INCIDENT Weather Forecast

FORECAST NO: 29

PREDICTION FOR: 0700 - 0700

SHIFT DATE: Sunday, October 16, 2022

FORECAST ISSUED: 1700 PDT Oct 15, 2022

NAME OF FIRE: Bolt Creek

UNIT: WA-NDC

SIGNED: Lisa Kriederman

Incident Meteorologist

*** RED FLAG WARNING IN EFFECT THROUGH 1700 TODAY ***

WEATHER DISCUSSION: Critical fire weather conditions will persist through the morning, then slowly recede. Poor humidity recovery this morning and continued east winds will bring another near record warm and dry day. Winds will be strongest in the morning, then have a slow weakening trend through the day. Watch for east-west aligned terrain to help funnel these winds. Slight relief in temperature and humidity will come Monday, while winds will be much lighter.

WEATHER FORECAST:

WEATHER: Sunny and breezy.

MAX TEMPERATURES: 72 to 78 ridges and upper slopes; 80 to 87 lower slopes and valleys.

MIN HUMIDITY: 18 to 25 percent.

20 FT WINDS

RIDGETOP - On ridges above 3000 ft: East-southeast 15 to 25 mph with gusts 30 mph until 1000, then southeast 12 to 17 mph with gusts to 25 mph until 1400, then south-southeast 10 to 13 mph with gusts to 20 mph. On ridges below 3000 ft. speeds will be ~5 mph less than stated above.

SLOPE/VALLEY - East winds 8 to 14 mph with gusts 20 to 25 mph until 1000 (except 4 to 6 with gusts to 10 along Highway 2 under the morning inversion), becoming 5 to 8 mph with austs to 20 mph until 1400, then southeast 4 to 7 mph with austs to 10 mph. Some higher gusts possible around Skykomish/DP30, and out of Barclay Creek rounding Heybrook Ridge in the morning.

HAINES INDEX: 6 (High) INVERSION: Very weak below 1000 ft, lifting by 1000.

OUTLOOK FOR TONIGHT: Clear. Low temperatures in the low to mid 50s. Max humidity 45 to 55 percent above 2000 ft, 60 to 75 percent below. Winds: Elevations above 3000 ft... Southeast wind 8 to 12 mph with gusts to 20 mph until midnight, then 3 to 6 mph. Below 3000 ft and in the valleys... East winds 3 to 6 mph.

OUTLOOK FOR MONDAY

WEATHER: Sunny.

TEMPERATURES: 69 to 75 ridges and upper slopes; 75 to 80 lower slopes and valleys.

HUMIDITY: 32 to 40 percent.

20 FT WINDS:

RIDGETOP - East 4 to 6 mph until 1200, then southwest 4 to 6 mph.

SLOPE/VALLEY - East winds 2 to 4 mph until 1100, becoming West 2 to 4 mph with gusts to 7 by

1300

HAINES INDEX: 5 (Moderate) INVERSION: Weak, lifting between 1100 and 1300.

EXTRA INFORMATION:

Sunrise: 0726

Sunset: 1815

Fire Behavior Forecast # 07							
Name of Incident:	Administrative Unit:						
Bolt Creek	WA-NWS						
Date & Time Issued: October 15, 2022 @ 1900	Operational Period: DAY/NIGHT 10/16-17/2022 (0700-0700)						
FBAN: Steve Ziel	Signed: /z/						

Assumptions: Continuing from yesterday... RED FLAG WARNING for moderate winds and low relative humidity through 1700 today. We have all the ingredients for a prolonged period of very active fire behavior due to low RH, abundant dry fuels, and numerous heat sources across a large area. Expect favorable burning conditions throughout the day. Accelerated drying has occurred due to very low day/night relative humidity, fire activity may extend through the period with forecast conditions. The combination of wind, temperature, humidity, and a heat source may result in very active fire spread.

Weather Summary

*See attached Fire Weather Forecast

Fire Behavior Summary

<u>Fuels in the fire area</u> are primarily composed of *Timber Litter*, and *Timber with Understory*. Primary tree species include mixed sizes of Douglas Fir, Western Hemlock, with scattered cedar. Local timber litter is compact to fluffy with green moss. Shrub and understory species include mixed hardwoods, and dog-hair conifer thickets. Large snags and heavy fuel concentrations are common throughout all areas. Live woody fuels are marginally contributing to fire rate of spread and fire intensity. Fuel conditions change by elevation, and aspect. Low crown base height (ladder fuels) and thick moss are present in most of the timbered areas. *Lots of hardwood leaf litter*.

<u>Today's potential fire behavior</u> will likely include areas transitioning from smoldering/creeping to areas of active surface fire spread with flare ups and occasional torching. Primary spread mechanism will include wind affected surface fire. Wind/slope alignment on slopes and along drainages may contribute to flare ups with torching and short head fire runs with spotting. Fire activity may extend through the night with low RH and wind. Resistance to suppression efforts may be challenged due to wind driven high intensity fire behavior. Very high re-burn potential is patchy/lightly burned areas. Moss may contribute to torching and spotting.

* Fine fuel moisture= 5%-7%, 1000hr. moisture=12%, Woody fuels 190%, Probability of Ignition-60%-80%

Fuel Type	Rate of Spread	Flame Length	Spotting Distance	25 MPH Gusts FPM / F			
If your work area includes -	(CH/HR = FPM)	Feet					
Timber Litter (TL5) Heavy	3-5	2	0.4 mi.	6-8 / 2-3'			
Timber w/ Understory (TU5) Heavy	6-8	6-8	0.4 mi.	10-12 / 7-9'			
Timber w/ Understory (TU2) Moderate	7-9	3-4	0.4 mi.	15-20 / 4-5'			

Specific Assignments:

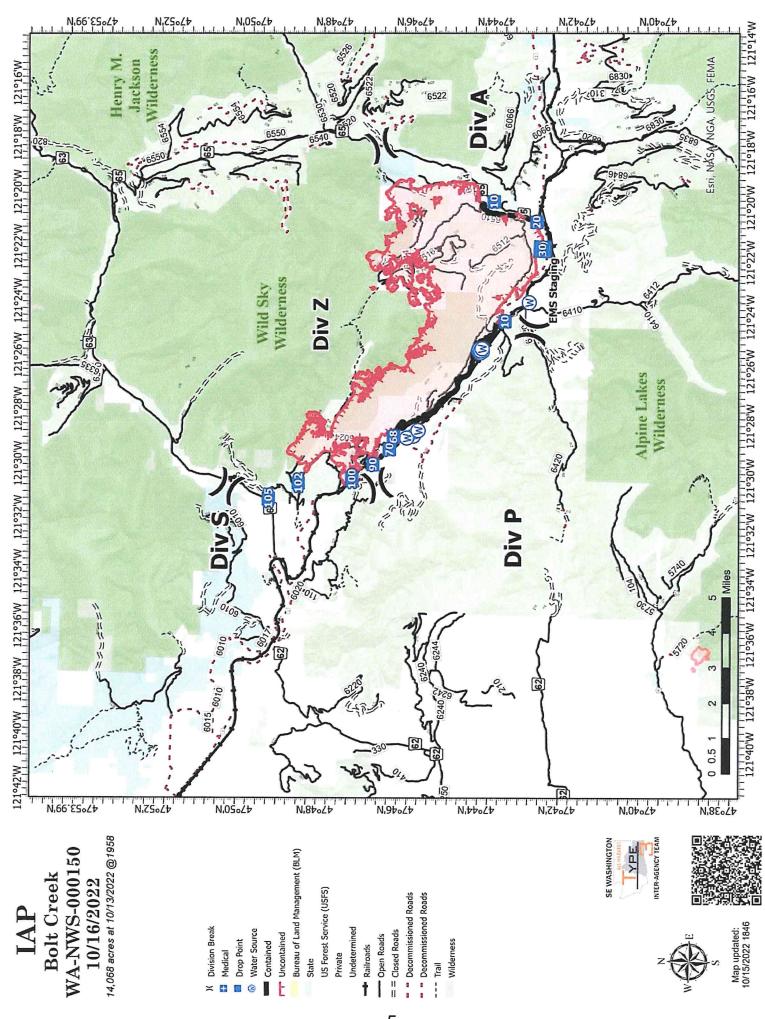

- **Div.** A Monitor fire activity on lower slopes for flare-ups. Expect increased activity in freshly burned areas north of Skykomish for due to river flow winds. Expect more active flare ups at Eagle Cr. and Beckler River, and SW/SW Sec. 6 below 6510.
- Div. S Monitor flanking/backing on Heybrook Ridge, and 6022 Rd. (Sec. 26), and increased activity in lower Barclay Creek (Sec. 35).
- Div. P Monitor increasing east wind flow. Expect areas of re-burn. Expect rolling materials on steep slopes above Hwy. 2.

Air Operations: May be impacted by dense smoke downwind of active fire areas (horizontal column). Expect wind channeling.

Safety

It's a HEAD's-UP day for fire behavior.......Excellent day to review the back cover of your IRPG — ensure the STANDARD FIREFIGHTING ORDERS are followed, and WATCHOUT SITUATIONS are understood. Potential for very active fire behavior today. Lots of fresh faces on the fire — share what you have observed.

^{*}Todays Fire Behavior Forecast contains 620 words (-61 from previous) written for your situational awareness.

6. Control Operations/Work Assignments:

Task: Hold fire from crossing Hwy 2, reinforce primary control lines, and maintain patrol status within the division. Maintain IA readiness.

Purpose: Confine the fire to its current footprint. Limit the impacts of fire spread around infrastructure, structures, timber, and other identified values at risk.

End State: Fire is confined to the existing footprint and defensive preparations are in place around all infrastructures and structures.

7. Special Instructions:

Special Notice: STEN and engines with astricts (***) next to their resource number are part of the Strike Team that will be used for IA.

- · Utilize Field Maps and Avenza to input suppression repair needs.
- Text weather to IMET at 240-778-5298 at 1400 hours.
- Notify WA DOT of trees or debris falling on the highway.
- When addressing road hazards, utilize a vehicle equipped with emergency warning lights after blocking the roadway.

6. Control Operations/Work Assignments:

Task: Hold fire from crossing Hwy 2, reinforce primary control lines, clear roadways to provide for safe travel, and maintain patrol status within the division. Maintain Initial Attack availability.

Purpose: Confine the fire to its current footprint. Limit the impacts of fire spread around infrastructure, structures, timber, and other identified values at risk.

End State: Fire is confined to the existing footprint and defensive preparations are in place around all infrastructure, structures, and roads are cleared of debris reducing the hazards to firefighters and the public.

7. Special Instructions:

- Ambulance (E-185), "AMBO2", is staged at Money Creek.
- · Improve spur 120 off of 6022 Road
- Reassess current indirect line placement for effectiveness.
- Text weather to IMET at 240-778-5298 at 1400 hours.

6. Control Operations/Work Assignments:

Task: Prepare for firing operations in all divisions by assessing, documenting, consulting, and ordering supplies as needed. **Purpose**: Construct a firing plan to contain the fire within the identified contingency lines, protect structures, protect infrastructure, and keep the fire from crossing Hwy 2.

End State: Fire containment with minimal growth, no infrastructure or structural damage, and protection of values at risk, including the forest and timber.

7. Special Instructions:

- · Utilize aviation resources as needed.
- Coordinate with the appropriate Division Supervisor to align the resources needed to assist in holding the fire operations within the containment lines.
- · Do not conduct firing operations if outside the prescription plan perimeters.
- Notify the Structure Protection Group to implement Lookout management action points (MAPs) should any firing operations cross 6022 Road.

6. Control Operations/Work Assignments:

Task: Hold fire from crossing Hwy 2, implement the structural defense plan with an emphasis on perimeter control, and maintain patrol status within the division.

Purpose: Confine the fire to its current footprint. Limit the impacts of fire spread around infrastructure, structures, timber, and other identified values at risk.

End State: Fire is confined to the existing footprint and defensive preparations are in place around all infrastructure and structures.

7. Special Instructions:

- Maintain awareness of construction traffic along 63 Road.
- Validate the structure protection plan.
- If the fire crosses 6022 Road, implement the structure protection plan at Haybrook Lookout.

SAFETY MESSAGE/PLAN (ICS 208)

1. Incident Name: BOLT CREEK FIRE
2. Operational Period: Date From: 10/16/22 Time From: 0700
3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:

Major Hazards & Risks: Driving, Working Along Roadway, Hazard Trees, Steep Terrain, Rolling Material, Rugged Access, Cumulative Fatigue, Heavy Equipment Operations

Hazard Tree Secure Falling Area

- A secure felling area, MINIMUM OF TWO AND ONE HALF (2.5) TIMES THE HEIGHT OF THE MATERIAL BEING FELLED IN ALL DIRECTIONS, needs to be established and maintained by the faller during all tree felling operations. In addition, the entire downhill side on slopes must be secured if materials can fall/role for a long, unpredictable distance.
- No one shall be permitted in the secured felling area without the authorization of the faller.
- The faller shall establish a safety zone outside the secured area and direct EVERYONE to remain there until all felling is completed and an "all clear" has been communicated.
- Safety zones should be established, whenever practical, in the opposite direction of the planned fall, and at a distance of at least 2.5 times the height of the trees being felled.
- The faller shall assign lookout(s). The lookout(s) shall have reliable communications with the faller, and other personnel adjacent to the secure areas.
- Competent lookouts shall be established and maintained by the faller at all major access points roads and trails that afford access to the secured felling area.
- The faller will ensure that no hazards remain such hang-ups, unstable logs, or other dangers before approving access or leaving the secured area.

TELL JOHNSON THAT THE SAFETY OFFICER WOULD LIKE TO SPEAK WITH HIM...THE SOONER THE BETTER

Identify Escape Routes and Safety Zones and Make Them Known.

Did you lose or find something? The PIO booth in the corner of the Incident Command Post is the place for Lost and Found. Be prepared to describe what you are looking for. If you're turning something in, please give us time and location of what you found.

Need to mail something? Drop it by the PIO booth and we will drop it in a mailbox for you.

Code of Conduct Incident Personnel

Each individual on this incident is responsible for:

- Being *ready and able* to perform their assigned duties effectively.
- Conducting themselves in a manner that treats people with dignity, equality, courtesy, and respect.
- Abiding by agency ethics and conduct regulations.
- Reporting any harassment or other inappropriate behavior.

Each individual of this incident has the right to:

- Work in an environment characterized by safe work practices.
- Work in a fair and harassment free environment.
- Say "No" to unwelcome advances or requests for favors.
- File complaints or grievances through appropriate avenues.

There is zero tolerance for inappropriate behavior while assigned to the incident, including:

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening, and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties.
- Other violations of Fire Service, Washington DNR, and Federal agency standards of conduct.

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

ALL PERSONNEL WORKING AROUND OFFENDERS/DNR KITCHENS

This message is from the Department of Natural Resources and Department of Corrections.

- No person shall be allowed to carry firearms in the area where offenders are working. It is acceptable to secure weapons in vehicles while entering into the working vicinity of offenders.
- ▶ Do not give or take anything from an offender. Offenders are identified by red ball caps or red hard hats.
- ▶ <u>Do NOT</u> take photos or interview offenders without approval from the DNR Inmate Liaison.
- ▶ <u>Do not do any favors for offenders.</u> (Examples: passing on a message, giving tobacco, asking for change, mailing a letter, using a phone. The most innocent act/favor can have consequences that could affect an offender for years.)
- ▶ Report any suspicious act to the Supervisor, DOC Staff or Inmate Liaison.
- ▶ Offenders are not allowed to use tobacco products. <u>Do not use tobacco products in or around kitchen area.</u>
- ▶ Offenders on DNR Crews have committed various crimes. They <u>ARE</u> considered minimum level custody.
- ► Treat Offenders with respect, but <u>don't get personal</u>. Practices the correctional distance...<u>don't get personal</u>. Offenders generally feel good with being part of the fire suppression effort; treat them with the same respect and dignity as other fire fighters but, <u>DON'T GET PERSONAL</u>.
- ▶ Offenders are trained in their job assignments and their work ethics. They are held accountable for their job performance and their behavior.
- Acknowledge crews for a job well done; offenders do good work and appreciate the recognition.
- ▶ Offenders need good professional role models as part of their rehabilitation process. Consider their presence and set good examples by the context of your conversation and choice of language used.

BOLT CREEK FIRE

ANDY PALMER/DUTCH CREEK EMERGENCY MEDICAL EVACUATION TIMES

LEADER'S INTENT: To establish **approximate** travel times from key areas of the fire to Skykomish Airport, as well as area hospitals by ground transportation. See Medical Plan (ICS206) for travel times via air and Heli spot Lat and Long. Not all DPs are on the chart. Travel times are approximate, and one should always consider weather, time of day, traffic, and road/trail conditions.

Ground	Skykomish	Evergreen	Providence Medical	Harborview
Transport	Airport	Health Monroe	Center (Everett)	Medical Center
Only			* .	(Seattle)
DP-10	4 Mins	50 Mins	1 Hr 10 Mins	1 Hr 30 Mins
(Beckler River CG)				
DP-20	2 Mins	45 Mins	1 Hr 5 Mins	1 Hr 25 Mins
