	INCIDENT OBJECT	IVES (ICS 202)		
1. Incident Name:	2. Operational Period:	: DAY		
DINNER, GRIZZLY & BRICE CREEK FIRI	ES Date/Time From:		Date/Time To:	
, -	09/03/2023 0700	SUN	09/03/2023 1900	SUN
3. Objective(s):				
Control Objectives: Identify, evaluate and reduce risks to firef	ighters and the public thr	ough the use of Delit	perate Risk Assessmer	nt process.
 Minimize acres burned and impacts to conguide operations in the development of strategic actions that have the including: Bohemia Mining District Fairview Communication site 	ommunities and infrastruct ategies and tactics to be i	cture by utilizing the li implemented by reso	ncident Strategic Align urces on the Grizzly, D	ment Process to Dinner, and Brice
 Private industrial and non-industrial timber Infrastructure & Recreation Protection of habitat for Threatened and I 				
Management Objectives: Treat each other with dignity and respect Work Closely with Agency Administrators natural and cultural resources at risk from s Maintain and enhance relationships with stimely information. Manage cost commensurate with values	and Lead Resource Adv suppression actions. cooperators, stakeholders	risor to plan and impless, landowners, and co	ement actions that prot	ect sensitive
4. Operational Period Command Emphasis:				
Implement strategies and tactics to achieve of success. On Dinner and Brice Creek fire burnouts of indirect firelines as needed to radditional growth. Complete structure prote Ensure initial attack support readiness to re	es, continue to secure, mo minimize additional fire sp ection assessments and p	op-up and patrol exisoread. On Grizzly, coollans and continue to	ting firelines, prepare for ntinue to monitor fire be prep contingency lines	or and complete ehavior for sa needed.
General Situational Awareness:				
These fires are burning in very steep and of With the moderated weather conditions an need to be in place to minimize exposure.

Fire Weather Forecast

FORECAST NO: 4 NAME OF FIRE: Dinner, Grizzly, Brice Creek Fires

FORECAST FOR: Sun, Sep 3, 2023 Day Shift
FORECAST ISSUED: Sat Sep 2, 2023, 1800 PDT

UNIT: OR-UPF-000357
SIGNED: Bob Tobin - IMET

WEATHER DISCUSSION: The upper-level low is expected to begin to shift to the east on Sunday in response to several weak and shallow waves moving into the Pacific Northwest. This will keep the mention of showers in the forecast Sunday and Monday. The heaviest showers may likely be Sunday night. Temperatures will remain on the cool side of normal through Monday. Morning fog and low stratus will be probable in the valleys and canyons both Sunday morning and Monday morning. Tuesday will be a transition day as the closed low kicks off to the east and another shallow wave moves along the B.C. border and northern Washington on Wednesday. Any precipitation with the Wednesday system will remain north of the area, but it will keep the flow westerly resulting in temperatures on the cool side of normal.

TODAY: Cloudy. A chance of showers.

Max Temperature(°F): (Valleys) 67-72 (1-3 cooler) Min RH: (Valleys) 55-65% (little change)

(Ridges) 65-70 (1-3 cooler) (Ridges) 55-65% (little change)

20 FT Winds:

Valleys and Slopes: Becoming upslope 4-7 mph after 1100.

Ridgetops: SSE 3-5 mph...becoming WNW 5-10 mph after 1100.

CWR (0.25"+): 20% Inversion Break/Mixing Heights: 1030/3800 ft. LAL: 1 Haines: 2 (Very Low)

TONIGHT: A chance of showers through the night. Low clouds and areas of fog.

Min Temperature (°F): Max RH:

Valleys 50-55 Ridgetops 48-52 **Valleys** 90-100% **Ridgetops** 85-95% 90-100%

20 FT Winds:

Slope/Valleys: Downslope/drainage 3-5 mph after 2000.

Ridgetops: WNW 4-7 mph.

CWR (0.25"+): 25% **LAL:** 1. **INVERSION:** Weak inversion after 1900.

EXTENDED OUTLOOK:

Monday... Mostly cloudy. A chance of showers. Highs 60-70. Relative humidity 55-65% Winds: NW 5-10 mph.

Tuesday and Wednesday...Mostly sunny. Highs 60-70. Humidity: 45-55% WNW 8-12 mph.

PLEASE submit your weather observations to the IMET.

Snap a picture of your observations and text them to: (509) 844-7003

FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 4	TYPE OF FIRE: Wildfire
FIRE NAME: Dinner, Grizzly, and Brice Creek	OPERATIONAL PERIOD: 0700-1900 September 3, 2023
DATE ISSUED: September 2,2023	TIME ISSUED: 2000 Hours
UNIT: Umpqua National Forest	SIGNED: Don Strand – FBAN, Bryan Gaines FBAN (t)

INPUTS

WEATHER SUMMARY: See Fire Weather Forecast for Details

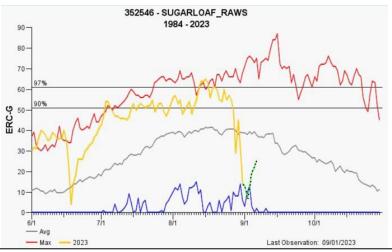

FUELS:

Fuels in the fire area are primarily composed of *Timber Litter*, and *Timber Understory with moss/lichen present in most stands*. Mature conifer stands with western hemlock and Douglas fir present, generally have heavy surface fuel loading. 30 to 50+ year old second growth conifer stands contain needle litter and some down woody debris. Brush and reproduction present in areas with less dense canopies.

OUTPUTS

FIRE BEHAVIOR GENERAL:

Minimal fire behavior is expected with little to no perimeter growth. Continued smoldering in duff, larger down logs and forest debris.

Rebound of ERC values will lag behind the return of warmer, drier weather conditions.

FIRE BEHAVIOR SPECIFIC:

Dinner Fire, Grizzly, and Brice Creek Fires: With Thursday's moisture and today's forecast for additional moisture, minimal fire activity is expected with little to no perimeter growth. Areas of heavy dead and downed fuels will continue to consume along with ground fire in the duff. Burning standing dead trees will continue to burn creating arial hazard. The moistened soil will increase the chance of burning rolling debris carrying fire across containment lines. Even though these spot fires may not grow with the high fuel moistures there is a possibility they may when conditions return to a drying trend.

Initial Attack: In the event resources respond to a new start, recognize that fuels and topography may be different than areas you have previously worked in.

AIR OPERATIONS: Low clouds and fog may prohibit air operations over the fires.

SAFETY

Continue to watch for fire weakened trees and snags. Potential for roll outs of larger material on steeps slope.

INCIDENT: DINNER/ GRIZZLY/ BRICE CREEK OPERATIONAL PERIOD: 0700-1900

TOPICS:

MANAGING THE MAYDAY

The four (4) W's of size up: While we fight fires of varying complexities throughout the year, we rarely (and thankfully) deal with managing the EMS incident from beginning to end. This can be a daunting and stressful task for personnel. While the Emergency Plan is a useful tool, the four (4) W's is simple, easy and provides you with a guide to establish most of the pertinent information needed to successfully manage the IWI.

"W"hat do I have?
"W"hat am I doing?
"W"hat do I need?
"W"ho is in command?

We call this the 30 second blueprint for success. While it may not answer all the questions needed, it certainly gets you off on the right foot.

DELIBERATE RISK ASSESSMENT SUMMARY

NW12 utilizes a hazard summary to show the hazards, risk level and mitigations from the Deliberate Risk Assessment Process. You will find this summary in the IAP. Be sure to review and provide feedback to your DIVS and Line Safety.

Very little on the fire falls up.

BEWARE OF MINESHAFTS: SEE RESOURCE ADVISOR MESSAGE!

SAFETY OFFICERS: Jack Cates, Troy Corn

Deliberate Risk Assessment-Hazard Summary 3 SEPT 2023

Hazard	Mitigation	Post Risk
Extraction Time	Identify medivac sites and helispots. Initiate ground transport to accident site for transport capability. Identify EMT/EMTP from resources assigned to division. Provide line-qualified paramedics to each	HIGH
	division as available. Review IWI protocol to ensure familiarity. Consider Short Haul if conditions dictate. Utilize agency, national guard and civilian medivac as treatment/timing dictates. Evaluate ongoing need for repositioning medical personnel. Provide dust abatement on Helispots as needed.	
Aircraft	Utilize Air Attack. Ensure all resources are a safe distance from all bucket and retardant drops. Establish LCES. Utilize air to ground primary for fixed wing and bucket work as needed. Reference	HIGH
	IRPG (Safe aircraft operations pg. 61-62). Ensure IA resources have coordination with unassigned local air resources to provide deconfliction.	
Hazard Trees	Use avoidance to limit exposure time. Fall ahead to avoid exposure. Use qualified fallers or alternate methods if needed. Conduct on- going risk analysis of all work areas. Follow Hazard Tree Safety Guidelines (IRPG page 20-21).	HIGH
Heavy Equipment	Post lookouts around equipment work areas. Establish communications with equipment boss and operator. Do not work down-slope from equipment. Follow agency guidelines for chipping operations.	HIGH
Physical Factors	Maintain hydration schedule. Closely monitor work rate and implement rest periods. Maintain nutrition. Ensure adequate work/rest.	MODERATE
Fire Behavior/Weather	Be aware of burn windows and weather impacts and min/max RH for flashy fuels/local conditions. Report changes to FBAN and IMET. Establish MAP for disengagement to provide for an orderly retreat if there is a lack of safety zones. Have a plan for disengagement that establishes a designated meeting point and maintains personnel accountability.	MODERATE
Steep Terrain/Gravity	Establish LCES. Do not work crews above or below each other. Post lookouts for rolling material. Watch footing in loose soil, rock and around vegetation. Do not work below heavy equipment. Scout and identify travel routes.	MODERATE
Transportation	Sign all incident roads that provide access to divisions. Provide daily updated travel plan maps. Practice defensive driving. In local communities obey the posted speed limits and follow school zone restrictions. Use reader boards to provide advanced warning and control entry to base camp as needed. Identify and evaluate contingency and alternate escape and travel routes. Provide dust abatement and grading as needed. Provide advanced scouting for transport access and bridge weight restrictions. Maintain awareness of logging haul routes.	MODERATE
Unburned Fuels/Firing Ops	Maintain awareness fuel dryness levels. Establish LCES. Ensure management action points are implemented and followed. Weather updates as needed during burning operations. Locate indirect firelines to minimize unburned fuels. Follow Interagency Ignition Guide. Ensure communications between all firing operations. Establish road security at all firing sites. Follow approved firing plan for unburned fuels. If utilizing aerial ignitions, make sure firing plan is in place, communicated to, and understood by all resources. Utilize separate Air to Ground frequencies for operations as appropriate.	MODERATE
Environmental Factors	Assign medical personnel to camp. Assess for known allergies and report to medical personnel. Obtain Bee Bopper/wasp spray and yellow jacket traps. Maintain an awareness of wildlife and poison oak. Identify and report allergies through your chain of command. Work with READs and GISS to evaluate and identify mineshafts. Avoid, flag and communicate locations of mineshafts. Provide visqueen for rainfall protection.	MODERATE
Structure Protection	Review structure protection plan and ground truth whether defensible. Identify and report compromised service poles and maintain one span avoidance area. Identify downed lines. Treat all powerlines as live. Identify and avoid vehicles, tires, propane tanks, gas tanks and heavy fuels concentrations.	MODERATE
Communication	Evaluate dead zones prior to engagement. Utilize human repeaters as needed. Ensure accountability of resources in problem areas. Spiking resources must have communication coverage.	LOW
Viral Transmission Mitigations, Communicable Disease	Maintain awareness of health and perform self-checks. Report and isolate if not feeling well. Use remote briefings, spike camps and logistical layouts that provide for social-distancing as necessary. Establish liaison with Lane County Public Health.	LOW
Public Interaction	Implement area and road closures as necessary. Maintain a lookout for hunters in and out of closure areas. Maintain awareness of evacuation areas and provide accurate information dissemination. Maintain awareness of hunters and holiday recreation.	LOW
Initial Attack	Ensure identified IA resources are briefed of expectations and ensure communication plan is provided. Ensure resources are briefed on IA command structure. Provide identified crews with area maps.	LOW

6. Control Operations/Work Assi	•			_					

TASK: Construct direct and indirect fireline and secure perimeter.

PURPOSE: Prevent fire from impacting values at risk including: communities to the west, commercial timberlands and T & E habitat

END STATE: Fire is kept north of the 1745 Road and south of the 1746 Road to protect the values at risk through the remainder of the fire season.

7. Special Instructions:

ICS 204 WF (1/14)

For this DIV - add DINNER FIRE to all CTRs & Shift tickets

Chloeta Insurance Contract Engine will be doing structure protection / prep in the area of Row River Road / Brice Creek Road at the following 5 residences:

39440 & 39618 Row River Road / 39910, 40186, & 40297 Brice Creek Rd. Lead is JR Olson at 509-668-6437. Resource will attend morning Briefings and check in with divisions when entering fire area.

RESOURCE ADVISOR MESSAGE

Cottage Grove has a rich mining history and many of these activities are still on the landscape. Adits (horizonal), shafts (vertical), and small pits can still be encountered in the forest. Although many of these have been closed or covered, there may be unknown mines out there. These features can contain poisonous air, deep pools of water, and the constant risk of cave ins. If you come across these, stay out, flag nearby, take GPS points, and bring to SITL so the hazards can be shared. Avoid working in unknown ground at night when you might not see adits as readily.

Demob List for Sunday 09/03/2023 Dinner Fire

EQUIPMENT								
E-15	0730	(ENG4)	DIAMOND ROAD MAINTENANCE					

No Demobs Scheduled for Monday 9/4/2023

No Demobs Scheduled for Tuesday 09/05/2023

Demob List for Wednesday 09/06/2023 Brice Creek Fire

EQUIPMENT								
E-16	0700	(ENG6)	CHILOQUIN RD 654					

Virtual Demob Instructions

DAY BEFORE YOUR DEMOB

Contact FINANCE 24 hours to advise departure, turn in any outstanding CTR/Shift Tickets. Make sure they are SIGNED. Confirm there are no missing financial documentation.

ANY OR ALL OF THE STEPS CAN BE COMPLETED THE NIGHT BEFORE TO SPEED UP THE DEMOB PROCESS

DAY OF DEMOB - STEP 1

Contact Demob at 509-432-6143 to determine your specific next steps since we are pre-clearing resources that do not have any supplies or communications equipment checked out. Honor you assigned Demob time as best as you can.

STEP 2 (When Set Up)

All line resources that went off-road must go through the weed wash (see IAP for locations) after your last shift. Weed wash station staff should give you a ticket after completion.

STEP 3 (If directed by Demob)

GROUND SUPPORT – Return incident rental vehicles; <u>ALL</u> contractors need inspection. SUPPLY – Return issued gear and leftover supplies. COMMUNICATIONS – Return any communications equipment. SITUATION UNIT – Return any issued I-Pad or GPS devices.

STEP 4

Proceed to FINANCE to complete closeout process, review/sign OF-288.

STEP 5

Proceed to CHECK-IN to turn in any Unit Logs or Evaluation documentation. Contact the Training Specialist if needed.

STEP 6

Once steps 1-6 are complete, finish the Demob process by calling 509-432-6143 with departure time, final destination and destination arrival time.

ALL AIR TRAVELERS

Submit your request 72 hours prior to flight date through the QR Code on the IAP Cover. Call 509-432-6143 for any questions or assistance.

NIGHT SHIFT PERSONNEL

All night shift personnel coming off the line will be required to meet work/rest requirements before starting the Demob process.

EXTENSIONS AND CREW SWAPS

All extension and crew swap processes should be done at least 48 hours before your last working day to help facilitate Operational resources and the Demob process.

Human Resource Message

September 3, 2023

Conduct and Behavior

Incident Objectives include treating each other with dignity and respect and acting in a professional manner while on the fire and in the community.

Incidents can become very much like a community and many times, after the camp is set up, it can be the second or third largest town in a county. And just as in any small town, problems with people's conduct and behavior can arise.

Unlike your normal workplace, on incident assignments the incident management team and the incident agency have something to say about your behavior, even when you are off duty. Your off-duty conduct comes under incident management and agency control when it:

- Impairs, or may impair, your performance or the performance of others.
- Results, or may result, in an accident or injury.
- Results, or may result, in damage to property.
- Disrupts, or may disrupt, incident routine.
- Infringes, or may infringe, on the rights of others.
- Jeopardizes, or may jeopardize, incident operation.

HR messages are intended to inform and to remind people of agency policy, law, civil rights, and appropriate vs inappropriate behavior while assigned to a fire.

We all must make choices in life—even on incident assignments. Knowing the rules and expectations before you face situations will help you make the right choices.

It all boils down to doing what is right in any situation and maintaining professionalism when on and off duty.

Sharps Creek Base Camp

In Camp Medical Procedure

If Red or Yellow

Yell for help and stay with patient

Provide first aid as appropriate

Contact Dinner Communications at **208-891-8093** or by radio

If Green

Go to camp medical tent for evaluate and treatment

Public Information Message

PHOTOS: Your fireline photos help us build understanding with the public. Community members want to see what you see because you go where others can't safely go. We are looking for any pictures of the fire line, fire engines and equipment, mop-up work, and **fire resources working on the fire line in their PPE.** You can send photos to:

Email: 2023.dinner@firenet.gov

Text: 509-388-1475

As always, make sure you're wearing all your PPE and conveying a professional, caring, and respectful attitude toward the homes and land in this community. Thanks for helping us out!

QUESTIONS FROM THE PUBLIC: If community members have questions that you do not feel equipped to answer professionally, please give them our fire information line: (541) 900-5862.

Liaison Message

Please click on the QR code and answer a few questions to be added to our Cooperators list. You will then be provided with a daily update and cooperators meeting invitation

EMERGENCY PLAN INCIDENT WITHIN AN INCIDENT

ON SCENE INCIDENT COMMANDER

In the event of an accident or medical incident of any size, your primary responsibility is to ENSURE that the victim(s) receive prompt and effective Triage, Treatment, Extrication and Transport.

- ENSURE THE MEDICAL INCIDENT REPORT IN THE INCIDENT ACTION PLAN IS BEING USED AND FOLLOWED- * IF DETERMINED TO BE A GREEN, DO NOT DECLARE EMERGENCY TRAFFIC AND ONLY COMPLETE LINE 1-4 ON MIR*.
- Conduct size-up of the incident, including nature of accident, number type of resources involved, latitude and longitude location (DD° MMM.MM format). Notify incident communications center and supervisor. Request assistance as needed.
- Order and coordinate medical and support response to the accident.
- Evaluate special needs (law enforcement, haz mat, etc.).
- Clear the command frequency if medical emergency. Coordinate with incident communications and air attack for air medical transportation needs.
- Preserve and photograph the scene for accident investigation.
- Remain aware of surroundings and the status of the main incident (delegate personnel to monitor the main fire) to ensure safety of medical treatment personnel.
- Until relieved, supervise and manage all personnel involved at the incident scene.
