		In	cident	Objectives (I	CS 202)		
1. Incident Nam	ne			2. Date Prepare	ed	3. Time Prepar	ed
	Umpqua Fire	S		9/	16/2023		2000
1. Operational I	Period (Date and Time)						
From:	9/17/2023	at	700	To:	9/17/2023	at	1900
5. Strategic Fran	nework and Leaders Inte	ent					

### Strategic Framework:

Implement suppression strategies that minimize impacts to identified values at risk, and that ensures firefighter and public safety are the top priority

Specifically manage risk to firefighters by ensuring hazards are identified, assessed, and where possible mitigated. Be prepared to accept residual risk when exposure is commensurate with values threatened and the probability of achieving objectives is high.

### Leaders Intent:

Engage in all work assignments with a high degree of professionalism and provide excellent customer service to all parties involved with the incident. All assigned personnel should:

- \* Exhibit professional behavior
- \* Ensure effective communication
- \* Manage personal safety and the safety of others
- \* Conduct effective fatigue management and implement work/rest cycles

### 6. Management Objectives and Requirements

Implement operational plans that establish holding features across the entire perimeter of each fire resulting in minimized duration and physical extent of each, and maximizing the protection of:

- \* Highway 138 corridor
- \* Private timber lands
- \* Bohemia Mining District, Fairview Comm Site, Chilcoot Repeater, and other infrastructure
- \* Active USFS timber sales
- \* Natural and cultural resources

Coordinate all fire suppression and repair work with Resource Advisors to protect natural and cultural values.

Maintain effective relationships by ensuring timely information between the IMT, affected agencies, and the public.

### 7. Operational Period Command Emphasis

Rinse and repeat? Fuels are especially dry, although the weather continues to moderate. Fires that have been parked are on the move. Luckily, fire behavior should be low to moderate, still allowing active suppression where it is safe and appropriate to do so.

### **Fire Weather Forecast**

FORECAST NO: 18 NAME OF FIRE: Umpqua Fires

FORECAST FOR: Sunday Day Shift UNIT: OR-UPF

SHIFT DATE: 09/17/2023 SIGNED: Steve Bodnar - Incident Meteorologist

**DATE AND TIME ISSUED:** 09/16/2023 at 2000 405-203-9850 (cell) / stephen.bodnar@noaa.gov

**WEATHER DISCUSSION:** High pressure remains over the fire today but will continue to flatten as a shortwave tracks through Washington. There will be an influx of mid and high level clouds through the afternoon filtering sunshine. Look for subtle trends with temperatures and humidity. Winds will shift west earlier in the day and remain west to northwest through the afternoon. Slopes and drainages with alignment will be exposed to gusts of 15-18 mph.

### **SUNDAY:**

**WEATHER:** Mostly sunny, increasing mid and high clouds. Hazy with high level smoke from regional wildfires.

	Max Temperatures	Minimum Relative Humidity
<b>Valleys</b> (2500-3500 ft)	83-87° (Down 1-3)	21-27% (Up 5%)
<b>Ridges</b> (3500-4500 ft)	76-81° (Down 2-4) **	22-26% AM incr 28-35% (Up 6%) **

<sup>\*\*</sup>Sheltered Valleys on north aspects will experience temps/RH similar to ridge forecast.

### **20-FOOT WINDS:**

**Valleys and Slopes:** Upslope/upvalley 3 to 7 mph. Slopes and valleys aligned with west/northwest general

winds, speeds increasing 6 to 10 mph gusts to 16 mph after 1300.

Ridgetops: West 3 to 6 mph becoming west/northwest 7-11 mph gusts up to 18 mph after 1300.

**AVIATION:** Smoke from Grizzly/Brice Creek trapped in valley inversions through 1300, local visibility 2-6SM. **CWR (≥ 0.25"):** 0% **LAL:** 1 **HAINES:** 3 **INVERSION BREAK/MH:** 1100 hrs/ 6500 ft

CAMP FORECAST: Strader ICP: 87F Sharps Creek Base Camp: 86F

### **SUNDAY NIGHT:**

**WEATHER:** Mostly cloudy.

	Min Temperatures - trend	Maximum Relative Humidity - trend
<b>Valleys</b> (2500-3500 ft)	50-54° - cooler	55-65% - wetter
<b>Ridges</b> (3500-4500 ft)	53-58° - little change	45-60% - wetter

### **20-FOOT WINDS:**

Valleys and Slopes: Downslope/drainage 1 to 4 mph.

Ridgetops: East/northeast 4 to 7 mph.

CWR ( $\geq 0.25$ "): 0% LAL: 1 INVERSIONS: Weaker inversions overnight setting after 2100

**CAMP FORECAST:** Strader ICP: 50F Sharps Creek Base Camp: 50F

**EXTENDED OUTLOOK:** A trough begins to carve into the Northwest Monday and Tuesday transitioning into a cutoff low settling into Oregon Wednesday then drifting east Thursday and Friday. This will promote cooling and moistening through Wednesday followed by warming and drying Thursday and Friday. Winds will become increasingly breezy from the northwest Tuesday, north Wednesday, then northeast Thursday; Thursday looks to be the windiest. The system will bring a small threat for showers with low probabilities for wetting rains.

### FIRE BEHAVIOR FORECAST

FORECAST NUMBER: 18	TYPE OF FIRE: Wildfire
FIRE NAME: Umpqua Fires	OPERATIONAL PERIOD: 0700-1900, Sunday September 17, 2023
DATE ISSUED: Saturday September 16, 2023	TIME ISSUED: 19:30 Hours
UNIT: Umpqua National Forest	SIGNED: Sarah Bush – FBAN
	INPLITS

WEATHER SUMMARY: See Fire Weather Forecast for Details

FUELS:

Fuels in the fire areas are primarily composed of *Timber Litter*, and *Timber Understory with moss/lichen present in most stands*. Mature conifer stands with western hemlock and Douglas fir present, generally have heavy surface fuel loading. 30 to 50+ year old second growth conifer stands contain needle litter and some down woody debris. Brush and reproduction present in areas with less dense canopies.

Dinner, Brice, Grizzly- Forecast -ERC 93<sup>rd</sup> percentile. Yesterday's obs. 1hr-6%, 10hr-7%, 100hr-11%, 1000hr-16% Forecast -ERC 96<sup>th</sup> percentile. Yesterday's obs. 1hr-7%, 10hr-9%, 100hr-12%, 1000hr-16%

### **OUTPUTS**

### FIRE BEHAVIOR GENERAL:

The combination of low humidities during the day and poor overnight recoveries extend the burn period for areas with active fire, especially in Divs J and S/Z. The hot and dry conditions continue over the fire areas. The 1000-hr fuel moisture is lower, making them more available to consume and preheat canopies. Expect lichen to be available to burn with potential for torching, due to RH hovering around 30%.

One-hour fuels are available to burn but have responded to the higher RH. The 10 and 100-hr fuels continue to lag and are more available to burn. Creeping and backing in surface

fuels will be the most common surface fire behavior in areas with active burning.

### FIRE BEHAVIOR SPECIFIC:

Dinner, Brice, Grizzly, Chilcoot, and Ridge

**Chilcoot fire (Div J)** can expect up to 6' flame lengths and less than 6 ch/hr ROS where there is active fire. Fire spread potential will be largely dependent on location, aspect, and exposure/sheltering. Ten and 100-hr fuels in exposed stands will be significantly more available to carry fire in the peak of the day although at moderated ROS due to low wind speeds. Expect another day with similar fire activity on **Brice (Div A)** with backing fire behavior with the potential of isolated torching on both **Div J** and **A**.

Ridge (Div W) and Dinner (Div D) fires should experience minimal fire behavior and isolated to interior portions of the fire today. Expect backing and isolated torching with a moderate level of smoke production on Grizzly (Div S/Z) due to the dry environmental conditions and the ongoing suppression actions. Fire will back towards the Champion Ck Rd. If fire crosses Grizzly creek to the east, wind/slope alignment would push fire ESE towards the Noon Day Road, 2212 at 6ch/hr. The area would exhibit up to 6'FL without suppression actions.

### Spotting distance up to 0.2 mi, Probability of Ignition- 55% shaded; 85% unshaded

**Initial Attack:** In the event resources respond to a new start, recognize that fuels, topography, and conditions may be different than areas you have previously worked in.

AIR OPERATIONS: Inversion will limit ability to fly on Brice and Grizzly until early afternoon.

### **SAFETY**

Excellent day to review the back cover of your IRPG – ensure the STANDARD FIREFIGHTING ORDERS are followed, and WATCHOUT SITUATIONS are understood. Lots of fresh faces on the fire – share what you have observed.

### SAFETY MESSAGE

Positive attitudes have positive influence on safety

Incident:

24 Hr. Date: 9/17/2023 Grizzly/Chilcoot/Ridge/Dinner/Brice

### Major Hazards and Risks:

- \*Snags- Maintain Situational awareness in burned areas for snags and fire weakened green trees.
- \*Heat illness Dehydration, over-exertion, high temperatures, poor diet, and lack of rest. Stay hydrated.
- \*Air Operations Flight Hazards, bucket drops, back hauls, Communications, is the mission necessary?
- \*Transportation Fatigue, complacency, driving too fast, narrow, blind corners, brushy & dusty Roads, increased traffic due to the Pow Wow.
- \*Poison Oak- Usually present here below 3000 feet, exposed, southern aspect, rocky terrain.

### What is Situational Awareness (SA)?

Situational Awareness refers to the degree of accuracy by which one's perception of his current environment mirrors reality (knowing what is going on around you).

### PERCEPTION VERSUS REALITY

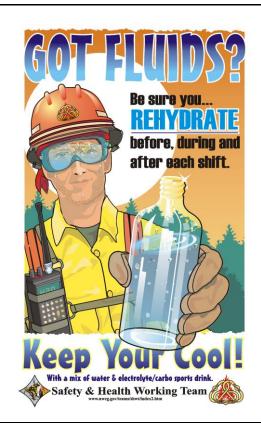

- View of Situation
- Incoming information
- Expectations & Biases
- Incoming Information versus Expectations

### FACTORS THAT REDUCE SITUATIONAL **AWARENESS (See IRPG xi)**

- Insufficient Communication
- Fatigue / Stress, Invulnerable, Anti-Authority
- Task Overload
- Task Under load
- Group Mindset, Macho, Complacent
- "Press on Regardless" Philosophy
- Degraded Operating Conditions

### Watch Out Situation of the Day

PLEASE SEND CTR/SHIFT TICKET ELECTRONICALLY
(In EMAIL subject: EX: TIME or CTR or SHIFT TICKET, RESOURCE ORDER, CASUAL HIRE FORM
AND FIRST, LAST NAME)
AND Fire Worked

Finance can be reached at:

Contractors: 971-713-0374; Overhead: 971-727-5250

COMP/CLAIMS - 971-245-0248

\*NOTE: If you are not able to submit an electronic version of your CTR or Shift Ticket. Please drop a hard copy in the Finance box. Make sure that a phone number is in the remarks section.

# Information Section

### Do you or the public need to reach the PIOs?

Phone: (541) 900-5862

Emails: Brice Creek/Dinner/Grizzly: <a href="mails:2023.dinner@firenet.gov">2023.dinner@firenet.gov</a>

Chilcoot/Ridge: 2023.chilcoot@firenet.gov

### Please email us your photos! (And don't forget your PPE (\*\*))

**Brice, Dinner, and Grizzly Fires Information** 

Scan the codes above to access links to each of the official sources of information on all five of the Umpqua Fires—from InciWeb to Facebook to email addresses, it's all there!

### **Sharps Creek (Dorena PO)**

Dorena Post Office: C/O (Your Name)

75694 Wicks Road Dorena, OR 97434

### Notes on Dorena PO pick-up:

Persons picking up the mail must present ID for their mail.

Business hours:

9 AM- 1 PM Monday -Friday 11 AM- 12 PM Saturday (Closed Sundays)

### Strader ICP

### (North Umpqua Ranger District):

### Addres your mail to:

C/O (Chilcoot Fire, Your Name, Resource Number)

North Umpqua Ranger District 18782 North Umpqua Highway Glide, OR 97443

### **Notes on Strader pickup:**

PIOs are checking mail daily; come visit our PIO trailer to get your items!

Call or visit us if you've lost something! We have a PIO shops in both Glide and Sharps Creek

### Human Resource Message

### Umpqua Fires September 17, 2023

# Transitioning - It's mid-September, how are you preparing for the off season? Discussion Guide

People returning from all hazard missions, particularly missions that are characterized by arduous work, and high or chronic stress, can experience transition discomfort. They can have increased symptoms of anxiety, post-traumatic stress disorder, and/or depression. Generally, first responders, humanitarian aid and disaster relief workers demonstrate considerable resilience and adapt to the stressful environments, but elevated and chronic stress can lead to decreases in behavioral health. Effective pre-deployment briefings and understanding common responses can increase confidence and develop a responder's ability to cope with highly stressful environments and transition from all hazard missions in a more comfortable and healthful way.

### **Common Experiences**

- Shifting Social Conditions Transition from mission driven and transactional communication to talking with family and friends.
- Changes in daily experience which drives feelings of isolation or belonging.
- Disruptions to work/life norms.
- Re-entry into needs and relationships at home.

# Firefighter and Family Members' Reintegration Guide Reset: Firefighter and Family Members' Reintegration Guide A companion document to "A Preparedness Guide for Firefighters and Their Families"

### **Leading Your Team -**

The common goal of the discussion is to understand and support healthy transitions from a fire assignment and to explore what your team needs to make transitions successful. You can host a discussion with your team by asking some of these questions.

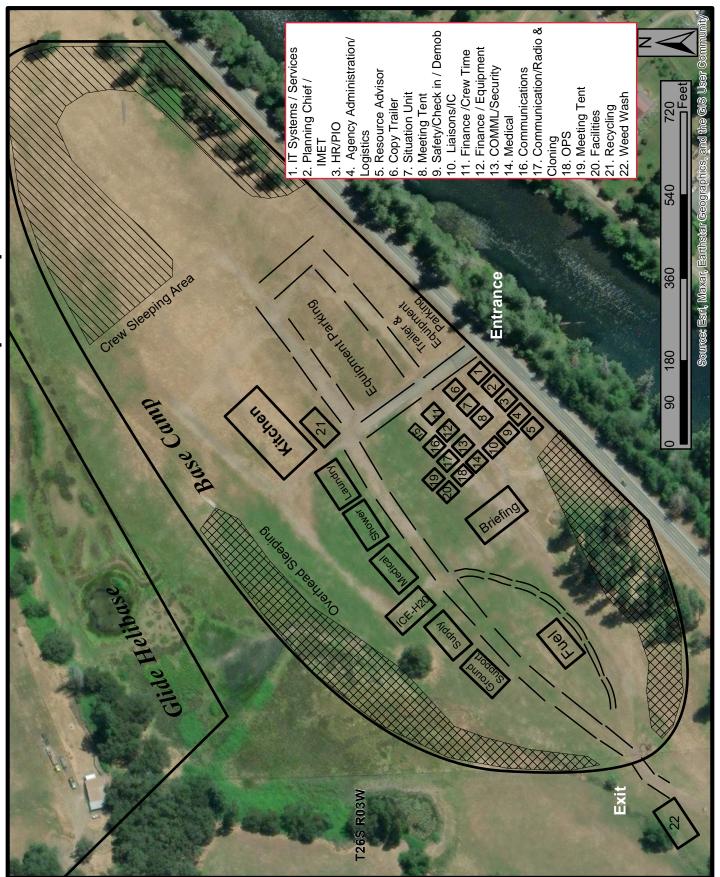

- What are some common transition experiences for this team?
- What support does each person value most for assisting them as they transition off an incident?
- What are your expectations for yourself, your family, your supervisor, and the organization? Mutual understanding of needs and interests are important.
- What is the difference between transitions between assignments and the transition at the end of the season?
- What do you want to do as a team as you head off into the winter season?

For Human Resources help contact Audrey Matsumonji 503-575-8547 K.C. Briggs 541-954-6520

For more information on resetting at the end of the season or between assignments follow this QR code to access the complete guide.

# Chilcoot ICP Basecamp Map

# Extensions and Crew Swaps – NW 6

This is the Team Standard Operating procedure based on national policy

Resources may be demobed regardless of crew status if it is no longer needed

O Numbers - Resources ordered as 'O' numbers cannot swap crew members (except some medical resources). They can extend an additional 7 or 14 days, depending on their availability and the needs of the incident. See Plans for an extension form.

Contract Crews are generally not extended unless replacement resources are scarce. Hand crews may swap crew members if needed, the IMT must be notified through the crew swap form through the QR code

### Contracted Fireline Equipment

- Contract equipment may stay on the incident until is no longer needed, a maximum dollar amount is reached, or replacement operators cannot be provided
- It is the responsibility of the Contract Owner to track their workers and ensure the workers maintain proper work/rest
- Non-fireline equipment personnel (like hand wash stations) are not tracked other than a current, onsite contact
- The IMT will assume contracted equipment will swap crew members as necessary to provide adequate rest for their workers
- If replacement personnel cannot be provided, this information must be documented on an ICS-213, provided to Operations and Plans at least 72 hours prior to the 14<sup>th</sup> workday, and the resource will be demobed after 14 shifts. Or, an extension form may be completed under certain circumstances, based on operational need, see Plans for this form.
- Crew swaps/replacements MUST be tracked through the provided QR code form (or a previously obtained form from a past IMT) as soon as known and/or at least by 1800 the day prior to the change.
- We prefer all members of a resource swap at once, if possible. However, you will need to fill out the QR code for each individual member.
- Replacement workers must provide proof of current annual training upon request
- The IMT will **NOT** track a last work day for these resources in the IAP unless
  - It was determined to be excess to the needs of the incident and will demob
  - A resource was unable to provide replacement workers and will demob

Please contact Plans after the briefing, at their office at either camp, or at Check-in if you have questions or wish to understand how your last work day/demob date was determined.

Crew Swap Form Is a Button on the Main Page:

# **CHECK-IN PROCESS - ALL RESOURCES**

# Grizzly (OR-UPF-000341) Dinner (OR-UPF-000357) Brice Creek (OR-UPF-000359) Chilcoot (OR-UPF-000345) Ridge (OR-UPF-000346)

- STEP 1. Scan the QR code to fill out and submit the online check-in form.
  - Have your resource order ready as many questions reference it.

- STEP 2. Email your MANIFEST (if appropriate) depending on what incident you are assigned to. Include your request number in the subject line (e.g, E-118, O-48).
  - If you are assigned to the Grizzly, Dinner or Brice Creek incidents, email to 2023.dinner.checkin@firenet.gov
  - If you are assigned to the Chilcoot or Ridge incidents, email to 2023.chilcoot.checkin@firenet.gov

- STEP 3. See Finance page of IAP for further instructions on how to check in with finance.
- STEP 4. Complete vehicle inspection as instructed in your resource order, including contract inspection as needed.

If you have any issues, please contact Check-in at (208) 891-6286 or by email at <a href="mailto:2023.chilcoot.checkin@firenet.gov">2023.chilcoot.checkin@firenet.gov</a> or <a href="mailto:2023.dinner.checkin@firenet.gov">2023.dinner.checkin@firenet.gov</a>

### 6. Control Operations/Work Assignments:

Task: Continue to hold, secure, and mop-up control lines. Monitor conditions in preparation to implement firing plan in direct areas. Complete contingency line preparation.

Purpose: Prevent fire from impacting values at risk, including communities to the west, commercial timberlands and T&E habitat.

End State: Fire is kept north of 22 RD, south of the 2216 RD, and east of the 732 RD. To protect the values at risk through the remainder of the fire season.

### 7. Special Instructions:

- All resources assigned to this division will add BRICE CREEK FIRE to all CTR and SHIFT TICKETS, OR-UPF-000359 P6QLI4. Ensure signage is adequate at all drop points.
  - Add signage to all major intersections to help with locating drop points.

### 6. Control Operations/Work Assignments:

**Task:** Complete and improve containment lines from the 3806 RD along the perimeter to Hipower Bluffs. Improve control lines and mop-up along the 3806 RD. Continue any remaining prep along the 300 spur road. Mop up and secure from the 3806 RD into the head of Hipower Creek.

RICH DOBSON

SOREN CAUDILL

STRADER ICP/0700

STRADER ICP/0700

1

STRADER ICP/1900

STRADER ICP/1900

**Purpose:** To prevent fire from impacting values such as nearby communities, private timberland, critical infrastructure by limiting fire spread.

End State: Fire is contained west of the 3806 RD and 300 RD and north of the Hipower Bluffs.

09/18

09/18

### 7. Special Instructions:

O-64 EMPF

O-58 EMTF

- Utilize Chilcoot repeater. Mitigate snag hazard and implement the risk management process in tactical decisions. Support tactics that minimize impacts to private property. Avoid waterways with retardant applications and reduce impact to Salmom/Steelhead protected populations. Ensure signage is adequate to all drop points. Add signage at all major intersections to help with locating drop points.
  - Resources assigned to this division should put OR-UPF-000345 Chilcoot P6QLF5 (0615) on all CTR's and shift tickets.

### 6. Control Operations/Work Assignments:

**Task:** Continue mop-up and securing along Hipower Creek. Continue lining and securing the fire edge at the head of Hipower creek. Monitor conditions and develop options as needed to burn out areas of dirty burn/ indirect line on the north edge of the fire near Hipower Creek.

**Purpose:** To prevent fore from impacting values, such as nearby communities, private timberland, and critical infrastructure by limiting fire spread.

**End State:** Fire is contained along existing fireline in Hipower creek, and south of the ridge line above the head of Hipower Creek.

### 7. Special Instructions:

- Mitigate aerial hazards, both standing live and snag trees. Survey work areas and implement the risk management process in all tactical decisions. Support tactics that minimize impacts to private timber and property. Avoid waterways with retardant applications and use screens to reduce impact to Salmo/ Steelhead protected populations.
  - All resources assigned to this division need to out OR0UPF-000345 P6QLF5 (0615) on there CTR's and shift tickets.

### 6. Control Operations/Work Assignments:

**Task:** Continue ti take action to secure fire from the southwest corner of Hipower Creek to the 3803 RD. Complete fireline preparation on the indirect line off the 3803 RD. Monitor conditions and continue preparation for implementing firing plan in indirect areas.

**Purpose:** To prevent fire from impacting nearby communities, private timberland, and critical infrastructure by limiting fire spread.

**End State:** Fir is contained east of the forest boundary, west of the Hipower Bluffs and north of the indirect line connected to the 3803 RD.

### 7. Special Instructions:

- Survey and mitigate aerial hazards including live trees and snags as needed. Implementing risk management process in all tactical decisions, utilize tactics that minimize impacts to private property. Avoid waterways with retardant. Use screens to reduce impact on salmon/ steelhead protected populations.
  - Ensure signage is adequate at all drop points. Add signage at all major intersections to help with locating drop zones.
  - All resources assigned to this Division need to put OR-UPF 000345 P6QLF5 (0615) on all CTR's and shift tickets.

### 6. Control Operations/Work Assignments:

**Task:** Complete line on north part of Ridge Fire. Look for opportunities to secure fire edge in the northeast corner of fire below 5851 RD. Begin repair on 5851 RD. Continue mop-up and securing line on the remainder of the fire.

**Purpose:** Prevent impact to nearby values by limiting fire spread towards Fuller Lake, the Willamette NF and Boulder Creek Wilderness.

End State: Fire is contained east of Fuller Lake, North of the 3810 RD and west of the 5851 Rd.

### 7. Special Instructions:

- Mitigate aerial hazards, both standing live and snag trees. Survey work areas and implement the risk management process in all tactical decisions. Support tactics that minimize impacts to private timber property. Avoid waterways with retardant applications and use screens to reduce the impact to Salmon/ Steelhead protected populations.
  - Ensure signage is adequate at all drop points. Add signage at all major intersections to help with locating drop points.
  - All resources assigned to this division will put OR-UPF-000346 P6QLFA (0615) on the bottom of CTR's and shift tickets.

### **IWI Procedures**

### Fire Line

- Request closest EMT/Medic to the injured person and report to DIV Supervisor.
- 2. Contact **Chilcoot Communications** and declare a "Red medical" (critical), "Yellow medical" (serious), or "Green medical" (minor). Request emergency radio traffic if needed.
- 3. Give location of patient and best access for initial responders.
- 4. Describe injury(s): Are they bleeding? How much? Are they conscious? Can they talk? Do they know what's going on? How many people are hurt.
- 5. Gather information for MIR and relay to dispatch as soon as practical (see MIR back page)

### **Sharps Basecamp**

- 1. Life threatening emergency, call 911
- 2. Call Chilcoot Communications on Command 7 or 8 or (310) 780-4296
- 3. Contact (go to) the medical tent.
- 4. Call the medical tent 310-780-4296

### Strader ICP

- Life threatening emergency, call 911
- 2. Call Chilcoot Communications on Command or 949-648-1591
- 3. Non-life-threatening go to blue medical trailer located between lunch trailer and laundry trailer

### **MEDICAL PLAN (ICS 206 WF)**

Controlled Unclassified Information//Basic

### **Medical Incident Report**

FOR A NON-EMERGENCY INCIDENT, WORK THROUGH CHAIN OF COMMAND TO REPORT AND TRANSPORT INJURED PERSONNEL AS NECESSARY.

FOR A MEDICAL EMERGENCY: IDENTIFY ON SCENE INCIDENT COMMANDER BY NAME AND POSITION AND ANNOUNCE "MEDICAL EMERGENCY" TO INITIATE RESPONSE FROM IMT COMMUNICATIONS/DISPATCH.

Use the following items to communicate situation to communications/dispatch.

. CONTACT COMMUNICATIONS	/ DISPATCH	(Verify correct frequen	cy prior to starting report)
--------------------------	------------	-------------------------	------------------------------

Ex: "Communications, Div. Alpha. Stand-by for Emergency Traffic."

2. INCIDENT STATUS: Provide incident summary (including number of patients) and command structure.

Ex: "Communications, I have a Red priority patient, unconscious, struck by a falling tree. Requesting air ambulance to Forest Road 1 at (Lat./Long.) This will be the Trout Meadow Medical, IC is TFLD, lones, FMT Smith is providing medical care."

Meadow Medical, IC is TFLD Jones. EM	T Smith is providing medical care."	, , , , , , , , , , , , , , , , , , , ,	9	, 5,
Severity of Emergency / Transport Priority	□ RED / PRIORITY 1 Life or Ex: Unconscious, difficulty bre. □ YELLOW / PRIORITY 2 Set Ex: Significant trauma, unable to □ GREEN / PRIORITY 3 Minor Ex: Sprains, strains, minor hea	athing, bleeding sever rious Injury or illn to walk, 2° – 3° burns or Injury or illness	rely, 2° – 3° burns more that ess. Evacuation may l not more than 1-3 palm size	n 4 palm sizes, heat stroke, disoriented. De DELAYED if necessary. Des.
Nature of Injury or Illness & Mechanism of Injury				Brief Summary of Injury or Illness (Ex: Unconscious, Struck by Falling Tree)
Transport Request				Air Ambulance / Short Haul/Hoist Ground Ambulance / Other
Patient Location			L	Descriptive Location & Lat. / Long. (WGS84)
Incident Name				Geographic Name + "Medical" (Ex: Trout Meadow Medical)
On-Scene Incident Commander				Name of on-scene IC of Incident within an Incident (Ex: TFLD Jones)
Patient Care				Name of Care Provider (Ex: EMT Smith)
3. INITIAL PATIENT ASSESSMEN	T: Complete this section for each patier	nt as applicable (start w	ith the most severe patient)	
Patient Assessment: See IRPG pag	e 106			
Treatment:				
4. TRANSPORT PLAN:				
Evacuation Location (if different): (D	escriptive Location (drop point, i	intersection, etc.) o	r Lat. / Long.) Patient's	ETA to Evacuation Location:
Helispot / Extraction Site Size and H	lazards:			
5. ADDITIONAL RESOURCES / EQ	UIPMENT NEEDS:			
Example: Paramedic/EMT, Crews, Immo	bilization Devices, AED, Oxygen, Tra	uma Bag, IV/Fluid(s),	Splints, Rope rescue, Whee	eled litter, HAZMAT, Extrication
6. COMMUNICATIONS: Identify St				
Function Channel Name/Nur	mber Receive (RX)	Tone/NAC *	Transmit (TX)	Tone/NAC *
COMMAND				
AIR-TO-GRND TACTICAL				
7. CONTINGENCY: Considerations: ahead.	   If primary options fail, what action	 s can be implemente	 ed in conjunction with prin	nary evacuation method? Be thinking
8. ADDITIONAL INFORMATION: Up		ding to your level	of training. Be Alert	Keep Calm. Think Clearly. Act Decisively.
