Incident Objectives (ICS 202)						
1. Incident Name		2. Date Prepared		3. Time Prepared		
Umpqua Fires		9/15/2023		2000		
4. Operational Period (Date and Time)						
From:	9/16/2023	at	700	To:	9/16/2023	at 1900
5. Strategic Framework and Leaders Intent						
Strategic Framework:						
Implement suppression strategies that minimize impacts to identified values at risk, and that ensures firefighter and public safety are the top priority						
Specifically manage risk to firefighters by ensuring hazards are identified, assessed, and where possible mitigated. Be prepared to accept residual risk when exposure is commensurate with values threatened and the probability of achieving objectives is high.						
Leaders Intent:						
Engage in all work assignments with a high degree of professionalism and provide excellent customer service to all parties involved with the incident. All assigned personnel should:						
* Exhibit professional behavior						
* Ensure effective communication						
* Manage personal safety and the safety of others						
* Conduct effective fatigue management and implement work/rest cycles						
6. Management Objectives and Requirements						
Implement operational plans that establish holding features across the entire perimeter of each fire resulting in minimized duration and physical extent of each, and maximizing the protection of:						
* Highway 138 corridor						
* Private timber lands						
* Bohemia Mining District, Fairview Comm Site, Chilcoot Repeater, and other infrastructure						
* Active USFS timber sales						
* Natural and cultural resources						
Coordinate all fire suppression and repair work with Resource Advisors to protect natural and cultural values.						
Maintain effective relationships by ensuring timely information between the IMT, affected agencies, and the public.						
7. Operational Period Command Emphasis						
Weather is moderating, although fuels are especially dry and there will be a period of time, as we all know, for those fuel moistures to also moderate. With that in mind, take advantage again today to find those hot spots no one had found before. If you are gridding and/or patrolling, be extra vigilant, and watch out for stump holes or ash pits, even if it's ground you have covered before.

# Fire Weather Forecast

**FORECAST NO:** 17  
**FORECAST FOR:** Saturday Day Shift  
**SHIFT DATE:** 09/16/2023  
**DATE AND TIME ISSUED:** 09/15/2023 at 2000

**NAME OF FIRE:** Umpqua Fires  
**UNIT:** OR-UPF  
**SIGNED:** Steve Bodnar - Incident Meteorologist  
 405-203-9850 (cell) / stephen.bodnar@noaa.gov

**WEATHER DISCUSSION:** Conditions will remain warm and dry over the weekend but look for a subtle increase in humidity levels while shaving off a few degrees of heat as high pressure slowly weakens over southwestern Oregon. Some moisture drifting along the Cascades may be enough for some fair cumulus clouds but any threat for precipitation will remain well south and east of the fire area. Winds will remain light with diurnal shifts from the east in the morning to northwest in the afternoon with infrequent gusts over ridgelines and exposed aspects.

## SATURDAY:

**WEATHER:** Mostly sunny, continued warm and dry. Hazy with high level smoke from regional wildfires.

	Max Temperatures	Minimum Relative Humidity
<b>Valleys</b> (2500-3500 ft)	86-91° (Down 3-4)	17-25% (Up 8-10%)
<b>Ridges</b> (3500-4500 ft)	79-84° (Down 3-5) **	15-20% AM incr 24-28% (Up 10%) **

\*\*Sheltered Valleys on north aspects will experience temps/RH similar to ridge forecast.

## **20-FOOT WINDS:**

**Valleys and Slopes:** Upslope/upvalley 3 to 7 mph. Slopes and valleys aligned with west/northwest general winds, speeds increasing 5 to 9 mph gusts to 15 mph after 1300.

**Ridgetops:** southeast/south 3 to 7 mph becoming west/northwest 6-10 mph gusts up to 18 mph after 1300.

**AVIATION:** Smoke from Grizzly/Brice Creek may linger in valleys through midday with local visibility reductions.

**CWR (≥ 0.25"): 0%      LAL: 1      HAINES: 4      INVERSION BREAK/MH: 1100 hrs/ 6500 ft**  
**CAMP FORECAST:      Strader ICP: 90F      Sharps Creek Base Camp: 87F**

## SATURDAY NIGHT:

**WEATHER:** Clear skies with poor overnight recoveries.

	Min Temperatures - trend	Maximum Relative Humidity - trend
<b>Valleys</b> (2500-3500 ft)	49-56° - cooler	60-70% - wetter
<b>Ridges</b> (3500-4500 ft)	53-59° - cooler	50-60% - wetter

## **20-FOOT WINDS:**

Valleys and Slopes: Downslope/drainage 1 to 4 mph.

Ridgetops: East/northeast 4 to 7 mph.

**CWR (≥ 0.25"): 0%      LAL: 1      INVERSIONS:** Very shallow inversions overnight setting after 2100  
**CAMP FORECAST:      Strader ICP: 49F      Sharps Creek Base Camp: 50F**

**EXTENDED OUTLOOK:** Humidity levels will continue to increase and temperatures cool early next week as high pressure flattens and onshore flow increases. This will bring increasing northwest to north winds Tuesday into Wednesday with potential for offshore flow developing by late Wednesday and Thursday. The degree of warming and drying with the late week pattern carries high uncertainty. Precipitation chances remain low through next Friday.

# FIRE BEHAVIOR FORECAST

<b>FORECAST NUMBER:</b> 17	<b>TYPE OF FIRE:</b> Wildfire
<b>FIRE NAME:</b> Umpqua Fires	<b>OPERATIONAL PERIOD:</b> 0700-1900, Saturday September 16, 2023
<b>DATE ISSUED:</b> Friday September 15, 2023	<b>TIME ISSUED:</b> 19:30 Hours
<b>UNIT:</b> Umpqua National Forest	<b>SIGNED:</b> Sarah Bush – FBAN

## INPUTS

**WEATHER SUMMARY:** See Fire Weather Forecast for Details

### FUELS:

Fuels in the fire areas are primarily composed of *Timber Litter*, and *Timber Understory with moss/lichen present in most stands*. Mature conifer stands with western hemlock and Douglas fir present, generally have heavy surface fuel loading. 30 to 50+ year old second growth conifer stands contain needle litter and some down woody debris. Brush and reproduction present in areas with less dense canopies.

Dinner, Brice, Grizzly- Forecast -ERC 94<sup>th</sup> percentile. Yesterday's obs. **1hr-4%, 10hr-7%, 100hr-13%, 1000hr-17%**  
Chilcoot & Ridge- Forecast -ERC 96<sup>th</sup> percentile. Yesterday's obs. **1hr-6%, 10hr-10%, 100hr-14%, 1000hr-17%**

## OUTPUTS

### FIRE BEHAVIOR GENERAL:

The combination of low humidities during the day and poor overnight recoveries extend the burn period for areas with active fire, especially in Divs A and S/Z. The hot and dry conditions continue over the fire areas. The 1000-hr fuels continue to dry out, making them more available to consume and preheat low canopies. Expect lichen to be completely available to burn in mature stands of timber or on snags with potential for torching, due to RH less than 30%.

### Past Experience:

Watch Out: When dry fuels combine with any of the following: Haines 5 or 6, alignment of wind and slope, or poor RH recovery.

Substantial holding concerns may result from lichen found on tree bark in timber stands. Note that fires often have limited fire behavior for multiple days before conditions cause rapid growth.

One and 10-hr fuels will be more available to burn due to drying. Creeping and backing in surface fuels will be the most common fire behavior in areas with active burning.

### FIRE BEHAVIOR SPECIFIC:

#### Dinner, Brice, Grizzly, Chilcoot, and Ridge

**Chilcoot fire (Div J)** can expect less than 4' flame lengths and less than 6 ch/hr ROS where there is active fire. Fire spread potential will be largely dependent on location, aspect, and exposure/sheltering. One and 10-hr fuels on southern aspects will be significantly more available to carry fire in the peak of the day although at moderated ROS due to low wind speeds. Expect another day with an uptick in fire behavior on **Brice (Div A)** with backing fire behavior with the likelihood of isolated torching.

**Ridge (Div W) and Dinner (Div D)** fires should experience minimal fire behavior and isolated to interior portions of the fire today. Expect backing and isolated torching with an increase in smoke production on **Grizzly (Div S/Z)** due to combination of the dry environmental conditions and the suppression actions that are occurring. The area would exhibit up to 6'FL and 6 ch/hr ROS without suppression actions.

**Spotting distance up to 0.2 mi, Probability of Ignition- 60% shaded; 90% unshaded**

**Initial Attack:** In the event resources respond to a new start, recognize that fuels, topography, and conditions may be different than areas you have previously worked in.

**AIR OPERATIONS:** Inversion will limit ability to fly on Brice and Grizzly until mid-day.

## SAFETY

Review Standard Fire Orders.....1. Keep informed on fire weather conditions and forecasts. 2. Know what your fire is doing at all times. 3. Base all actions on current and expected behavior of the fire.

# HEALTH AND SAFETY MESSAGE

## Positive attitudes have positive influence on safety

Incident: Chilcoot/Grizzly/Dinner/Ridge/Brice

Date: **September 16, 2023**

### Fatigue/Stress

Accumulated (Chronic) Fatigue is defined as fatigue from which normal rest does not produce recovery. Accumulated fatigue is often caused by extended periods of stress with inadequate recovery periods, which results in decreased productivity, compromised immune function, and reduced alertness. Fatigued workers perform poorly, behave carelessly, tolerate greater errors and become inattentive. Chronic fatigue often results in increased stress, which may present itself through certain behavioral and physiological indicators, such as those described below:

#### Behavioral indicators

- Decreased motivation and low morale
- Increased irritability and depression

#### Physiological indicators

- Confused, poor problem solving
- Poor abstract thinking
- poor attention/decisions
- poor concentration/memory
- extreme emotional responses
- social/behavioral changes

#### Recommendations for chronic fatigue/stress are:

- Take longer periods of rest/recovery
- Ensure that workers are adequately rested before they begin work shifts
- Provide periodic rest breaks to allow physical and mental recovery
- Alternate between heavy and light tasks
- Eat well-balanced meals regularly, with energy supplements during periods of high exertion
- Maintain hydration
- Ensure workers maintain good personal hygiene
- Maintain high standards of physical fitness and work capacity
- extreme cases, personnel may need to be relieved of their duties

### DEFENSIVE DRIVING

- \*Less than 20 mph on fire access roads.
- \*Watchout for pedestrians in camp.
- \*Posted speed on all other roads.
- \*Avoid distractions when driving.
- \*Pull off the road to use communication devices.

**WATCHOUT, FOR WILDLIFE and THE OTHER GUY!!**

### Watch Out Situation of the Day

# Information Section

Do you or the public need to reach the PIOs?

Phone: (541) 900-5862

Emails: Brice Creek/Dinner/Grizzly: [2023.dinner@firenet.gov](mailto:2023.dinner@firenet.gov)

Chilcoot/Ridge: [2023.chilcoot@firenet.gov](mailto:2023.chilcoot@firenet.gov)

Please email us your photos! (And don't forget your PPE 😊)

Chilcoot and Ridge Fires Information

Brice, Dinner, and Grizzly Fires Information

Scan the codes above to access links to each of the official sources of information on all five of the Umpqua Fires—from InciWeb to Facebook to email addresses, it's all there!

## Sharps Creek (Dorena PO)

Dorena Post Office: C/O (Your Name)  
75694 Wicks Road  
Dorena, OR 97434

### Notes on Dorena PO pick-up:

Persons picking up the mail must present ID for their mail.

Business hours:

9 AM- 1 PM Monday -Friday

11 AM- 12 PM Saturday

(Closed Sundays)

## Strader ICP - New Address! (North Umpqua Ranger District):

C/O (Chilcoot Fire, Your Name, Resource Number)

North Umpqua Ranger District  
18782 North Umpqua Highway  
Glide, OR 97443

**Call or visit us if you've lost something!  
We have a PIO shops in both Glide and  
Sharps Creek**

# Human Resource Message

## Umpqua Fires September 15, 2023

*National Wildfire Coordinating Group, Risk Management Committee*

Recognizing  
**National Suicide Prevention Week**  
*In the Wildland Fire Community*

September 10-16, 2023

**Topics Addressed this Week:**

- Fighting mental health stigma
- Five ways to support someone who is struggling
- Navigating transitions
- What to expect when you call a crisis line
- Early Intervention
- A Story of survivorship

In recognition of National Suicide Prevention Week, the NWCG Mental Health Subcommittee has created daily messages to share resources and mental health information to prevent suicide in our community.

All materials can be downloaded from the NWCG Mental Health Subcommittee page:  
<https://www.nwccg.org/committees/mental-health-subcommittee>

Talking about mental health difficulties and suicide can be hard. "Bringing these topics into the open is the first step in challenging the mental health stigma, which can prevent us from seeking help." This year, we focused on pieces that took strength to share and that can help us better support ourselves and others.

We encourage you to use these materials to start conversations with coworkers about maintaining mental health and wellness. Each short piece takes only a few minutes to review, but it could provide information that makes a difference for you or someone else. Please share these resources widely.

We can all take action to support each other and break the silence around suicide and mental health struggles. In our work, we often face a range of challenges throughout our careers. Together, we are stronger. We can combat the stigma around mental health and create changes that are needed to support others, ourselves, and the teams we work in.

*If you are experiencing thoughts of suicide or are in distress, dial or text 988 for free, confidential support available 24/7.*

**988 SUICIDE & CRISIS LIFELINE**

# **CHECK-IN PROCESS - ALL RESOURCES**

**Grizzly (OR-UPF-000341) Dinner (OR-UPF-000357) Brice Creek (OR-UPF-000359)  
Chilcoot (OR-UPF-000345) Ridge (OR-UPF-000346)**

**STEP 1. Scan the QR code to fill out and submit the online check-in form**

- Have your resource order ready as many questions will reference it.

**STEP 2. Email your MANIFEST (if appropriate) depending on what incident you are assigned to. Include your request number in the subject line (e.g, E-118).**

- If you are assigned to the Grizzly, Dinner or Brice Creek incidents, email to [2023.dinner.checkin@firenet.gov](mailto:2023.dinner.checkin@firenet.gov)
- If you are assigned to the Chilcoot or Ridge incidents, email to [2023.chilcoot.checkin@firenet.gov](mailto:2023.chilcoot.checkin@firenet.gov)

**STEP 3. See Finance page of IAP for further instructions on how to check in with finance.**

**STEP 4. Complete vehicle inspection as instructed in your resource order, including contract inspection as needed.**

QR code to Umpqua Fires  
FTP page, then find button  
for **Check-in Form**

If you have any issues, please contact Check-in at [2023.chilcoot.checkin@firenet.gov](mailto:2023.chilcoot.checkin@firenet.gov) or  
[2023.dinner.checkin@firenet.gov](mailto:2023.dinner.checkin@firenet.gov)

# Extensions and Crew Swaps – NW 6

This is the Team Standard Operating procedure based on national policy

- **Resources may be demobed, regardless of crew status, if it is no longer needed.**
- Contract Crews are generally not extended unless replacement resources are scarce. Crews may swap crew members if needed by utilizing the crew swap form at the QR code below.
- Resources ordered on 'O' numbers cannot swap crew members (exception - some medical resources). These resources can extend depending on availability and needs of the incident. See Plans for a resource extension form.

## **Contracted Fireline Equipment Crew Swap Procedure**

- Contract equipment may stay on the incident until it is no longer needed, a maximum dollar amount is reached, or replacement crew members cannot be provided.
- It is the responsibility of the contract owner to track their crew members and ensure they maintain proper work/rest ratios. The IMT assumes contracted equipment will swap crew members as needed to provide adequate rest for their employees.
- Non-fireline equipment personnel (like hand wash stations) are not tracked other than a current onsite contact.
- If replacement crew members cannot be provided, this must be documented on an ICS-213 and provided to Operations and Plans at least 72 hours prior to the 14th workday. The resource will be demobed after 14 shifts OR an extension form may be completed based on operational need, see Plans for this form.
- Crew swaps MUST be tracked through the below QR code form as soon as known, no later than 1800 on the day prior to the swap. If the new crew member is the primary operator and any information in the IAP is incorrect, correct information MUST be provided to the Division Supervisor immediately following the operational briefing/division breakout.
- We prefer all members of a resource swap at once if possible. The crew swap form will need to be filled out for each individual crew member.
- Replacement workers must provide proof of current annual training upon request.
- The IMT will NOT track a last workday for these resources in the IAP unless:
  - It was determined to be excess to the needs of the incident and will demob
  - A resource was unable to provide replacement workers and will demob

QR code link to Umpqua Fires FTP page, then find button named **Crew Swap Form**

Please contact Plans after the briefing, at their office at either camp, or at Check-in if you have questions or wish to understand how your last workday/demob date was determined.

## Demob List for Saturday 09/16/2023

# Umpqua Fires

## Demob Check-Out Instruction Form

Pick up Demob Check-Out form at BRIEFING (IAP) or PLANNING to begin Process

RO # \_\_\_\_\_ Resource Name \_\_\_\_\_ Fire: \_\_\_\_\_ Date: \_\_\_\_\_

### Initial

Follow these steps in the order below:

- \_\_\_\_\_ 1. **Weed Wash** – ALL line resources that went off-road will need to go through a Weed Wash in your specific fire location. **If not needed, proceed to step 2.**
- \_\_\_\_\_ 2. **Ground support** – Contractors must stop to sign their release inspection. The inspection is optional for agency resources. **Agency resources proceed to step 3.**
- \_\_\_\_\_ 3. **Supply** – Return any items you checked out. All units must have an initial from SUPPLY confirming all equipment has been returned.
- \_\_\_\_\_ 4. **Communications** – Return any items you checked out. All units must have an initial from COMMUNICATIONS confirming all radio equipment has been returned.
- \_\_\_\_\_ 5. **Finance** – Proceed to finance to receive your final timesheet. Having ALL your times turned in and up to date will GREATLY speed up the process.
- \_\_\_\_\_ 6. **Demob – Final step.** Return completed Demob Check-Out form and any Documentation to Demob/Check-in. Documentation can also be emailed to 2023.chilcoot.docs@firenet.gov Contact Demob at 509-432-6143 with your estimated time of departure, arrival time and destination. You will not be released from the incident with Dispatch until this is completed.

### ALL AIR TRAVELERS

Submit your request 72 hours prior to flight date through the QR Code on the IAP Cover. Call 509-432-6143 for any questions or assistance.

### NIGHT SHIFT PERSONNEL

All night shift personnel coming off the line will be required to meet work/rest requirements before completing the Demob process.

### EXTENSIONS AND CREW SWAPS

All extension/crew swap processes **should be done at least 48 hours** before your last working day to help facilitate Operational resources and the Demob process.

<b>6. Control Operations/Work Assignments:</b>						
<p><b>Task:</b> Complete line on north part of Ridge Fire. Look for opportunities to secure fire edge in the northeast corner of fire below 5851 RD. Begin repair on 5851 RD. Continue mop-up and securing line on the remainder of the fire.</p> <p><b>Purpose:</b> Prevent impact to nearby values by limiting fire spread towards Fuller Lake, the Willamette NF and Boulder Creek Wilderness.</p> <p><b>End State:</b> Fire is contained east of Fuller Lake, North of the 3810 RD and west of the 5851 Rd.</p>						
<b>7. Special Instructions:</b>						
<ul style="list-style-type: none"> <li>Mitigate aerial hazards, both standing live and snag trees. Survey work areas and implement the risk management process in all tactical decisions. Support tactics that minimize impacts to private timber property. Avoid waterways with retardant applications and use screens to reduce the impact to Salmon/ Steelhead protected populations.</li> <li>Ensure signage is adequate at all drop points. Add signage at all major intersections to help with locating drop points.</li> <li>All resources assigned to this division will put OR-UPF-000346 P6QLFA (0615) on the bottom of CTR's and shift tickets.</li> </ul>

# IWI Procedures

## Fire Line

1. Request closest EMT/Medic to the injured person and report to DIV Supervisor.
2. Contact **Chilcoot Communications** and declare a “Red medical” (critical), “Yellow medical” (serious), or “Green medical” (minor). Request emergency radio traffic if needed.
3. Give location of patient and best access for initial responders.
4. Describe injury(s): Are they bleeding? How much? Are they conscious? Can they talk? Do they know what’s going on? How many people are hurt.
5. Gather information for MIR and relay to dispatch as soon as practical (see MIR back page)

## Sharps Basecamp

1. Life threatening emergency, call 911
2. Call Chilcoot Communications on Command 7 or 8 or (310) 780-4296
3. Contact (go to) the medical tent.
4. Call the medical tent 310-780-4296

## Strader ICP

1. Life threatening emergency, call 911
2. Call Chilcoot Communications on Command or 949-648-1591
3. Non-life-threatening go to blue medical trailer located between lunch trailer and laundry trailer

# MEDICAL PLAN (ICS 206 WF)

Controlled Unclassified Information//Basic

## Medical Incident Report

**FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.**

**FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.**

Use the following items to communicate situation to communications/dispatch.

1. CONTACT COMMUNICATIONS / DISPATCH (**Verify correct frequency prior to starting report**)

*Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."*

2. INCIDENT STATUS: *Provide incident summary (including number of patients) and command structure.*

*Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD Jones. EMT Smith is providing medical care."*

Severity of Emergency / Transport Priority	<input type="checkbox"/> RED / PRIORITY 1 Life or limb threatening injury or illness. Evacuation need is IMMEDIATE <i>Ex: Unconscious, difficulty breathing, bleeding severely, 2° – 3° burns more than 4 palm sizes, heat stroke, disoriented.</i> <input type="checkbox"/> YELLOW / PRIORITY 2 Serious Injury or illness. Evacuation may be DELAYED if necessary. <i>Ex: Significant trauma, unable to walk, 2° – 3° burns not more than 1-3 palm sizes.</i> <input type="checkbox"/> GREEN / PRIORITY 3 Minor Injury or illness. Non-Emergency transport <i>Ex: Sprains, strains, minor heat-related illness.</i>	
Nature of Injury or Illness & Mechanism of Injury		<i>Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)</i>
Transport Request		<i>Air Ambulance / Short Haul/Hoist Ground Ambulance / Other</i>
Patient Location		<i>Descriptive Location &amp; Lat. / Long. (WGS84)</i>
Incident Name		<i>Geographic Name + "Medical" (Ex: Trout Meadow Medical)</i>
On-Scene Incident Commander		<i>Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)</i>
Patient Care		<i>Name of Care Provider (Ex: EMT Smith)</i>

3. INITIAL PATIENT ASSESSMENT: *Complete this section for each patient as applicable (start with the most severe patient)*

Patient Assessment: See IRPG page 106

Treatment:

4. TRANSPORT PLAN:

Evacuation Location (if different): *(Descriptive Location (drop point, intersection, etc.) or Lat. / Long.)* Patient's ETA to Evacuation Location:

Helispot / Extraction Site Size and Hazards:

5. ADDITIONAL RESOURCES / EQUIPMENT NEEDS:

*Example: Paramedic/EMT, Crews, Immobilization Devices, AED, Oxygen, Trauma Bag, IV/Fluid(s), Splints, Rope rescue, Wheeled litter, HAZMAT, Extrication*

6. COMMUNICATIONS: Identify State Air/Ground EMS Frequencies and Hospital Contacts as applicable

Function	Channel Name/Number	Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND					
AIR-TO-GRND					
TACTICAL					

7. CONTINGENCY: **Considerations:** *If primary options fail, what actions can be implemented in conjunction with primary evacuation method? Be thinking ahead.*

8. ADDITIONAL INFORMATION: *Updates/Changes, etc.*

**REMEMBER:** Confirm ETA's of resources ordered. Act according to your level of training. Be Alert. Keep Calm. Think Clearly. Act Decisively.
