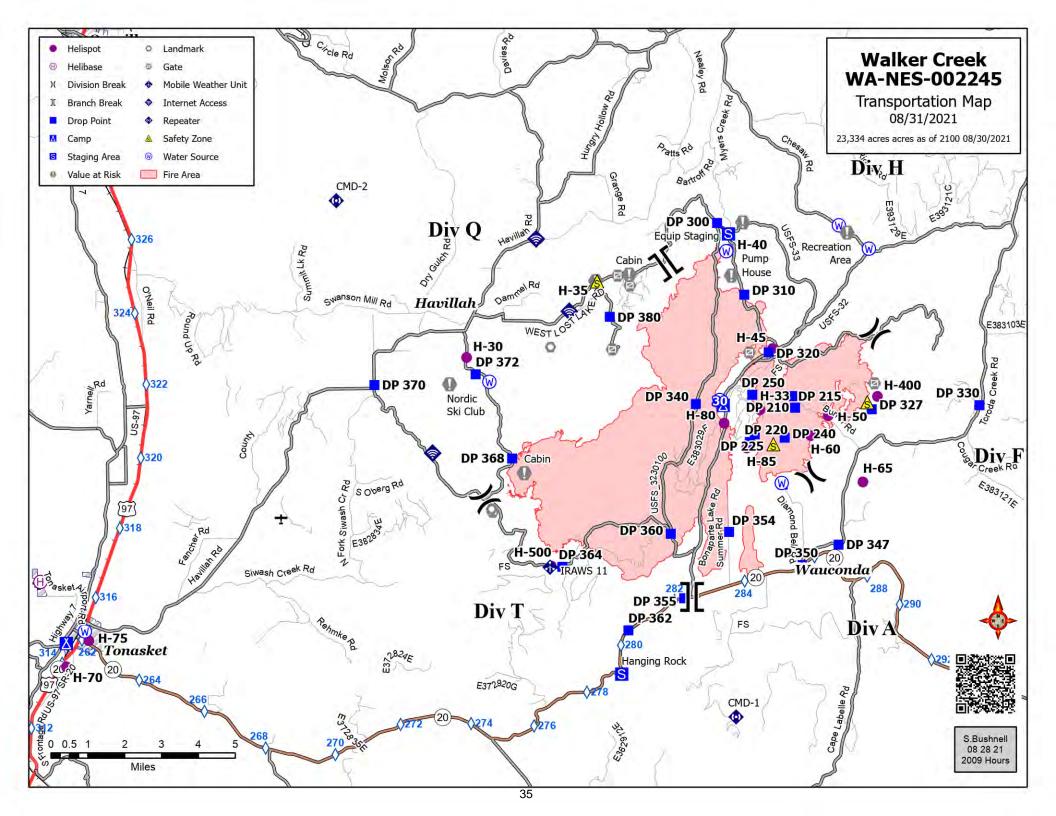

How to Send Map Updates to the Situation Unit

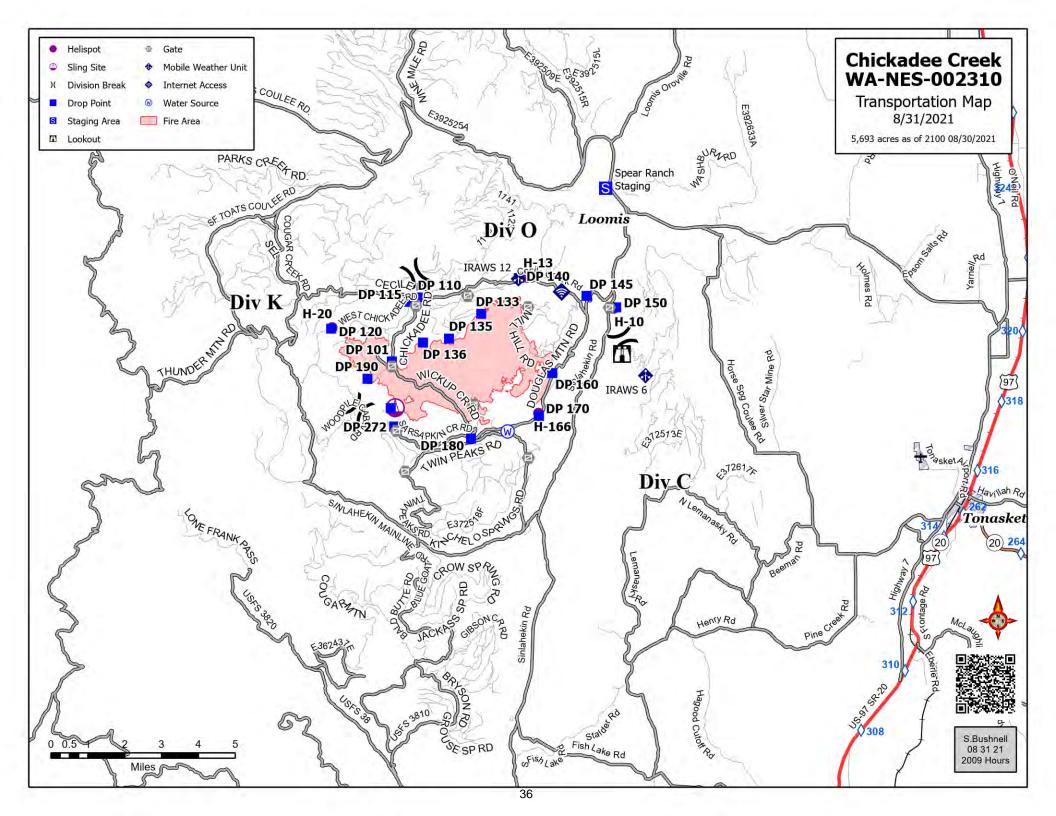

- 1. From within the map in Avenza, click the pin with three lines near the lower-right corner.
- 2. *iPhone:* In the lower right, click the square with up arrow. From the pop-up menu, choose Export to Others.

Android: In the lower right, click the circle with three lines. Click the pop-up circle with up arrow.

- 3. Set these options:
 - a. Filename leave alone
 - b. Export Format choose SHP, GPX or KML
 - c. Data all features
 - d. Image size no image
- 4. Click the Export button in the upper-right corner.
- 5. When the export is ready, choose your Mail application.
- 6. Email the update to 2021.walkercreek.situation@firenet.gov for the Walker Creek Fire map updates or 2021.chickadeecreek.situation@firenet.gov for the Chickadee Fire map updates.
- 7. If you have guestions, call or text the Situation Unit at 360-584-3373.
- 8. Your email needs to include an explanation of the data and a contact phone number.

If all else fails draw your map update on your paper map, take a picture and it attach that to an email to the above addresses.

EMERGENCY PLAN INCIDENT WITHIN AN INCIDENT

ON SCENE INCIDENT COMMANDER

In the event of an accident or medical incident of any size, your primary responsibility is to ENSURE that the victim(s) receive prompt and effective Triage, Treatment, Extrication and Transport.

- ENSURE THE MEDICAL INCIDENT REPORT IN THE INCIDENT ACTION PLAN IS BEING USED AND FOLLOWED- *IF DETERMINED TO BE A GREEN, DO NOT DECLARE EMERGENCY TRAFFIC AND ONLY COMPLETE LINE 1-4 ON MIR*.
- Conduct size-up of the incident nature of accident, number type of resources involved, latitude and longitude location (DD°MMM.MM format): notify incident communications center and supervisor, request assistance as needed.
- Order and coordinate medical and support response to the accident.
- Evaluate special needs (law enforcement, haz mat, etc.).
- Clear the command frequency if medical emergency, coordinate with incident communications and air attack for air medical transportation needs.
- Preserve and photograph the scene for accident investigation.
- Remain aware of surroundings and the status of the main incident (delegate personnel to monitor the main fire) to ensure safety of medical treatment personnel.
- Until relieved, supervise and manage all personnel involved at the incident scene.

MEDICAL PLAN (ICS 206 WF)

MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

Medical Incident Report

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

. (CONTACT COMMUNICATIONS	DISPATCH	(Verify	correct frequenc	y prior to	starting report)

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD, lones, FMT, Smith is providing medical care."

Meadow Medical, IC is TFLD Jones. EM	Γ Smith is providing medical care."								
Severity of Emergency / Transport Priority	□ RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented. □ YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes. □ GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport Ex: Sprains, strains, minor heat-related illness.								
Nature of Injury or Illness & Mechanism of Injury				Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)					
Transport Request				Air Ambulance / Short Haul/Hoist Ground Ambulance / Other					
Patient Location			D	escriptive Location & Lat. / Long. (WGS84)					
Incident Name				Geographic Name + "Medical" (Ex: Trout Meadow Medical)					
On-Scene Incident Commander		Name of on-scene IC of Incident within Incident (Ex: TFLD Jones)							
Patient Care				Name of Care Provider (Ex: EMT Smith)					
3. INITIAL PATIENT ASSESSMEN	T: Complete this section for each patier	nt as applicable (start wi	th the most severe patient)						
Patient Assessment: See IRPG page	e 106								
Treatment:									
4. TRANSPORT PLAN:									
Evacuation Location (if different): (D	escriptive Location (drop point, ii	ntersection, etc.) or	Lat. / Long.) Patient's I	IA to Evacuation Location:					
Helispot / Extraction Site Size and H	azards:								
5. ADDITIONAL RESOURCES / EQI									
Example: Paramedic/EMT, Crews, Immo	bilization Devices, AED, Oxygen, Trad	uma Bag, IV/Fluid(s), S	Splints, Rope rescue, Wheel	ed litter, HAZMAT, Extrication					
6. COMMUNICATIONS: Identify St Function Channel Name/Nur		ies and Hospital C	ontacts as applicable Transmit (TX)	Tone/NAC *					
Function Channel Name/Nur COMMAND	mber Receive (RX)	Tone/NAC	Transmit (TX)	i one/NAC					
AIR-TO-GRND									
TACTICAL									
7. CONTINGENCY: <u>Considerations:</u> ahead.	If primary options fail, what actions	s can be implemente	d in conjunction with prim	ary evacuation method? Be thinking					
8. ADDITIONAL INFORMATION: $U ho$	ndates/Changes, etc.								

REMEMBER: Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
