<b>Date and Time Products Delivered to Incident:</b> 09/06/2023 0400 PDT			
<b>Comments / notes on tonight's mission and this interpretation:</b>  <p><b>Dinner:</b> No growth or change to perimeter. Intense heat in the north on top of the ridge, with several isolated heat points mapped along the western edge and interior</p> <p><b>Brice Creek:</b> Some growth to the perimeter to the east towards the 22 Road, with intense heat along the 2216 Road and the 789 Road to the east. Scattered heat throughout most of the interior,</p> <p><b>Grizzly:</b> Some growth to the perimeter, with heat mapped along the northern edge of the perimeter near Grizzly Creek, and several isolated heat points outside the perimeter, downhill to the northwest</p>
