## INCIDENT ACTION PLAN

CHILCOOT: OR-UPF-0000345  
RIDGE: OR-UPF-0000346

## INCIDENT OBJECTIVES (ICS 202)

<b>1. Incident Name:</b>		<b>2. Operational Period:</b> 0700-1900	
CHILCOOT / RIDGE		Date/Time From: 09/01/2023 0700      FRI	Date/Time To: 09/02/2023 0700      SAT
<b>3. Objective(s):</b>			
<u>Management Objectives:</u>			
<ol style="list-style-type: none"> <li>1. Provide for firefighter and public safety as the highest priority through sound risk management and Life First Principles.</li> <li>2. Protect high value assets such as communities, private high value timberlands and critical infrastructure.</li> <li>3. Ensure timely and accurate information sharing with public, adjacent landowners, cooperators and other interested parties.</li> <li>4. Build and maintain existing relationships between agencies, landowners and communities.</li> <li>5. Work with Resource Advisors to protect cultural and natural resources.</li> <li>6. Ensure that costs are commensurate with values at risk.</li> </ol>			
<u>Control Objectives</u>			
Keep the fires: North of Highway 138 South of Douglas/Lane County Line East of Archie Creek Burn Scar West of Lemolo Lake			
<b>4. Operational Period Command Emphasis:</b>

**Chilcoot Fire**

National Weather Service Medford

2023-08-31 6:04 PM PDT

Spot Forecast for Chilcoot Fire...USFS

National Weather Service MEDFORD OR

604 PM PDT Thu Aug 31 2023

Forecast is based on forecast start time of 0600 PDT on September 01.  
If conditions become unrepresentative...contact the National Weather Service.

.DISCUSSION...A deep upper trough and closed low pressure system will bring cooler, moist and showery weather area wide tonight through Saturday. The showers and also some embedded thunderstorms will likely produce wetting rainfall in many areas, though amounts will vary widely due to the showery nature of the precipitation. Thunderstorms will have the ability to produce brief, heavy downpours that could result in minor debris flows on the most harshly burned areas or across unstable roads. The low should move to the east on Sunday, but there is still a chance of showers in the mountains as temperatures trend warmer a few degrees.

.FRIDAY...

Sky/weather.....Partly sunny (65-75 percent) then becoming cloudy (90-100 percent). 45% chance of rain showers in the morning, increasing to 80% in the afternoon. The chance of an isolated thunderstorm is 35%.  
Max temperature.....Higher Elev.- around 65 degrees  
Lower Elev. - around 71 degrees.  
Min humidity.....Higher Elev.- near 78 percent  
Lower Elev. - near 70 percent.  
Eye level winds....Higher Elev.- north at 1 to 2 mph.  
Lower Elev. - north at 1 to 2 mph becoming northeast at 1 to 2 mph in the evening.  
Wind (20 ft).....Higher Elev.- north at 1 to 2 mph.  
Lower Elev. - north at 1 to 2 mph becoming northeast at 2 to 4 mph in the evening.  
Gusty and erratic winds expected near thunderstorms.  
Mixing height.....4200 ft AGL.  
Transport winds....Northeast around 7 mph.  
CWR.....57 percent.  
LAL.....2.

.FRIDAY NIGHT...

Sky/weather.....Mostly cloudy (70-80 percent). 45% chance of rain showers in the evening lower to a 25% chance by the early morning. The chance for an isolated thunderstorm in the evening is 20%.  
Min temperature.....Higher Elev.- around 42 degrees  
Lower Elev. - around 53 degrees.  
Max humidity.....Higher Elev.- near 100 percent  
Lower Elev. - near 90 percent.  
Eye level winds....Higher Elev.- North at 1 to 3 mph.  
Lower Elev. - Calm or at times north at 1 to 2 mph becoming east at 1 to 2 mph after midnight.  
Wind (20 ft).....Higher Elev.- North at 2 to 5 mph.  
Lower Elev. - North at 1 to 3 mph becoming east at 2 to 5 mph after midnight.  
\*Gusty, erratic winds are possible near thunderstorms.  
Mixing height.....100 ft AGL.  
Transport winds....Southeast around 7 mph.  
CWR.....40 percent (for 0.1", the chance for 0.25" is 25%).  
LAL.....2.

.SATURDAY...

Sky/weather.....Partly sunny (60-70 percent). 30% chance of rain showers in the morning, then a 70% chance for rain showers in the afternoon. The chance for an isolated thunderstorm is 35%.  
Max temperature.....Higher Elev.- around 70 degrees  
Lower Elev. - around 75 degrees  
Min humidity.....Higher Elev.- near 50 percent  
Lower Elev. - near 40 percent  
Eye level winds....All elevations- southeast at 1 to 2 mph shifting to the west at 1 to 3 mph after noon.  
Wind (20 ft).....All elevations- southeast at 2 to 5 mph in the morning becoming west at 3 to 7 mph in the afternoon.  
Gusty and erratic winds expected near thunderstorms in the afternoon.  
Mixing height.....7200 ft AGL.  
Transport winds....Southeast around 6 mph becoming west-southwest around 6 mph in the afternoon.  
CWR.....60 percent (for 0.1", the chance for 0.25" is 40%).  
LAL.....2.  
\$\$

## FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 4	<b>TYPE OF FIRE:</b> Wildland Fire
<b>FIRE NAME:</b> Chilcoot-Ridge	<b>OPERATIONAL PERIOD:</b> September 1, 2023
<b>DATE ISSUED:</b> 8/31/2023	<b>TIME ISSUED:</b> 1800
<b>UNIT:</b> USFS-OR-UPF	<b>SIGNED:</b> Andrew Myhra – FBAN(t), Jason McGovern FBAN

### INPUTS

**WEATHER SUMMARY:** Temps in mid 60s. Min RH in high 70s. Winds N at 1-2 mph.  
\*\*\*See Weather Forecast for detailed information\*\*\*

### OUTPUTS

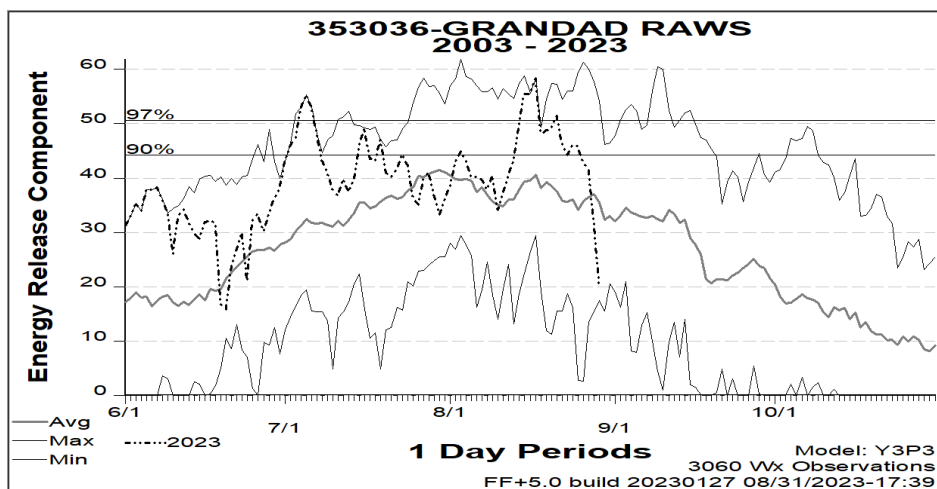

#### FIRE BEHAVIOR

##### GENERAL:

Low pressure system continues to impact the fire area with cooler, wetter conditions through Saturday. Precipitation potential and elevated RH will continue to hamper fire activity through the holiday weekend. Fine dead, live herbaceous, and live woody fuels will be unavailable to fire spread. Fire activity will be confined to concentrations of timber litter and heavy logs where rate of spread will be minimal. Potential remains for rollout and falling trees to come to rest in receptive fuelbeds of heavy fuels outside the current fire perimeter.

Isolated torching is possible where intense heat exists under dense canopy with ladder fuels. Spotting potential is very low with a forecast PIG in the 10-20% range.

Energy Release Component (indicative of fire resistance to control) has plummeted to well below average for this time of the fire season. Rebound of ERC values will lag behind the return of warmer, drier weather conditions.

ERC (North Umpqua FDRA – Granddad and Toketee RAWS) 9/1 Forecast Value 17 at the 62<sup>nd</sup> Percentile.

#### SPECIFIC:

**Chilcoot:** Minimal fire spread. Fire activity will be primarily concentrated in jackpots of heavy logs (TL7) and areas of high load conifer litter (TL5). Falling snags and rollout may find receptive fuels outside current perimeter.

**Ridge:** Minimal fire spread. Fire activity will be primarily concentrated on the west perimeter under dense canopy where heavy fuels are sheltered. Falling snags and rollout may continue to pose a risk to containment lines.

**Night:** Foggy conditions may mix with smoke and severely impact visibility. Snags and burning logs high on the slope will continue to consume and roll downhill.

#### AIR OPERATIONS:

Showery weather and cloud cover will continue to limit visibility.

#### FIRE BEHAVIOR SAFETY:

Hemlocks have a shallow root system and are prone to burning out at the base. Even a green, healthy tree can come down silently and without warning.

## Division/Group Assignment List (ICS 204 WF)

Controlled Unclassified Information//Basic

<b>1. Incident Name:</b>			<b>3.</b>			
CHILCOOT / RIDGE			<b>Branch:</b>	<b>Division/Group</b>  DIV D		
<b>2. Operational Period:</b> 0700-1900						
Date/Time From: 09/01/2023 0700	FRI	Date/Time To: 09/02/2023 0700	SAT			
<b>4. Operations Personnel</b>						
<b>OPERATIONS CHIEF</b>		JOHN OWINGS J.T. SOHR (T)		<b>BRANCH DIRECTOR</b>		
<b>DIVISION/GROUP SUPERVISOR</b>		ZACH PALMER		<b>AIR OPERATIONS</b>		KYLE BEINSCHROTH
<b>5. Resources Assigned this Period</b>

**Message**

<b>Incident:</b> Chilcoot/Ridge Fires OR-UPF-000345/46	<b>Date/Op Period:</b> Day/ Night Shift Friday 9/01/23
---	---

**Hazards & Risks**

**Public Encounters:** There may be an increase in public encounters between fire personnel, local residents and forest visitors this weekend due to the Labor Day holiday. Be aware of increased traffic flow on all the highways and forest roads. Area closures are in place but not everyone knows of them or chooses to abide by them. Be respectful of private property boundaries and make an effort to avoid confrontations. Be kind but firm in advising the public of the dangers of entering the fire area. Remember that the local folks are dealing with us and the fires.

**Hazard Trees :** Not all trees that are often considered ‘snag hazards’, are standing dead trees. Several “green tree” hazard alerts have been issued the last few years. The Hemlocks and high elevation Fir species tend to have a shallow root system that is susceptible to surface fires and falling over, without any damage to the crown. When working in these areas, there is an increased risk for you, or your vehicle being struck by a falling tree. Select a safe spot to park your vehicle. Some environmental conditions that increase risks of working in these areas are strong or gusty winds, steep slopes, and fire weakened timber. Minimize exposure by limiting the amount of time you are in the area or staying out of the area all together. Use heavy equipment when possible. Use lookouts and maintain communications with lookouts. Always have a medical plan in place for the worst-case scenario.

**Night Operations:** Many unseen hazards await the night shift. Besides darkness; dust, smoke and headlight glare can further reduce visibility. Attempt to drive and scout out your work area in daylight. Use flagging and chemsticks to identify travel routes and hazards. Manage firefighter fatigue by taking short naps if possible. Post lookouts. Use appropriate lighting on your vehicles, especially when working along roadsides.

<b>FED Equipment/ Crews:</b> <ul style="list-style-type: none"> <li>Manifest - showing employment type (GS or WG) or AD rates if applicable</li> <li>Resource Order</li> </ul>	<b>Overhead:</b> <ul style="list-style-type: none"> <li>AD/Casual Hire Form</li> <li>Resource Order</li> <li>If regular Agency please ensure “GS” or “WG” is written on your CTR</li> </ul>	<b>Contract Equipment/ Contract Crews:</b> <ul style="list-style-type: none"> <li>Agreement</li> <li>Manifest</li> <li>Resource Order</li> <li>Inspections</li> </ul>	<b>Cooperator:</b> <ul style="list-style-type: none"> <li>Cooperative Agreement</li> <li>Resource Order</li> </ul>

### When emailing finance:

- Overhead/FED: *subject line:* TIME, Resource #, Resource Name
- Equipment/Cooperator: *subject line:* EQTR, Resource #, Resource Name
- Comp/Claim: *subject line:* Comp or Claim, Resource #, Resource Name

**Prior to your demob date, please contact Finance *via email* to expedite the demob process.**

**Upon submittal of your final CTR/Shift Tickets, Finance will email you copies of your pay documents for review and signature.**

## PIO Message

### WE NEED YOUR PHOTOS AND VIDEO

Please submit photos and/or video of the amazing work you are doing on the Chilcoot Fire. The public greatly appreciates what you are doing to protect their community and enjoy seeing what you are doing out there. We will post to Facebook, Twitter and InciWeb.

Please send to the Public Information Officers:

2023.Chilcoot.@firenet.gov

### LOST & FOUND

If you lost something or found something please stop by the PIO trailer. We will help find the owner of found items or let us know what you lost.

### MAIL SERVICE

If you have stamped mail that needs to be sent out drop it off at the Information trailer or with one of our PIO's

Chilcoot Fire Camp  
(Your Name and E or O Number) 373 French Creek  
Rd  
Glide, OR 97443

---

## Liaison Message

If you would like to be a part of our Cooperators Team, please use these links below and we will include you on our contact sheet, along with a meeting invite with a Teams link, and an agenda.

Thank you

# Resource Protection During Fire Suppression on U.S. Forest Service Land

## Chilcoot Ridge Fire

### Aquatics:

- Do not use fire-fighting foam, gel or other chemicals within 30 feet of streams or in any ponds or wetlands.
- Keep extra jerry cans for pumps at least 10 feet from stream channels and place them on absorbent pads to prevent fuel spills
- Draft/dip water only at approved designated sites. Do not reduce water below 1/3 of original streamflow or pond level unless approved by READ.
- Keep Aerial retardant 300 feet from any stream with water in it (use retardant avoidance maps)
- Do not cut through instream wood when building line.
- Use 3/32" screens when drafting in fish-bearing streams, READs have these if needed.
- If dip site known to have invasive species must be used, disinfect bucket before moving to different dip site.

### Dozers:

- Stop dozer line 100' from live streams, finish with handline. No dozer line in wet areas, meadows or trails.
- If opening roads with dozer, identify and avoid culverts, push material to outside of road shoulder keeping material out of ditches.

### Meadows, Cultural, Owls, Bridges:

- Do not drive vehicles into meadows; use low water pressure (no straight streaming) and no digging, in order to protect soils/plant bulbs; don't construct drop points, parking areas or safety zones; fall hazard trees away from mapped site location .
- Notify resource advisor if cultural resources are encountered. Leave all artifacts in place and provide GPS coordinates for locations.
- Avoid suppression activities in and around owl cores where possible.
- Review bridge permit requirements prior to transporting equipment over Forest bridges. *All equipment shall be transported by lowboy or trailer over bridges, **no equipment walking.***

### Personal Hygiene:

- Bury your business and paperwork a minimum of 6" deep, at least 200' from any water source.
- Do not introduce soap, shampoo or other chemicals into rivers, streams, or ponds/lakes.

If in doubt ask a READ, we are here to help you in fire suppression efforts while trying to minimize damage to resource values.

## Logistics Operating Hours

Caterer:	Breakfast 0600-1000	Dinner 1800-2200
Shower:	0500-1200 and 1400-2200	
Laundry:	0500-2200	
Supply (R&D):	0630-2000	

### Medical Trailer

Over the counter items and 1<sup>st</sup> Aid: 0630-2200

## Logistics Message

Please adhere to camp traffic patterns and posted signs. Do not park your vehicles within the designated tent area to the north side of the base.

Shower gets busy between 2000 and 2130. Avoid showers during these hours and you might spend less time in line.

Have a safe shift!
