## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b>	<b>2. Operational Period: DAY</b>	
CROCKETS KNOB	Date/Time From: 08/28/2022 0700      SUN	Date/Time To: 08/28/2022 1800      SUN
<b>3. Objective(s):</b>		
<ul style="list-style-type: none"> <li>• Identify, evaluate and reduce risks to firefighters and the public through the use of Deliberate Risk Assessment process.</li> <li>• Minimize impacts to communities, infrastructure, and acres burned on private lands.</li> <li>• Protect tribal, cultural, aquatic and wildlife resources, and sensitive plant sites.</li> <li>• Provide Initial Attack response and assistance for private and public lands within the delegated area.</li> <li>• Maintain and enhance relationships with cooperators, stake holders, landowners, and communities by providing accurate and timely information.</li> <li>• Manage cost commensurate with values at risk and maintain fiscal accountability.</li> <li>• Treat each other with dignity and respect and act in a professional manner while on the fire and in the community.</li> <li>• Ensure COVID-19 best management practices are in place and follow local CDC guidelines.</li> </ul>		
<b>4. Operational Period Command Emphasis:</b>		
Implement strategies and tactics to achieve incident objectives with the least amount of risk practical and the highest probability of success.		
<b>General Situational Awareness:</b>		
Fighting fire in light flashy fuels under hot, dry, and windy conditions poses great potential for rapid fire growth. Anticipate changes in fire behavior before it happens and ensure Lookouts, Communications, Escape Routes, and Safety Zones are adequate. Maintain accountability of all assigned resources while engaged on the fire line.		
<b>5. Site Safety Plan Required?</b> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>		
<b>Approved Site Safety Plan(s) Located</b>		
<b>6. Incident Action Plan</b> (the items checked below are included in this Incident Action Plan):		
<input checked="" type="checkbox"/> ICS 202 <input checked="" type="checkbox"/> ICS 203 <input checked="" type="checkbox"/> ICS 204 <input checked="" type="checkbox"/> ICS 205 <input type="checkbox"/> ICS 205A <input checked="" type="checkbox"/> ICS 206	<input type="checkbox"/> ICS 207 <input type="checkbox"/> ICS 208 <input checked="" type="checkbox"/> ICS 220 <input checked="" type="checkbox"/> Map/Chart <input checked="" type="checkbox"/> Weather Forecast/Tides/Currents	<b>Other Attachments:</b> <input checked="" type="checkbox"/> HR MESSAGE <input checked="" type="checkbox"/> UNIT LOG <input type="checkbox"/> _____ <input type="checkbox"/> _____

## Fire Weather Forecast

**FORECAST NO:** 1  
**PREDICTION FOR:** Sunday  
**Shift Date:** August 28, 2022  
**TIME AND DATE**

**INCIDENT:** Crockets Knob Fire  
**UNIT:** USFS-Malheur  
**SIGNED:** Bob Tobin  
**Incident Meteorologist (IMET)**

**FORECAST ISSUED:** 8/27/2022 at 2000

*Bob Tobin*

---

**Weather Discussion:** High pressure will build into the Pacific Northwest today and strengthen through at least mid-week. Temperatures will increase 5-10 degrees each day through Tuesday and a few degrees more on Wednesday. High temperatures will be well above normal. Relative humidity will drop into the 15-25% range, with poor overnight recoveries. A couple of weak disturbances will stir up the winds a bit, especially on the ridges Tuesday and Wednesday. A cold front will move into to the area Thursday night and Friday. This front is dry for now, but expect much cooler temperatures and gusty winds.

### **WEATHER FORECAST:**

#### **Today:**

**SKY/WEATHER:** Sunny. Morning smoke in the lower canyons will reduce visibility.

**High Temperature...**76-82 at 4600 ft...68-73 at 6000 ft.

**Min RH.....**18-23% at 4600 ft...24-30% at 6000 ft.

**20-FOOT WINDS:** West-northwest 7-10 mph with gusts around 15 mph.

**CWR (>=0.10")....** 0%    **LAL....**1.    **Haines Index...2** (Very Low)    **Mixing Height...4500 ft AGL**

#### **Tonight:**

**SKY/WEATHER:** Clear and not so cool.

**Low Temperature...**50-55.

**Max RH.....**45-55%

**20-FOOT WINDS:** Drainage-downslope 3-5 mph after 2000.

**CWR (>=0.10")....**0%    **LAL...1.**    **Inversion:** Weak Moderate to strong after 2000.

#### **Monday:**

**SKY/WEATHER:** Sunny and a little warmer

**High Temperature...**85-90 at 4600 ft...78-83 at 6000 ft.

**Min RH.....**15-20% at 4600 ft...18-23% at 6000 ft

**20-FOOT WINDS:** Upslope 5-9 mph...West-northwest 7-10 mph on the ridge.

**CWR (>=0.10")....**0%    **LAL....1**    **Haines Index...4** ( Low)    **Mixing Height...8200 ft AGL**

### **Extended Outlook**

**Tuesday...**Sunny. Low: 57-62. Max RH: 35-45% High: 82-92. Min RH: 15-25% Winds: Up-slope 5-10 mph...becoming east-southeast 8-12 mph on the ridges.

**Wednesday...**Sunny. Low: 58-62. Max RH: 30-40% High: 84-94. Min RH: 14-18% Winds: Up-slope 5-10 mph...except southwest 10-12 mph with gusts 15-20 mph on the ridge after 1400.

**Thursday...**Sunny. Low: 58-62. Max RH: 35-45% High: 82-92. Min RH: 12-18% Winds: Up-slope 5-10 mph...becoming southwest-northwest 10-15 mph with gusts 20-25 mph after 1300.

# FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 1	TYPE OF FIRE: WILDFIRE
FIRE NAME: Crockets Knob	OPERATIONAL PERIOD: Day Shift Aug. 28, 2022
DATE ISSUED: Aug. 27, 2022	TIME ISSUED: 2000 HOURS
UNIT: OR-MAF	SIGNED: DON STRAND, FBAN

## INPUTS

**WEATHER SUMMARY:** See attached spot weather forecast. Max temps in the 70's with min RH near 20%. Winds West-northwest 7-10 MPH with Gust to 15 MPH

**FUELS:** Consists of dense Ceanothus brush, dense lodgepole pine regeneration with a surface litter of large down wood. The fire area also contains snags and areas with remnant live trees which survived the 1996 fire. Some areas in the mid to lower elevation contain a mostly cured grass component with a higher-than-average fuel loading due to the wet spring.

Live fuel moistures in the Ceanothus are estimated to be near 100%. 1000-hour dead fuel moistures are in the 10% range. 10-hr and 100-hr fuel moistures are in the critically dry range.

Energy Release Component is near the 90th<sup>th</sup> percentile and trending higher through the week.

## OUTPUTS

### FIRE BEHAVIOR

**GENERAL:** Fire behavior will continue to be active with backing and flanking and will see an increase as humidity approaches 20%. Where fire gets in alignment with winds and or slope, expect short upslope runs in the brush. Where there's moderate loading of surface woody debris under the dense reproduction, single and group torching likely. Potential for flare ups exists in areas of dirty burns. The down woody debris will be receptive for spot fire.

Probability of Ignition will be in the 60 to 70% range with short range spotting. Maximum spotting near 1000 feet.

Head fire rates of spread in the brush range 10 to 16 feet/minute and where wind and slope align, 20 to 25 feet/minute likely.

**Initial Attack:** In the event resources respond to a new start, update your Situational Awareness by observing the fuels, weather, and topography where the new fire is located. In areas where there is abundant grass loading, potential for rapid rates of spread exist. The lighter fuels can go from creeping to running with changes in winds and or slope.

**AIR OPERATIONS:** Expect areas of smoke haze in the morning

## SAFETY

Fire weakened snags and live trees remain an overhead hazard.

Potential for increase fire activity as humidity decreases to the 20% range.

Potential for hold over spots exist across fire lines.

Rolling debris on steeper slopes has potential to carry burning material down slope.

# Safety Message

28 August 2022

**INCIDENT: CROCKETS KNOB**

**OPERATIONAL PERIOD: 0700-1800**

## **TOPICS:**

### **TRANSFER OF COMMAND**

NW12 has assumed command of the incident. Transition of Overhead and personnel will continue through the duration of the incident. Transition can be a time of extreme success or failure. Ensure positive relationship building and open lines of communications. Take a few extra minutes to get to know new personnel and provide a good briefing of actions taken up to the transition. Thank you to the High Desert IMT for all the great and safe work!

### **INCIDENT MEDICAL PLAN**

Take a few moments before you engage to review the NW12 Incident Medical Plan along with the MIR located on page 119 in the IRPG. Identify those personnel within your division that are certified EMS responders.

### **DELIBERATE RISK ASSESSMENT SUMMARY**

NW12 utilizes a hazard summary to show the hazards, risk level and mitigations from the Deliberate Risk Assessment Process. You will find this summary in the IAP. Be sure to review and provide feedback to your DIVS and Line Safety.

**SAFETY OFFICER: Troy Corn, Jack Cates**

# Deliberate Risk Assessment-Hazard Summary

28 August 2022

Hazard	Mitigation	Post Risk
Extraction Time	Identify medivac sites and helispots. Initiate ground transport to accident site for transport capability. Identify EMT/EMTP from resources assigned to division. Provide line qualified paramedics to each division as available. Review IWI protocol to ensure familiarity. Utilize agency and civilian medivac as treatment/timing dictates. Evaluate on-going need for repositioning medical personnel.	HIGH
Aircraft	Utilize Air Attack. Ensure all resources are a safe distance from all bucket and retardant drops. Establish LCES. Utilize air to ground primary radio channel. Reference IRPG (Safe aircraft operations pg. 56-58). Ensure IA resources have coordination with unassigned local air resources to provide deconfliction.	HIGH
Hazard Trees	Use avoidance to limit exposure time. Fall ahead to avoid exposure. Use qualified fallers, blasting, or alternate methods if needed. Conduct on-going risk analysis of all work areas. Follow Hazard Tree Safety Guidelines (IRPG page 22).	HIGH
Heavy Equipment	Post lookouts around equipment work areas. Establish communications with equipment boss and operator. Do not work down slope from equipment. Follow agency guidelines for chipping operations.	HIGH
Physical Factors	Maintain hydration schedule. Closely monitor work rate and implement rest periods. Maintain nutrition. Ensure adequate work/rest.	MODERATE
Fire Behavior	Be aware of burn windows and weather impacts and min/max RH for flashy fuels/local conditions. Report changes to FBAN and IMET.	MODERATE
Fuel Conditions	Establish LCES. Ensure management action points are implemented and followed. Obtain weather updates as needed during burning operations. Locate indirect firelines to minimize the amount of unburned fuels. Follow Interagency Ignition Guide. Ensure communications between all firing operations. Establish road security at all firing sites. Follow approved firing plan for unburned fuels.	MODERATE
Steep Terrain/Gravity	Establish LCES. Do not work crews above or below each other. Post lookouts for rolling material. Watch footing in loose soil, rock and around vegetation. Do not work below heavy equipment. Scout and identify travel routes.	MODERATE
Transportation	Sign all incident roads that provide access to divisions. Provide daily updated travel plan maps. Practice defensive driving. In local communities obey the posted speed limits. Use reader boards to control entry as needed. Identify and evaluate contingency and alternate escape and travel routes. Provide dust abatement as needed.	MODERATE
Environmental Factors	Assign medical personnel to camp. Assess for known allergies and report to medical personnel. Obtain Bee Bopper/wasp spray and yellow jacket traps. Maintain an awareness of livestock and rattlesnakes. Identify allergies to your chain of command.	MODERATE
Communication	Evaluate for dead zones prior to engagement. Utilize human repeaters as needed. Ensure accountability of resources in problem areas.	MODERATE
Initial Attack	Ensure identified IA resources are briefed of expectations and ensure communication plan is provided. Ensure resources are briefed on IA command structure. Provide identified crews with area maps.	MODERATE
Public Interaction	Implement area and road closures as necessary. Keep a lookout for hunters in and out of closure areas. Maintain awareness of evacuation areas and provide accurate information dissemination.	LOW
Viral Transmission Mitigations, Communicable Disease	Maintain awareness of health, perform self-checks, maintain social distancing, wear face coverings in accordance with CDC recommendations. Report and isolate if not feeling well. Use remote briefings, spike camps and logistical layouts that provide for social distancing as necessary. Establish liaison with Grant County Public Health.	LOW

# Malheur National Forest Suppression Guidelines

## Crocketts Knob

Prepared: (8/27/2022)

### Resource Advisors

Lead: Ryan Monzulla

**Exemption – in the event life or property is threatened, violating the following guidance is acceptable, provided that the suppression action is expected to mitigate the risk.**

### Drafting Operations

- Set up a pump and tank where damage to banks and vegetation from vehicle access is less likely.
- Use fish screens no larger than 3/32" or 0.094"
- If Threatened or Endangered Species are present at a draft site, consult with the USFS READ
- Check screens periodically for holes or tears
- Do not back draft through pumps, if connecting directly to pumps ensure tank is completely empty to prevent any back draft into water source

Spawning Chinook in the Main Stem John Day

Adult Redband

Fish Screen

# Human Resource Message

## Crocketts Knob Fire

August 28, 2022

**Hello everyone:** As the Human Resource Specialist (HRSP) assigned to this incident, my role is to facilitate a positive work environment, and to be a focal point for informal resolution of issues and concerns.

You may contact me at 208-739-0255 with any question or concern about any aspect of your work environment, while assigned to the incident.

Currently, my office is located at the Incident Command Post (ICP) in the Forest Service office in John Day. Once we have a permanent location for the ICP, I will post that information on my daily human resource message page.

*I am particularly committed to help assure resolution of issues as they arise, rather than waiting until after the incident is demobilized. High priority is given to resolving issues informally. If you are aware of inappropriate conduct, you have the right and the obligation to do something about it.*

## The word of the day (and maybe for the next few days) is **PATIENCE**

Let us all work as a team to make sure we have a smooth transfer of command with minimal disruption to the incident. If you have questions about anything related to your fire assignment, please ask your supervisor for clarification to avoid any misunderstandings and mishaps.

We are looking forward to working with you throughout this assignment.  
Take care, be safe and have a good day!

Susie Manezes, NW-IMT 12- Human Resource Specialist (HRSP)  
Contact Number: 208-739-0255

## COVID-19 Mitigations for Crockets Knob Fire

- Masks are not required indoors unless working in a county with a HIGH COVID-19 community level. Currently, Grant County community level is MODERATE (masking indoors is optional).
- Conduct daily verbal screening checks within crews, report any COVID-like symptoms to your direct supervisor. Supervisors should report any positive symptoms to the Medical Unit for next steps.
- Observe social distancing standards while waiting in line for food and limit contact with others outside of your crew in the food service line. If possible, send crew representatives to pick up meals.
- Practice good personal hygiene, wash hands frequently and disinfect high-traffic areas on a regular basis.
- Limit close contact between firefighters and the public as much as possible to prevent exposure and spread.

# EMERGENCY PLAN INCIDENT WITHIN AN INCIDENT

## ON SCENE INCIDENT COMMANDER

In the event of an accident or medical incident of any size, your primary responsibility is to ENSURE that the victim(s) receive prompt and effective Triage, Treatment, Extrication and Transport.

- **ENSURE THE MEDICAL INCIDENT REPORT IN THE INCIDENT ACTION PLAN IS BEING USED AND FOLLOWED- \*IF DETERMINED TO BE A GREEN, DO NOT DECLARE EMERGENCY TRAFFIC AND ONLY COMPLETE LINE 1-4 ON MIR\*.**
- Conduct size-up of the incident nature of accident, number type of resources involved, latitude and longitude location (DD°MMM.MM format): notify incident communications center and supervisor, request assistance as needed.
- Order and coordinate medical and support response to the accident.
- Evaluate special needs (law enforcement, haz mat, etc.).
- Clear the command frequency if medical emergency, coordinate with incident communications and air attack for air medical transportation needs.
- Preserve and photograph the scene for accident investigation.
- Remain aware of surroundings and the status of the main incident (delegate personnel to monitor the main fire) to ensure safety of medical treatment personnel.
- Until relieved, supervise and manage all personnel involved at the incident scene.

Controlled Unclassified Information//Basic

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (**Verify correct frequency prior to starting report**)

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location &amp; Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient as applicable (start with the most severe patient)*

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication*

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: **Considerations:** *If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.*

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
