<b>Incident Name:</b> Siouxon WA-GPF-001208	<b>IR Interpreter(s):</b> Max Wahlberg	<b>Local Dispatch Phone:</b> Columbia Cascade (360-891-5140)	<b>Interpreted Size:</b> 1,792 acres <b>Growth last period:</b> +866 acres
<b>Flight Time:</b> 1843 PDT <b>Flight Date:</b> 10/16/2022	<b>Interpreter(s) location:</b> Bend, OR <b>Interpreter(s) Phone:</b> 503-319-9582	<b>GACC IR Liaison:</b> Jim Grace <b>GACC IR Liaison Phone:</b> 541-771-4521	<b>National Coordinator:</b> Tom Mellin <b>National Coord. Phone:</b> 505-301-8167
<b>Ordered By:</b> WA-GPF (360-891-5140)	<b>A Number:</b> A-15	<b>Aircraft/Scanner System:</b> N350FV / TK9	<b>Pilots/Techs:</b> Tech: Wren
<b>IRIN Comments on imagery:</b> Imagery was clean with no major issues. Good rectification.		<b>Weather at time of flight:</b> Clear	<b>Flight Objective:</b> Map Heat
<b>Date and Time Imagery Received by Interpreter:</b> 10/16/2022 @ 1920 PDT		<b>Type of media for final product:</b> PDF Map, gdb, kmz.	
<b>Date and Time Products Delivered to Incident:</b> 10/16/2022 @ 2317 PDT		<b>Digital files sent to:</b> NIFS, NIFC FTP.	
<b>Comments / notes on tonight's mission and this interpretation:</b> <p>Tonight's mapping included two additional scan boxes added at the last minute. These additional scan boxes include the Black Hole Incident which is located NW of Siouxon and the Sunset Incident which is located south of Siouxon.</p> <p>Siouxon: Mapping used last night's IR as a base as it matched the incident event polygon. The fire expanded significantly to the west / northwest with multiple spot fires mapped west of the main fire. Numerous spot fires were mapped on the northwest side of Siouxon Creek north of river mile 10. The continuity of these spot fires continues in a straight line west northwest to the Black Hole perimeter. Intense heat was mapped along the fire's western and southern edges. Multiple spot fires were mapped on both the north and south portions of Horseshoe ridge. Siouxon was mapped at 1792 acres tonight.</p> <p>Black Hole: The Black hole incident is located northwest of Siouxon and consists of one large polygon of intense heat with multiple spot fires further northwest from the main heat perimeter. The Black Hole Incident was mapped at 300 acres.</p> <p>Sunset: The Sunset fire is located along the north side of the East Fork of the Lewis River approximately 7.5 miles southwest of the Siouxon Incident. The fire is located on the southwest facing slope north of the river, between the 42 road and FS road 541. All the mapped heat was located north of the river, though some heat was detected south of the 42 road between the river and the road. The Sunset Incident was mapped at 129 acres.</p>
