SAFETY MESSAGE

Driving is one of the most hazardous things we do.

Vehicle accidents are the source of more deaths and serious injuries to wildland firefighters than any other single cause.

Do the Following:

- **Practice situational awareness; be aware of what is happening in front, behind, and on both sides of your vehicle.**
-
- **Pay attention when pulling onto fast moving Highways.**
-
- **Delegate navigation and communication to a passenger, or pull over.**
-
- **Be constantly moving your vision, checking mirrors and distant road conditions.**
-
- **When talking with passengers, keep your eyes on the road and both hands on the steering wheel. Avoid serious or argumentative conversations.**
-
- **Fastening your seat belt, checking your mirrors, and maintaining safe following distances?**
-
- **Switch off driving with others if multiple people are in the vehicle if tired.**

HUMAN RESOURCE MESSAGE

Sutherland Fire

June 21, 2023

CHALLENGES PLUS...DIGNITY AND RESPECT

This has been a challenging fire season and our successful response to these challenges will hinge on our ability to work together and support one another. Therefore, as you go about your duties today, please remember to **treat everyone with dignity and respect** and **be helpful to each other.**

These quick turnaround fire assignments can be hard on everyone emotionally and physically so please take a breath and slow down. Moving at mach speed may not be the best approach to this challenging fire season. Pace yourselves because you will probably be heading out to the next fire assignment in a matter of days and you need to be mentally and physically fit for duty.

For those people who are traveling home, please travel safely. If you feel yourself getting tired, please pull over at a rest stop or safe place along the way and get the rest you need before continuing on to your home unit.

Thought for the Day:

Unexpected challenges can cause a great deal of stress and that stress can compromise our immune systems. The key to dealing with any stress is to breathe. **Breathe** in and out slowly and stay calm. You control your stress level by how you think; so change the way you think. Stay calm, remember to breathe...and get some rest.

Enjoy the day and be safe!
